Reformation In Britain Ireland Ohcc

Ian Hazlett

Reformation In Britain Ireland Ohcc:

William Tyndale (1491-1536) Arne Dembek, 2010 English summary This book on the life and work of the English reformer William Tyndale is the first comprehensive study of the theological work of one of England's most important sixteenth century theologians Based on a detailed analysis of his writings Arne Dembek draws a fascinating portrait of an English exile in Germany and the Netherlands who was utterly attracted by Reformation theology and therefore also deeply involved in the struggle for religious change in his homeland Tyndale's contribution to sixteenth century Protestant theology is considered in the context of other contemporary authors such as Luther and Bucer and within the framework of the Reformation as a European movement German description Der englische Theologe Bibelübersetzer und Märtyrer William Tyndale gehört zu den grossen Unbekannten in der Geschichte des Protestantismus und ist zugleich ein wichtiges Bindeglied zwischen der Reformation auf dem europäischen Festland und der Umgestaltung der englischen Kirche unter Heinrich VIII Arne Dembek zeichnet den Lebensweg Tyndales der von England über Deutschland ins Exil nach Antwerpen führte nach und stellt sein theologisches Gesamtwerk im historischen und theologiegeschichtlichen Kontext vor Dabei entsteht das Bild eines originellen Auslegers der Heiligen Schrift der als glühender Verfechter reformatorischer Theologie sowohl aus dem Werk Luthers schöpfte zugleich jedoch auch in inhaltlicher Nähe zur oberdeutschen Reformation stand Als einer der bedeutendsten reformatorischen Theologen Englands erscheint Tyndale so als Zeuge für die Reformation als europäische Bewegung

The Reformation in Britain and Ireland Ian Hazlett, 2003 This book is a new and wide ranging introduction to the Reformation throughout the British Isles Full treatment is given to the fascinating and often very different but interrelated experiences in England Wales Scotland and Ireland This approach is unique Previous introductions have invariably concentrated on England with lesser sections on Wales and Scotland often ignoring Ireland altogether The book is more than a modern introduction survey and summary of the Reformation period Ian Hazlett provides fresh research and critical analysis which will be of considerable interest to a new generation of scholars and students The material is written and organized in a highly readable and accessible form Here is a well balanced introduction and resource for non specialists as well as scholars and students

A History of the Protestant Reformation in England and Ireland William Cobbett, 1896 *A History of the Protestant Reformation in England and Ireland, Written in 1824-1827* William Cobbett, 1899

Reformation in Britain and Ireland Felicity Heal, 2003 The study of the Reformation in England and Wales Ireland and Scotland has usually been treated by historians as a series of discrete national stories Reformation in Britain and Ireland draws upon the growing genre of writing about British History to construct an innovative narrative of religious change in the four countries three kingdoms The text uses a broadly chronological framework to consider the strengths and weaknesses of the pre Reformation churches the political crises of the break with Rome the development of Protestantism and changes in popular religious culture The tools of conversion the Bible preaching and catechising are accorded specific

attention as is doctrinal change It is argued that political calculations did most to determine the success or failure of reformation though the ideological commitment of a clerical elite was also of central significance

Enforcing Reformation in Ireland and Scotland, 1550-1700 Crawford Gribben,2016-04-29

The last few years have witnessed a growing interest in the study of the Reformation period within the three kingdoms of Britain revolutionizing the way in which scholars think about the relationships between England Scotland and Ireland Nevertheless it is a fact that the story of the British Reformation is still dominated by studies of England an imbalance that this book will help to right By adopting an international perspective the essays in this volume look at the motives methods and impact of enforcing the Protestant Reformation in Ireland and Scotland The juxtaposition of these two countries illuminates the similarities and differences of their social and political situations while qualifying many of the conclusions of recent historical work in each country As well as Investigating what reformation meant in the early modern period and examining its literal rhetorical doctrinal moral and political implications the volume also explores what enforcing these various reformations could involve Taken as a whole this volume offers a fascinating insight into how the political authorities in Scotland and Ireland attempted with varying degrees of success to impose Protestantism on their countries By comparing the two situations and placing them in the wider international picture our understanding of European confessionalization is further enhanced
