Real Estate Record and Builders' Guide ,1927 **Sculpture and the Vitrine** JohnC. Welchman,2017-07-05 Vitrines and glass cabinets are familiar apparatuses that have in large part defined modern modes of display and visibility both within and beyond the museum They separate objects from their contexts group them with other objects both similar and dissimilar and often serve to reinforce their intrinsic or aesthetic values The vitrine has much in common with the picture frame the plinth and the gallery but it has not yet received the kind of detailed art historical and theoretical discussion that has been brought to these other modes of formal display The twelve contributions to this volume examine some of the points of origin of the vitrine and the various relations it brokers with sculpture first in the Wunderkammer and cabinet of curiosities and then in dialog with the development of glazed architecture beginning with Paxton s Crystal Palace 1851 The collection offers close discussions of the role of the vitrine and shop window in the rise of commodity culture and their apposition with Constructivist design in the work of Frederick Kiesler as well as original readings of the use of vitrines in Surrealism and Fluxus and in work by Joseph Beuys Paul Thek Claes Oldenburg and his collaborators Jeff Koons Mike Kelley Dan Graham Vito Acconci Damien Hirst and Josephine Meckseper among others Sculpture and the Vitrine also raises key questions about the nature and implications of vitrinous space including its fronts onto desire and the spectacle transparency and legibility and onto ideas and practices associated with the archive collecting preserving and ordering **Baltimore and Ohio**

Daily Graphic Yaw Boadu-Ayeboafah,2006-03-24 **Heads of Families at the First Census of the United States Taken in the Year 1790** United States. Bureau of the Census,1992 No other official record or group of records is as historically significant as the 1790 census of the United States The original 1790 enumerations covered the present states of Connecticut Delaware Georgia Kentucky Maine Maryland Massachusetts New Hampshire New Jersey New York North Carolina Pennsylvania Rhode Island South Carolina Tennessee Vermont and Virginia Unfortunately not all the schedules have survived the returns for the states of Delaware Georgia Kentucky New Jersey Tennessee and Virginia having been lost or destroyed possibly when the British burned the Capitol at Washington during the War of 1812 though there seems to be no proof for this For Virginia taxpayer lists made in the years 1782 1785 have been reconstructed as replacements for the original returns In response to repeated requests from genealogists historians and patriotic societies the surviving census records were published by the Bureau of the Census in 1907 and 1908 The twelve states whose records were then extant are

each covered by a single volume The twelve published volumes contain the names of the heads of about 400 000 families with information concerning their place of residence the size of their families and the approximate ages of the male family members The families averaging six people each comprised about 2 400 000 individuals or approximately 75% of the total population of the United States at the time

Chain Stores in the Golden Age of the British High Street Kathryn A Morrison,2025-05-08 Familiar multiples like Boots Burton s Marks Spencer and Woolworth s plus a host of smaller chains forged the character of Britain s high streets in the late 19th and 20th centuries Multiple retailing was a supremely successful phenomenon loved by thrifty shoppers but feared by independent competitors It is explored here through the lens of its shops and stores which are generously illustrated with archive and modern photographs These range from the Edwardian grandeur of Boots to the Art Deco splendour of Burton s and the utilitarian post war buildings of Littlewoods Smaller chains are not neglected even if all that survives are weathered signs or mosaic pavements The time is ripe for a study of chain stores Britain s retail giants have been under scrutiny since the shocking collapse of Woolworth s in 2009 followed by BHS in 2016 Online shopping was already undermining bricks and mortar retailing when the COVID pandemic struck in 2020 accelerating the process The recent demise of Debenhams Arcadia Wilko and others leaves vast empty premises in town centres nationwide Our high streets are changing but their legacy of chain store buildings can play a constructive role in repurposing them for future generations
