As the nation struggled to recover from a record-breaking magnitude 9 earthquake and a tsunami that was as high as thirty-eight meters in some places, news trickled out that Fukushima had experienced meltdowns in three reactors. These tragic catastrophes claimed some 20,000 lives, initially displacing some 500,000 people and overwhelming Japan's formidable disaster preparedness. This book brings together the analysis and insights of a group of distinguished experts on Japan to examine what happened, how various institutions and actors responded, and what lessons can be drawn from Japan's disaster. The contributors, many of whom experienced the disaster first-hand, assess the wide-ranging repercussions of this catastrophe and how it is already reshaping Japanese culture, politics, energy policy, and urban planning. **The New Japanese Woman** Barbara Sato, 2003-04-16 A study of the modern woman in Japan before World War II. **Comparative and International Criminal Justice Systems** Dale June, 2013-05-13 *Comparative and International Criminal Justice Systems: Policing, Judiciary and Corrections*, Third Edition, examines the history, dynamics, structure, organization, and processes in the criminal justice systems in a number of selected countries. The social and political environment for minorities in Japan has shifted drastically since the 1990s, yet many studies of Japan still tend to view Japan through the dominant discourses of ethnic homogeneity, *tanitsu minzoku shakai* (middle-class society), and *churyu shakai* (middle-class society), which positions the exclusion of minorities as an exceptional phenomenon. While exclusionism has been recognized as a serious threat to minority groups, it

has not often been considered a representative issue for the whole of Japanese society. This tendency will persist until the discourses of *tanitsu minzoku shakai* and *so churyu shakai* are systematically debunked and Japan is widely recognized as both multiethnic and socio economically stratified. Today as with most advanced capitalist countries serious social divides occasioned by the impacts of globalization and neoliberalism have destabilized Japanese society. This book explores not only how Japanese society is diversified and unequal but also how diversity and inequality have caused people to divide into separate realities from which conflict and violence have emerged. It empirically examines the current situation while considering the historical development of exclusionism from the interdisciplinary viewpoints of history, policy studies, cultural studies, sociology and cultural anthropology. In addition to analyzing the realities of division and exclusionism the authors propose theoretical alternatives to overcome such cultural and social divides.

**Japanese Corrections** Elmer Hubert Johnson, 1996. Criminologist Johnson is one of the few westerners to have access to Japanese prisons. His account pivots on the characteristics of the major elements: how personnel carry out their responsibilities and why duties and activities are carried out in a particular way. He explores cultural reasons for the low number of convicted criminals going to prison and attributes the low degree of prison violence to the industrial operations of adult prisons and the education, vocational training and counseling in juvenile prisons. Annotation copyright by Book News Inc, Portland, OR.

**Criminalization and Prisoners in Japan** Elmer Hubert Johnson, 1997. In his second book to deal with Japanese corrections Elmer H. Johnson explores the cultural heritage and structure of the criminal justice administration that underlies Japan's reluctance to use imprisonment, which he first examined in *Japanese Corrections: Managing Convicted Offenders in an Orderly Society*. Here Johnson introduces the concept of criminalization, its implications and its two versions that differentiate four of the six cohorts who have entered prison in increasing numbers in recent decades: *yakuza* (Japanese mafia), adult traffic offenders, women, drug offenders and juvenile drug and traffic offenders. Foreigners and elderly inmates, the other two cohorts, elude criminalization as groups but also have become prisoners in greater numbers for other reasons.
