**People Forced to Flee** United Nations High Commissioner for Refugees, 2022-02-16 People in danger have received protection in communities beyond their own from the earliest times of recorded history The causes war conflict violence persecution natural disasters and climate change are as familiar to readers of the news as to students of the past It is 70 years since nations in the wake of World War II drew up the landmark 1951 Convention relating to the Status of Refugees *People Forced to Flee* marks this milestone It is the latest in a long line of publications stretching back to 1993 that were previously entitled *The State of the World's Refugees* The book traces the historic path that led to the 1951 Convention showing how history was made by taking the centuries old ideals of safety and solutions for refugees to global practice It maps its progress during which international protection has reached a much broader group of people than initially envisaged It examines international responses to forced displacement within borders as well as beyond them and the protection principles that apply to both It reviews where they have been used with consistency and success and where they have not At times the strength and resolve of the international community seems strong yet solutions and meaningful solidarity are often elusive Taking stock today at this important anniversary is all the more crucial as the world faces increasing forced displacement Most is experienced in low and middle income countries and persists for generations People forced to flee face barriers to improving their lives contributing to the communities in which they live and realizing solutions Everywhere an effective response depends on the commitment to international cooperation set down in the 1951 Convention

a vision often compromised by efforts to minimize responsibilities There is growing recognition that doing better is a global imperative Humanitarian and development action has the potential to be transformational especially when grounded in the local context People Forced to Flee examines how and where increased development investments in education health and economic inclusion are helping to improve socioeconomic opportunities both for forcibly displaced persons and their hosts In 2018 the international community reached a Global Compact on Refugees for more equitable and sustainable responses It is receiving deeper support People Forced to Flee looks at whether that is enough for what could and should help define the next 70 years

**Everyday Peacebuilding through Democratic Political Education** Stephen L. Esquith, 2025-06-14  
Everyday peacebuilding through democratic political education is a necessary but not sufficient condition for limiting negative political emotions such as anger fear and resentment and for cultivating the political virtues needed for an alternative more democratic orientation towards power one that values and exercises power with other members of emergent political communities not power over them These democratic political virtues include self restraint resistance humility respect for the civic dignity of others non violent protest and the radical poise needed to cultivate and coordinate this constellation of political virtues For those who have been forcibly displaced or are only dimly aware of their complicity in this type of political violence to maintain a radically poised stance is a continuing process of democratic political education This book demonstrates how this notion of Radical Poise in theory and practice can be developed through a hybrid process of political education in one country Mali to contest the growth of violence and fear there and elsewhere

**Confronting the Global Forced Migration Crisis** Tom Ridge, Gayle Smith, 2018-06-22  
The size and scope of the global forced migration crisis are unprecedented Almost 66 million people worldwide have been forced from home by conflict If recent trends continue this figure could increase to between 180 and 320 million people by 2030 This global crisis already poses serious challenges to economic growth and risks to stability and national security as well as an enormous human toll affecting tens of millions of people These issues are on track to get worse without significant course correction soon the forced migration issues confronted today will seem simple decades from now Yet efforts to confront the crisis continue to be reactive in addressing these and other core issues The United States should broaden the scope of its efforts beyond the tactical and reactive to see the world through a more strategic lens colored by the challenges posed and opportunities created by the forced migration crisis at home and abroad CSIS convened a diverse task force in 2017 to study the global forced migration crisis This report is a result of those findings

**The Message of Love** Patrick Mitchel, 2019-09-19  
Love such a deceptively simple and popular little word It is universally agreed that we need love to live and flourish as human

beings and yet within our contemporary culture there are numerous confusing competing and evolving ideas about what love is There are few greater subjects in Christian theology than love yet it is a surprisingly complex and challenging concept to understand let alone live out faithfully Patrick Mitchel s conviction is that Christians need to be thinking about and practising love in compelling and authentic ways Our task is not only to articulate what love is but also to show to the world what true Christian love looks like in practice The only thing that counts is faith expressing itself through love Gal 5 6 NIV Mitchel s exposition explores love in the Old Testament how the love of God is supremely revealed in the mission and death of Jesus Christ love in the life and teaching of Jesus and the church s calling to be a community of love He helps us to grasp afresh the breadth depth scope and radically counter cultural nature of the Bible s teaching on love With a fully integrated study guide suitable for both individuals and groups *The Message of Love* will help you to see how the Bible s unified teaching on this vital theme can impact your life today

*Women and Wars* Carol Cohn, 2013-04-03 Where are the women In traditional historical and scholarly accounts of the making and fighting of wars women are often nowhere to be seen With few exceptions war stories are told as if men were the only ones who plan fight are injured by and negotiate ends to wars As the pages of this book tell though those accounts are far from complete Women can be found at every turn in the gendered phenomena of war Women have participated in the making fighting and concluding of wars throughout history and their participation is only increasing at the turn of the 21st century Women experience war in multiple ways as soldiers as fighters as civilians as caregivers as sex workers as sexual slaves refugees and internally displaced persons as anti war activists as community peace builders and more This book at once provides a glimpse into where women are in war and gives readers the tools to understand women s told and untold war experiences in the greater context of the gendered nature of global social and political life
