Spurgeon in Black Deborah E. Willis, 2010-10 Very few would dare to compare any person past or present to the great 19th century preacher C H Spurgeon However this author defies the masses and presents to the world Rev Walter Bowie Jr one of the few African American reformed preachers in America and perhaps the world Rev Bowie s letters articles and sermons have stirred the souls of many individuals taking them from disgrace to grace that is only found at the foot of the Cross of our Lord and Savior Jesus Christ As with many reformed thinkers Rev Bowie s theological and philosophical position on many subjects presented in this collection are

controversial They have been particularly challenging to the traditional African American religious beliefs and world view As witnessed by the falling away of many from the church and its fundamental beliefs very few would dare to walk in the theological shoes of C H Spurgeon however this one man stands tall in those shoes and has found God s grace to be sufficient in these dark days The author Deborah E Willis a close personal friend of Rev Walter Bowie Jr realized the value of his writings when she was just a child She began collecting his letters articles studies in theology and sermons when she was 15 years old and now as an adult is providing the collection to the world Ms Willis works as a Marriage and The Cross Bearing of a Pastor s Wife

Study in Black and White Tanya Sheehan,2018-11-26 In this volume Tanya Sheehan takes humor seriously in order to trace how photographic comedy was used in America and transnationally to express evolving ideas about race black emancipation and civil rights in the mid 1800s and into the twentieth century Sheehan employs a trove of understudied materials to write a new history of photography one that encompasses the rise of the commercial portrait studio in the 1840s the popularization of amateur photography around 1900 and the mass circulation of postcards and other photographic ephemera in the twentieth century She examines the racial politics that shaped some of the most essential elements of the medium from the negative positive process to the convention of the photographic smile The book also places historical discourses in relation to contemporary art that critiques racism through humor including the work of Genevieve Grieves Adrian Piper Lorna Simpson Kara Walker and Fred Wilson By treating racial humor about and within the photographic medium as complex social commentary rather than a collectible curiosity *Study in Black and White* enriches our understanding of photography in popular culture Transhistorical and interdisciplinary this book will be of vital interest to scholars of art history and visual studies critical race studies U S history and African American studies

The Politics of Black Empowerment James Jennings,2000-01-08 *The Politics of Black Empowerment* uses the experiences of grassroots activists to develop various conceptualizations and explanations of Black political behavior today In analyzing Black politics since the late 1960s James Jennings focuses on both the behavioral aspects such as individual and group characteristics of voting and nonvoting and elections as well as more fundamental philosophical and cultural questions regarding Black politics

This study examines how the traditional face of Black politics and electoral activism interacts with a growing progressive face of Black politics. While traditional Black political activists seek access or political incorporation, another group aims for power sharing. The traditional approach is sometimes satisfied with merely replacing white politicians with Blacks, but the progressive constituency focuses on fundamentally changing the whole economic and political pie. Activists desirous of Black empowerment are pursuing a political and economic orientation that goes beyond programs based on access to American institutional arrangements and attempting to change or alter given political arrangements and social relations between Blacks and whites on the basis of changing the social structure and the distribution of wealth and power. Based on interviews with Black and Latino activists in several big cities as well as on a review of the literature and the Black newspapers around the country, *The Politics of Black Empowerment* describes the characteristics of Black empowerment activism in America.

The Affirmative Discomforts of Black Female Authorship Nahum N. Welang, 2022-10-17 Ubiquitous triple consciousness frameworks address the limitations of W. E. B. Du Bois's seminal double consciousness concept by emphasizing a third gendered lens, a definite consciousness that legitimizes the rich complexities of the Black American female experience. In *The Affirmative Discomforts of Black Female Authorship: Rethinking Triple Consciousness in Contemporary American Culture*, the author rethinks this methodology by examining an interesting assemblage of contemporary Black female authors: Roxane Gay, Beyoncé, and Issa Rae across four disciplines: history, literature, music, and television. Whose contemporary multimedia works are engaging with a third lens, the author conceptualizes as rupture. This rupture is a simultaneous embrace and rejection of racial and gendered experiences that are affirmative but also contradictory, unsettling, and ultimately unresolved. It problematizes hegemonic notions of identity and boldly moves towards a potential shift, a shift on the cusp of profound rethinking and reimagination.

The Landscape in Black and White Oliver Schuchard, 2005 In this magnificent

book Oliver Schuchard provides more than sixty five exquisite black and white photographs spanning his thirty eight years of photography In addition he explains the aesthetic rationale and techniques he used in order to produce these photographs emphasizing the profound differences between yet necessary interdependence of craft and content Although Schuchard believes that craft is important he maintains that the idea behind the photograph and the emotional content of the image are equally vital and are in fact functions of one another The author also shares components of his life experience that he believes helped shape his development as an artist and a teacher He chose the splendid photographs included in this book from among nearly 5 000 negatives that had been exposed all over the world from Missouri to Maine California Alaska Colorado France Newfoundland and Hawaii among many other locations Approximately 250 negatives survived the initial review and each of those was printed before a final decision was made on which photographs were to be featured in the book The final choices are representative of Schuchard s work and serve to substantiate his belief that craft concept and self must be fully understood and carefully melded for a good photograph to occur This amazing work by award winning photographer Oliver Schuchard will be treasured by professional and amateur photographers alike as well as by anyone who simply enjoys superb photography
