Sand Dunes of the Northern Hemisphere: Distribution, Formation, Migration and Management Lu Qi, Mahesh K. Gaur, Victor R. Squires, 2023-12-15 Volume 2 of the book Sand Dunes of the Northern Hemisphere is sub titled Characteristics Dynamics and Provenance of Sand Dunes in the Northern Hemisphere It brings together a vast body of information and insight into sand dune and desert systems from North Asia Central Asia North Africa and the Middle East Chapters from the Russian Federation include studies on dune systems within the permafrost zone and there is a case study from temperate zone dune system in coastal Japan Volume 2 Characteristics Dynamics and Provenance of Sand Dunes in the Northern Hemisphere of 16 chapters in three Parts focusses on Saharan Africa Egypt and Middle East and gives attention to sand mobility and encroachment with case studies from a number of countries where these matters are of concern We also include chapters on the remote dunes in the permafrost zone and in the hyper arid deserts of Iran Case studies are used to highlight the characteristics of dunes and their interaction with humans in several widely divergent settings Volume 2 concludes with some musing on the value of study of the past as key to the future and speculates on what

the future might hold in the light of a warmer and drier Earth and a rise in sea level that threaten large tracts of low lying land with marine incursions and destruction from storm surge

PART 4 Sand Mobility and Encroachment The seven chapters in this Part examine the real world impact of sand encroachment and dune migration on people and their economic activities and the health welfare and financial implications related to destruction of infrastructure including human habitations

PART 5 Sand Dune Landscapes Distribution Formation and Management Seven Case studies from several geographic regions in Africa the Middle East north east Asia are presented here to demonstrate the underlying mechanisms in dune formation and the diverse approaches to their management Human impacts such as sand mining tourism development combine with natural forces like climate variability to challenge the realization of an optimum management strategy

PART 6 Concluding Thoughts Coping with an Unknown Future from a Little known Past The two chapters in Part 6 have special roles We are privileged to publish new research findings that are summarized here in Chapter 38 from extensive and detailed work conducted in the Kyzyl Kum and Karakum sand seas of Central Asia There is a strong belief that further study of the little known past such as revealed in this study could unlock clues as to what a future Earth might look like This leads on to speculation in Chapter 39 about the implications of what we already know about global change not only climate change and the impact of the Anthropocene on the dune systems both inland and coastal Sea level rise marine incursions and an increase in extreme weather events will affect dune systems and sand seas on the Northern Hemisphere and beyond
