China's Transition from Socialism Dorothy J. Solinger, 1993 The essays in this volume address the industrial commercial urban and regional reforms of China's planned economy during the 1980s The emphasis is on the dominating institutional and bureaucratic presence of the state even as it sought to loosen the pre 1979 vertically structured centralised command system and to introduce some market principles to stimulate economic activity The essays fall into four categories theoretical and policy discussions and debates at the central leadership level reform of the urban economy and of inter regional relations industrial and commercial reforms and the rise and position of the new entrepreneurial class Many of the essays draw on interviews with Chinese economic officials in the Central China city of Wuhan and therefore this is the only study that uses local data on actual operations of reforms from a Chinese city the other sources are the Chinese press and Chinese official and scholarly journals In each of the categories there are pieces from different points in the chronological process of reform This study begins with the first theoretical discussions among China's economists and top political leaders in the late 1970s and concludes with experiments with bankruptcy and stock markets in the late 1980s The countervailing heavy presence of the state at both the policy and the practical levels throughout the reform decade is its unifying theme

Public Finance in China Jiwei Lou, Shuilin Wang, 2008-01-31 Since 1980 China's

economy has been the envy of the world Its annual growth rate of more than 9 percent during this period makes China today the world s fourth largest economy And this sustained growth has reduced the poverty rate from 60 percent of the population to less than 10 percent However such rapid growth has also increased inequalities in income and access to basic services and stressed natural resources The government seeks to resolve these and other issues by creating a harmonious society shifting priorities from the overriding pursuit of growth to more balanced economic and social development This volume compiles analyses and insights from high level Chinese policy makers and prominent international scholars that address the changes needed in public finance for success in the government s new endeavor It examines such key policy issues as public finance and the changing role of the state fiscal reform and revenue and expenditure assignments intergovernmental relations and fiscal transfers and financing and delivery of basic public goods such as compulsory education innovation public health and social protection And it offers concrete recommendations for immediate policy changes and for China s future reform agenda Public Finance in China is a must read for specialists in public finance and for those seeking an understanding of the complex and daunting challenges China is facing

The Divergent Dynamics of Economic Growth Richard H. Day,2003-11-13 This book explains how changing technology and economizing behaviour induce vast changes in productivity resource allocation labour utilization and patterns of living Economic growth is seen as a process by which businesses regimes countries and the whole world pass through distinct epochs each one emerging from its predecessor each one creating the conditions for its successor Viewed from a long run perspective growth must be characterized as an explosive process marked by turbulent transitions in social and political life as societies adapt to new opportunities the demise of old ways of living and to the vast increase and redistribution of human populations The book is based on a synthesis of classical economics and contemporary concepts of adaptation and economic evolution Although it is based on analytical methods the text has been stripped of all equations and with few exceptions is devoid of technical jargon
