Legal Aspects of Sports Miller, Kristi Schoepfer, 2017-02-15 Written for courses within Sports Law Legal Aspects of Sports Second Edition provides a modern case based approach to this changing area of

sports management and administration The text provides a breadth of coverage that is specifically written for Sport Management majors who need to understand the relationship between sport administration and the law and as such provides an accessible level of detail It urges students to think critically about course material and apply material to an in depth study of legal aspects of sport through the use of cases to real world scenarios and questions at the end of each chapter The Second Edition has been reorganized to improve the flow of content and all case studies have been added to Navigate 2 to help students stay organized and prepare for class The topic of discrimination in sports has been updated and expanded to include age race religion and gender discrimination Playing the Field Charles C. Euchner, 1994-09 Can a sports franchise blackmail a city into getting what it wants a new stadium say or favorable leasing terms by threatening to relocate In 1982 the owners of the Chicago White Sox pledged to keep the team in Chicago if the city approved a 5 million tax exempt bond to finance construction of luxury suites at Comiskey Park The city council approved it A few years later when Comiskey Park was in need of renovation the owners threatened to move the team to Florida unless a new stadium was built A site was chosen near the old stadium property condemned residents evicted and a new stadium built We had to make threats the owners said If we didn't have the threat of moving we wouldn't have gotten the deal Sports is not a dominant industry in any city writes Charles Euchner yet it receives the kind of attention one might expect to be lavished on major producers and employers In Playing the Field Euchner looks at why sports attracts this kind of attention and what that says about the urban political process Examining the relationships between Los Angeles and the Raiders Baltimore and the Colts and the Orioles and Chicago and the White Sox Euchner argues that in the absence of public standards for equitable arbitration between cities and teams the sports industry has the ability to steer negotiations in a way that leaves cities vulnerable According to Euchner this greater leverage of sports franchises is due at least in part to their overall economic insignificance Since the demands of a franchise do not directly affect many interest groups opponents of stadium projects have difficulty developing coalitions to oppose them The result is that civic leaders tend to succumb to the blackmail tactics of professional sports rather than developing and supporting sound economic policies **Recruiter Journal** ,1983 **All Volunteer** ,1983
