Reformers Shaping Australian Society From The 60s To The 80s

Stuart Macintyre

Reformers Shaping Australian Society From The 60s To The 80s:

Pivot of Power Paul Strangio, Paul 't Hart, James Walter, 2017-08-28 The prime ministership remains the main prize in Australian politics but it is a precarious one Leadership turnover in recent years has seen more prime ministers rise and fall than at any time since the decade after federation What explains this volatility The Pivot of Power is the second volume in a unique blend of collective biography and institutional history that shows the skills limitations and passions of incumbents are only part of the story The ways in which prime ministers thrive and fail are influenced by the resources at their command the evolving nature of the parties they lead the daunting public expectations they face under a relentless media gaze and the challenges that history throws at them Recent changes in these areas have had a destabilising effect and made the role of prime minister more onerous than ever After decades of strong national leadership the office has rarely seemed quite so confounding as it does for its contemporary holders The Pivot of Power explains how this has come about And its rich account of prime ministerial fortune since the mid twentieth century yields historical lessons for overcoming the current malaise

Poor Relation Stuart Macintyre, 2010-07-01 What are the social sciences What do they do How are they practised in Australia The Poor Relation examines the place of the social sciences from economics and psychology to history law and philosophy in the teaching and research conducted by Australian universities Across sixty years The Poor Relation charts the changing circumstances of the social sciences and measures their contribution to public policy In doing so it also relates the arrangements made to support them and explains why they are so persistently treated as the poor relation of science and technology

Keeper Of The Faith Paul Strangio, 2013-06-14 Jim Cairns is a familiar sight around the markets of Melbourne seated at a table stacked with copies of his latest book It seems an unlikely occupation for a man who was once the driving force and major thinker in the Labor Party Left a man who reached the positions of Deputy Prime Minister and Treasurer in Australia's most reformist government under Gough Whitlam Cairns post 1975 trajectory bewildered many of his one time followers not least the significant section of the baby boomer generation who rallied behind him during the Moratoriums against the Vietnam War To some he is a tragic fallen hero to others a relic of an earlier age of idealism But Cairns was never a conventional politician In this mature and sophisticated biography Paul Strangio draws a compelling picture of the inner man revealing a consistent thread running through the apparent contradictions of Cairns public career He explains how a policeman turned into a counter culture guru how an opponent of capitalism became Treasurer of Australia how a devoted husband could feel a kind of love for Junie Morosi Both highly readable and carefully researched Keeper of the Faith reassesses the part Cairns played in shaping Australian public life In tracing his ideological and political rivalry with Whitlam it challenges the popular nostalgia that surrounds his former leader Strangio argues that Cairns contribution to public life especially as a voice of dissent against the established order has been seriously underestimated Drawing on a rich range of archival and oral sources and recounting many fascinating anecdotes this is a masterly portrait of

one of those rare people who never waver in their search for truth The Collins Class Submarine Story Peter Yule, Derek Woolner, 2008-06-02 A unique and outstanding military and industrial achievement the Collins class submarine project was also plagued with difficulties and mired in politics Its story is one of heroes and villains grand passions intrigue lies spies and backstabbing It is as well a story of enormous commitment and resolve to achieve what many thought impossible The building of these submarines was Australia's largest most expensive and most controversial military project From initiation in the 1981 2 budget to the delivery of the last submarine in 2003 the total cost was in excess of six billion dollars Over 130 key players were interviewed for this book and the Australian Defence Department allowed access to its classified archives and the Australian Navy archives Vividly illustrated with photographs from the collections of the Royal Australian Navy and ASC Pty Ltd The Collins Class Submarine Story Steel Spies and Spin first published in 2008 is a riveting and accessibly written chronicle of a grand scale quest for excellence *Australian National Bibliography*, 1978 No End of a Lesson Stuart Macintyre, André Brett, Gwilym Croucher, 2017-10-02 A revolution swept through universities three decades ago transforming them from elite institutions into a mass system of higher education Teaching was aligned with occupational outcomes research was directed to practical results Campuses grew and universities became more entrepreneurial Students had to juggle their study requirements with paid work and were required to pay back part of the cost of their degrees The federal government directed this transformation through the creation of a Unified National System How did this happen What were the gains and the losses No End of a Lesson explores this radical reconstruction and assesses its consequences

Reformers Margaret Bowman, Michelle Grattan, 1989 Chapter on Pat OShane discusses her early career in Queensland but focusses on her involvement in the New South Wales governments inquiry into Aborigines and later as the Department head in the Ministry of Aboriginal Affairs includes comments by OShane on the NSW and federal bureaucracies she sees the housing program and changes in Aboriginal education and employment in the public sector as her greatest contribution during those years **Racket** Gideon Haigh, 2008-09-01 A generation ago in Australia abortion was a crime It was also the basis of one of the country's most lucrative and longest lasting criminal rackets The Racket describes the rise and fall of an extraordinary web of influence which culminated in the landmark ruling that made abortion legal and a public inquiry that humiliated a powerful government and a glamorous police force With forensic skill and psychological subtlety Gideon Haigh brings to life a story of corruption in high places and human suffering in low of murder suicide courtroom drama political machinations and of the abortionists themselves among them a multi millionaire philanthropist a communist bush poet a timid aesthete and a bankrupt slaughterman It is the story too of Bertram Wainer abortion's crash through or crash campaigner and the moral issue he bequeathed which still divides Australians **Media Information Australia**, 1990
