Hirsch, 2013-06-17 The founding of truth commissions legal tribunals and public confessionals in places like South Africa Australia Yugoslavia and Chile have attempted to heal wounds and bring about reconciliation in societies divided by a history of violence and conflict This volume asks how many of the popular conclusions reached by transitional justice studies fall short or worse unwittingly perpetuate the very injustices they aim to suture Though often well intentioned these approaches generally resolve in an injunction to move on as it were to leave the painful past behind in the name of a conciliatory future Through collective acts of apology and forgiveness so the argument goes reparation and restoration are imparted and the writhing conflict of the past is substituted for by the overlapping consensus of community And yet all too often the authors of this study maintain the work done in assuaging past discord serves to further debase and politically neutralize especially the victims of abuse in need of reconciliation and repair in the first place Drawing on a wide range of case studies from South Africa to Northern Ireland Bosnia Rwanda and Australia the authors argue for an alternative approach to post conflict thought In so doing they find inspiration in the vision of politics rendered by new pluralist new realist and especially agonistic political theory Featuring contributions from both up and coming and well established scholars this work is essential reading for all those with an interest in restorative justice conflict resolution and peace studies     **Divine Violence**

James Martel, 2013-03-01 Divine Violence looks at the question of political theology and its connection to sovereignty It argues that the practice of sovereignty reflects a Christian eschatology one that proves very hard to overcome even by left thinkers such as Arendt and Derrida who are very critical of it These authors fall into a trap described by Carl Schmitt

whereby one is given a false choice between anarchy and sovereignty both of which are bound within and return us to the same eschatological envelope In *Divine Violence* the author argues that Benjamin supplies the correct political theology to help these thinkers He shows how to avoid trying to get rid of sovereignty the anarchist move that Schmitt tells us forces us to decide against the decision and instead to seek to de center and dislocate sovereignty so that its mythological function is disturbed He does this with the aid of divine violence a messianic force that comes into the world to undo its own mythology leaving nothing in its wake Such a move clears the myths of sovereignty away turning us to our own responsibility in the process In that way the author argues Benjamin succeeds in producing an anarchism that is not bound by Schmitt's trap but which is sustained even while we remain dazzled by the myths of sovereignty that structure our world *Divine Violence* will be of interest to students of political theory to those with an interest in political theology philosophy and deconstruction and to those who are interested in thinking about some of the dilemmas that the left finds itself in today **A History of Modern**

**Eastern European Jewish American Narratives, 1890-1930** Dana Mihailescu, 2018-06-29 The compelling argument of Eastern European Jewish American Narratives 1890 1930 Struggles for Recognition is that narratives of Eastern European Jewish Americans are important discourses offering a response to America s norms of assimilation rationalized progress and control in the early twentieth century under the guise of commitment to the specificity of individual experiences The book sheds light on how these texts suggest an alternative ethical agency which encompasses both mainstream and minority practices and which capitalizes on the need of keeping alive individual responsibility and vulnerability as the only means to actually create a democratic culture In that this book opens up novel areas of inquiry and research for both the academic world and the social and cultural fields facilitating the rediscovery of long neglected Eastern European Jewish American writers and the rethinking of the more familiar authors addressed
