Seneca Morphology Dictionary:

Seneca Morphology and Dictionary Wallace L. Chafe, 1967 Seneca Morphology and Dictionary [with Bibliography] Wallace L. Chafe, 1967 *A Grammar of Kambera* Marian Klammer, 2011-05-12 The series builds an extensive collection of high quality descriptions of languages around the world Each volume offers a comprehensive grammatical description of a single language together with fully analyzed sample texts and if appropriate a word list and other relevant information which is available on the language in question There are no restrictions as to language family or area and although special attention is paid to hitherto undescribed languages new and valuable treatments of better known languages are also included No theoretical model is imposed on the authors the only criterion is a high standard of scientific quality To discuss your book idea or submit a proposal please contact Birgit Sievert **The Great Law and the Longhouse** William Nelson Fenton, 1998 The Great Law a living tradition among the conservative Iroquois is sustained by celebrating the condolence ceremony when they mourn a dead chief and install his successor for life on good behavior This ritual act reaching back to the dawn of history maintains the League of the Iroquois the legendary form of government that gave way over time to the Iroquois Confederacy Fenton verifies historical accounts from his own long experience of Iroquois society so that his political ethnography extends into the twentieth century as he considers in detail the relationship between customs and events His main argument is the remarkable continuity of Iroquois political tradition in the face of military defeat depopulation territorial loss and acculturation to European technology *Historical Linguistics* 1997 Monika S. Schmid, Jennifer R. Austin, Dieter Stein, 1998-10-15 This volume presents a selection from the papers given at the 13th International Conference on Historical Linguistics It offers a window on the current state of the art in historical linguistics the papers cover a wide range of different languages different language families and different approaches to the study of linguistic change ranging from optimality theory theories of grammaticalization and the invisible hand treatments of language contact and creolization to the linguistic consequences of political correctness Among the languages under discussion are Akkadian Catalan Dutch Finnish Japanese Sranan Western Malayo Polynesian Yiddish and a variety of Romance and Native American languages William Fenton William Nelson Fenton, 2009-12-01 William N Fenton s contributions to the understanding of the cultures and histories of the Iroquois are formidable Fenton grounded his studies in decades of fieldwork among the Senecas an encyclopedic knowledge of pertinent historical accounts a keen appreciation for interpretive theory and practice in ethnohistory and anthropology and an enduring generous character William Fenton Selected Writings brings together for the first time Fenton s most influential writings on the Iroquois and anthropology written across nearly six decades This volume includes Fenton s classic studies of such key issues as Iroquois folklore factionalism and the repatriation of material culture discussions of theory and practice and the methodology of upstreaming obituaries of colleagues and reviews of other studies of the Iroquois and summaries of the early Conferences on Iroquois Research This collection reveals much about the world of

the Iroquois past and present as well as the career and accomplishments of Fenton himself *Extending the Rafters* Michael K. Foster, Jack Campisi, Marianne Mithun, 1984-01-01 To the Iroquois extending the rafters meant adding onto the longhouse both in the literal sense of making room for new families and in the figurative sense of adding adopted individuals or tribes to the League of Five Nations Similarly this book extends Iroquois studies The distinguished contributors represent such diverse areas of anthropology as ethnology ethnohistory and archaeology They address issues that cut across disciplinary lines making this book a significant state of the art survey The topics explored revolve around the influence contributions field work and teachings of anthropologist William N Fenton a founder of the discipline of ethnohistory The essays run the gamut from prehistory to contemporary political issues from individuals to women and nations and from language to ritual *Phonology* Charles W. Kreidler, 2001 Phonology Critical Concepts the first such anthology to appear in thirty years and the largest ever published brings together over a hundred previously published book chapters and articles from professional journals These have been chosen for their importance in the exploration of theoretical questions with some preference for essays that are not easily accessible Divided into sections each part is preceded by a brief introduction which aims to point out the problems addressed by the various articles and show their relations to one another **Reconstructing Grammar** Spike Gildea, 2000-07-15 Comparative linguistics and grammaticalization theory both belong to the broader category of historical linguistics yet few linguists practice both The methods and goals of each group seem largely distinct comparative linguists have by and large avoided reconstructing grammar while grammaticalization theoreticians have either focused on explaining attested historical change or used internal reconstruction to formulate hypotheses about processes of change In this collection some of the leading voices in grammaticalization theory apply their methods to comparative data largely drawn from indigenous languages of the Americas showing not only that grammar can be reconstructed but that the process of reconstructing grammar can yield interesting theoretical and typological insights **Histories of Anthropology Annual** Regna Darnell, Frederic W. Gleach, 2006-02-01 Histories of Anthropology Annual promotes diverse perspectives on the discipline's history within a global context Critical comparative analytical and narrative studies involving all aspects and subfields of anthropology will be included along with reviews and shorter pieces This inaugural volume offers insightful looks at the careers lives and influence of anthropologists and others including Herbert Spencer Frederick Starr Mark Hanna Watkins Leslie White and Jacob Ezra Thomas Topics in this volume include anti imperialism racism in Guatemala the study of peasants the Carnegie Institution Mayan archaeology and espionage Cold War anthropology African studies literary influences church and religion and tribal museums Regna Darnell is a professor of anthropology at the University of Western Ontario She is the author of *Invisible Genealogies A History of Americanist Anthropology* Nebraska 2001 and Edward Sapir *Linguist Anthropologist Humanist* Frederic W Gleach is a senior lecturer and curator of anthropology at Cornell University and the author of *Powhatan's World and Colonial Virginia A Conflict of Cultures* Nebraska 1997 Together they co edited

Celebrating a Century of the American Anthropological Association Presidential Portraits Nebraska 2002 **Cornplanter**
 Thomas S. Abler, 2022-12-05 The era following the American War of Independence was one of enormous conflict for the
 Allegany Senecas There was then no Seneca leader more influential than Chief Warrior Cornplanter Yet there has been no
 definitive treatment of his life until now Complex and passionate yet wise Cornplanter led his people in war and along an
 often troubled path to peace This incisive biography traces his rise to prominence as a Seneca military leader during the
 American Revolution and his later diplomatic success in negotiations with the Federal government The book also explores
 Cornplanter's dealings with other Native American councils and with his own people It tells how Senecas faced heavy
 pressure to sell their lands and how they concurrently embraced a reformed and revitalized Iroquois religion as inspired by
 Cornplanter's visionary half brother Handsome Lake Thomas S Abler skillfully weaves together previously discordant strands
 of the Chief Warrior's life into a concise animated and enlightening portrait Even as Cornplanter examines a critical period in
 American history it gives us a multi dimensional knowledge of politics and diplomacy from the Seneca point of view
 Thoroughly researched and clearly written this is an ideal companion for students and aficionados of the American
 Revolution and early nationhood the Iroquois and New York State history *Bibliography of Morphology, 1960-1985*
 , 1988-01-01 Rather than an attempt at an exhaustive bibliography of morphology this is a collection of major and selected
 minor works of theoretical interest in the broadest sense The area of morphology represented here exhaustively is
 contemporary generative theoretical morphology interpreted broadly enough to include theoretically interesting structuralist
 works works aimed at explaining deep motivations of morphology or pertinent to contemporary theoretical morphology
 Selected descriptive works have been included as well it is not at all simple to draw a line between descriptive works of
 theoretical interest and fundamentally theoretical works and in addition we hope to provide entry points into a variety
 languages for morphologists seeking language specific evidence for general hypotheses Icons of Power Nicholas J.
 Saunders, 2013-04-15 Icons of Power investigates why the image of the cat has been such a potent symbol in the art religion
 and mythology of indigenous American cultures for three thousand years The jaguar and the puma epitomize ideas of
 sacrifice cannibalism war and status in a startling array of graphic and enduring images Natural and supernatural felines
 inhabit a shape shifting world of sorcery and spiritual power revealing the shamanic nature of Amerindian world views This
 pioneering collection offers a unique pan American assessment of the feline icon through the diversity of cultural
 interpretations but also striking parallels in its associations with hunters warriors kingship fertility and the sacred nature of
 political power Evidence is drawn from the pre Columbian Aztec and Maya of Mexico Peruvian and Panamanian civilizations
 through recent pueblo and Iroquois cultures of North America to current Amazonian and Andean societies This well
 illustrated volume is essential reading for all who are interested in the symbolic construction of animal icons their variable
 meanings and their place in a natural world conceived through the lens of culture The cross disciplinary approach embraces

archaeology anthropology and art history *Introduction to the Science of Kinship* Murray J. Leaf, Dwight Read, 2020-12-30 In *Introduction to the Science of Kinship* Murray J Leaf and Dwight Read show how humans use specific systems of social ideas to organize their kinship relations and illustrate what this implies for the science of human social organization Leaf and Read explain that every human society has multiple social organizations each of which is associated with a distinct vocabulary This vocabulary is associated with interrelated definitions of social roles and relations These roles and relations have four specific logical properties reciprocity transitivity boundedness and imaginary spatial dimensionality These properties allow individuals to use them in communication to create ongoing agreed upon organizations This book is recommended for scholars of anthropology sociology linguistics and mathematics *Dictionnaires* , Discussing Language Herman Parret, 2017-12-04 No detailed description available for *Discussing Language* **Discourse, Consciousness, and Time** Wallace Chafe, 1994-10-15 Wallace Chafe demonstrates how the study of language and consciousness together can provide an unexpectedly broad understanding of the way the mind works Relying on analyses of conversational speech written fiction and nonfiction the North American Indian language Seneca and the music of Mozart and of the Seneca people he investigates both the flow of ideas through consciousness and the displacement of consciousness by way of memory and imagination Chafe draws on several decades of research to demonstrate that understanding the nature of consciousness is essential to understanding many topics of linguistic importance such as anaphora tense clause structure and intonation as well as stylistic usages such as the historical present and free indirect style This book offers a comprehensive picture of the dynamic natures of language and consciousness for linguists psychologists literary scholars computer scientists anthropologists and philosophers **Native American Place Names of Indiana** Michael McCafferty, 2023-08-31 A linguistic history of Native American place names in Indiana In tracing the roots of Indiana place names Michael McCafferty focuses on those created and used by local Native Americans Drawing from exciting new sources that include three Illinois dictionaries from the eighteenth century the author documents the language used to describe landmarks essential to fur traders in Les Pays d en Haut and settlers of the Old Northwest territory Impeccably researched this study details who created each name as well as when where how and why they were used The result is a detailed linguistic history of lakes streams cities counties and other Indiana names Each entry includes native language forms translations and pronunciation guides offering fresh historical insight into the state of Indiana **Gender Across Languages** Marlis Hellinger, Hadumod Bußmann, 2001-10-09 This is the first of a three volume comprehensive reference work on Gender across Languages which provides systematic descriptions of various categories of gender grammatical lexical referential social in 30 languages of diverse genetic typological and socio cultural backgrounds Among the issues discussed for each language are the following What are the structural properties of the language that have an impact on the relations between language and gender What are the consequences for areas such as agreement pronominalisation and word

formation How is specification of and abstraction from referential gender achieved in a language Is empirical evidence available for the assumption that masculine male expressions are interpreted as generics Can tendencies of variation and change be observed and have alternatives been proposed for a more equal linguistic treatment of women and men This volume and its follow up volumes will provide the much needed basis for explicitly comparative analyses of gender across languages All chapters are original contributions and follow a common general outline developed by the editors The book contains rich bibliographical and indexical material Languages of Volume 1 Arabic Belizean Creole Eastern Maroon Creole English American New Zealand Australian Hebrew Indonesian Romanian Russian Turkish *The History and Culture of Iroquois Diplomacy* Francis Jennings,1995-06-01 The History and Culture of Iroquois Diplomacy is a comprehensive exploration of the treaty making traditions of the Six Nations offering a deep dive into their diplomatic strategies alliances and political rhetoric Edited by Francis Jennings this interdisciplinary guide brings together historical cultural and linguistic perspectives to analyze the treaties negotiated by the Iroquois with Dutch English French and American representatives The book provides a systematic study of Iroquois treaty procedures featuring essays from scholars on topics such as the structure of negotiations the role of wampum in councils and the significance of place names in treaty making It also includes a descriptive treaty calendar spanning 1613 to 1913 maps and a glossary of figures of speech used in Iroquois diplomacy By making these documents accessible to both scholars and general readers this work stands as a landmark in the study of Iroquois history and governance
