Postcolonial Theory and Autobiography David Huddart, 2008-04-18 Cultural theory has often been criticized for covert Eurocentric and universalist tendencies. Its concepts and ideas are implicitly applicable to everyone, ironing over any individuality or cultural difference. Postcolonial theory has challenged these limitations of cultural theory, and Postcolonial Theory and Autobiography addresses the central challenge posed by its autobiographical turn. Despite the fact that autobiography is frequently dismissed for its Western masculine bias, David Huddart argues for its continued relevance as a central explanatory category in understanding postcolonial theory and its relation to subjectivity. Focusing on the influence of post-structuralist theory on postcolonial theory and vice versa, this study suggests that autobiography constitutes a general philosophical resistance to universal concepts and theories. Offering a fresh perspective on familiar critical figures like Edward W. Said and Gayatri Chakravorty Spivak by putting them in the context of readings of the work of Jacques Derrida, Gilles Deleuze, and Alain Badiou, this book relates the theory of autobiography to expressions of new universalisms that, together with postcolonial theory, rethink and extend norms of experience, investigation, and knowledge.

Critical Theory Amirhosein Khandizaji, Wolfgang Iser, 2025-07-01 Critical Theory: The Last Stand for Emancipation gathers leading voices in contemporary critical thought to reassert the enduring relevance of a tradition forged in resistance. From the early insights of the Frankfurt School to its intersections with decolonial, queer, ecological, and postcolonial critiques, this volume maps the evolving terrain of a radical project devoted to unveiling domination and envisioning emancipation. At a time when neoliberal orthodoxy undermines critical scholarship and authoritarian populism distorts public discourse, this book refuses resignation. It offers instead a lucid and urgent intervention: one that confronts the alienations of digital life, the legacies of colonial violence, and the manufactured chaos of late capitalism. With essays ranging from genealogy to praxis, from epistemology to affect, this collection insists that critical theory is not an academic relic but a living practice of resistance. Whether reckoning with the failures of progress or reclaiming hope as a political act, Critical Theory: The Last Stand for Emancipation is a call to think deeply, act ethically, and remember that critique remains a vital tool in the struggle for a more just world.

Sanctuary Nicole A. Waligora-Davis, 2011-03-01 In 2005, hurricane Katrina and its aftermath starkly revealed the continued racial polarization of America. Disproportionately impacted by the ravages of the storm, displaced Black victims were often characterized by the media as refugees. The characterization was wrong-headed and yet deeply revealing. Sanctuary: African Americans and Empire traces the long history of this and related terms like alien and foreign, a rhetorical shorthand that has shortchanged Black America for over 250 years. In tracing the language and politics that have informed debates about African American citizenship, Sanctuary in effect illustrates the historical paradox of African American subjecthood while frequently the target of legislation: slave law, the Black Codes, and Jim Crow. Blacks seldom benefited from the actions of the state. Blackness helped to define social, cultural, and legal aspects of American citizenship in a manner that excluded Black people themselves. They have been treated rather as foreigners in their home country. African American civil rights efforts worked to

change this Activists and intellectuals demanded equality but they were often fighting for something even more fundamental the recognition that blacks were in fact human beings As citizenship forced acknowledgement of the humanity of African Americans it thus became a gateway to both civil and human rights Waligora Davis shows how artists like Langston Hughes underscored the power of language to define political realities how critics like W E B Du Bois imagined democratic political strategies and how they and other public figures have used their writing as a forum to challenge the bankruptcy of a social economy in which the value of human life is predicated on race and civil identity **In the Light of Medieval Spain** S. Doubleday,D. Coleman,2008-08-04 This volume brings together a team of leading scholars in Spanish studies to interrogate the contemporary significance of the medieval past offering a counterbalance to intellectual withdrawal from urgent public debates **Postcolonial Encounters in International Relations** Alina Sajed,2013-07-18 Postcolonial Encounters in International Relations examines the social and cultural aspects of the political violence that underpinned the French colonial project in the Maghreb and the multi layered postcolonial realities that ensued This book explores the reality of the lives of North African migrants in postcolonial France with a particular focus on their access to political entitlements such as citizenship and rights This reality is complicated even further by complex practices of memory undertaken by Franco Maghrebian intellectuals who negotiate in their writings between the violent memory of the French colonial project in the Maghreb and the contemporary conundrums of postcolonial migration The book pursues thus the politics of post colonial memory by tracing its representations in literary political and visual narratives belonging to various Franco Maghrebian intellectuals who see themselves as living and writing between France and the Maghreb By adopting a postcolonial perspective a perspective quite marginal in International Relations the book investigates a different international relations which emerges via narratives of migration A postcolonial standpoint is instrumental in understanding the relations between class gender and race which interrogate and reflect more generally on the shared post colonial violence between North Africa and France and on the politics of mediating violence through complex practices of memory The Re-Emergence of the Single State Solution in Palestine/Israel Cherine Hussein,2015-02-11 Providing the first in depth intellectual and organizational mapping of the single state idea s recent resurgence in Palestine Israel this book enquires into its nature as a phenomenon of resistance as well as into its potential as a counterhegemonic force in the making against the processes of Zionism Reconstructing this moment of re emergence through primary material and interviews with diverse influential intellectuals its analysis highlights their self understandings worldviews strategies and perceptions of the phenomenon in which they are involved while questioning whether the single state idea has the potential to become a Gramscian inspired movement of resistance against Zionism In presenting this rare insight into a resistance movement in the making this book resurrects an empowering image of Antonio Gramsci infused with the writings of Edward Said This it does in an effort to both problematize the dominant interpretations of Gramsci s writings in International Relations and to decolonise the abstract way

in which resistance and counter hegemony are often studied in the discipline Contributing a mapping of a silenced alternative and hopeful way forward in the context of escalating violence this book is essential reading for those studying the Arab Israeli conflict Middle East Politics and International Relations      **Shakespeare and the Cultural Colonization of Ireland** Robin Bates,2008-01-11 Focusing on plays Richard II Henry V and Hamlet which appear prominently in the writing of the Irish nationalist movement of the early twentieth century this study explores how Irish writers such as Sean O Casey Samuel Beckett W B Yeats G B Shaw James Joyce and Seamus Heaney resisted English cultural colonization through a combination of reappropriation and critique of Shakespeare s work      **Paradoxical Citizenship** Silvia Nagy-Zekmi,2008-01-01 In a collection of intriguing essays on the work of Edward Said internationally recognized scholars pay homage to the late critic by addressing many aspects of his oeuvre including his breakthrough Orientalism the role of the intellectual the Question of Palestine and finally his dramatic memoir Out of Place This volume is a useful contribution for classroom use as well as recreational reading for those interested in the work of this controversial thinker      *Democratic Multiplicity* James Tully,Keith Cherry,Fonna Forman,Jeanne Morefield,Joshua Nichols,Pablo Ouziel,David Owen,Oliver Schmidtke,2022-08-04 Discloses the radical diversity of the field of democracy that is overlooked by mainstream political science      The New Yoder Peter Dula,Chris K. Huebner,2010-01-01 The work of John Howard Yoder has become increasingly influential in recent years Moreover it is gaining influence in some surprising places No longer restricted to the world of theological ethicists and Mennonites Yoder has been discovered as a refreshing voice by scholars working in many other fields For thirty five years Yoder was known primarily as an articulate defender of Christian pacifism against a theological ethics guild dominated by the Troeltschian assumptions reflected in the work of Walter Rauschenbusch and Reinhold and Richard Niebuhr But in the last decade there has been a clearly identifiable shift in direction A new generation of scholars has begun reading Yoder alongside figures most often associated with post structuralism neo Nietzscheanism and post colonialism resulting in original and productive new readings of his work At the same time scholars from outside of theology and ethics departments indeed outside of Christianity itself like Romand Coles and Daniel Boyarin have discovered in Yoder a significant conversation partner for their own work This volume collects some of the best of those essays in hope of encouraging more such work from readers of Yoder and in hopes of attracting others to his important work      **Writing Diaspora in the West** P. McCarthy,2009-02-17 In this bold intervention into the understanding of the diasporic experience within cultural studies McCarthy challenges a critical position emergent over the last thirty years what he calls the new marginalism He confronts the liberal orthodoxies that prevail in this area exposing contradictions in the thinking of its major theorists      Muslim Identities and Modernity Maha Habib,2016-03-16 What have the concepts of modernity and secularization meant for Islamic tradition culture and society How have the discourses which surround all of these issues influenced Muslim self perception and individual identity There have been many attempts to describe and analyse the

encounter between Islam and modernity in the Middle East but few have been able so effectively to explore the impact this has on the idea and reality of religious identity and individual religiosity Maha F Habib examines modernity from this angle offering socio cultural philosophical and literary perspectives She assesses how this is played out in Egypt analysing cultural changes in the country through its intellectual thought and literature from the nineteenth century to the present day Her references to the works of Muhammad Abdu Muhammad Husayn Haykal Abbas Mahmud al Aqqad Naguib Mahfouz Alaa al Aswany and Salwa Bakr reveal contemporary issues and concerns which will interest those researching the cultural and social milieu of modern Egypt
