Invitation to the Life Course Richard Settersten, 2018-02-06 Invitation to the Life Course Toward New Understandings of Later Life discusses in depth the challenges of age time and social contexts for the study of aging and later life Understanding aging as a process and later life as a period must be accompanied by serious attention to the life course This brings significant challenges related to time as gerontologists must describe and explain life patterns over many decades It also brings significant challenges related to place as gerontologists must examine how social contexts structure pathways into and

through later life and how those contexts affect the nature and meaning of experiences along the way This book is a natural extension of the editor s previous work *Lives in Time and Place The Problems and Promises of Developmental Science* Baywood 1999 Volunteerism and Private Sector Initiatives for Older Nebraskans United States.
