Bowen,2016-09-16 This is a short readable and incisive study of the corrosive effects of corruption in one of the world s major liberal democracies It explores the disconnect between democratic rule and undemocratic practices in Japan since the Second World War with special attention to the corrupt practices of various prime ministers and the resulting sense of political cynicism and powerlessness among the general public Natural Disaster and Nuclear Crisis in Japan Jeff Kingston,2012-03-12 The March 2011 earthquake and tsunami in Japan plunged the country into a state of crisis As the nation struggled to recover from a record breaking magnitude 9 earthquake and a tsunami that was as high as thirty eight meters in some places news trickled out that Fukushima had experienced meltdowns in three reactors These tragic catastrophes claimed some 20 000 lives initially displacing some 500 000 people and overwhelming Japan s formidable disaster preparedness This book brings together the analysis and insights of a group of distinguished experts on Japan to examine what happened how various institutions and actors responded and what lessons can be drawn from Japan s disaster The contributors many of whom experienced the disaster first hand assess the wide ranging repercussions of this catastrophe and how it is already reshaping Japanese culture politics energy policy and urban planning *The New Japanese Woman* Barbara Sato,2003-04-16 A study of the modern woman in Japan before World War II Comparative and International Criminal Justice Systems Dale June,2013-05-13 Comparative and International Criminal Justice Systems Policing Judiciary and Corrections Third Edition examines the history dynamics structure organization and processes in the criminal justice systems in a number of selected countries Designed for courses in comparative criminal justice systems comparative criminology and international *Learning To Be Modern* Byron Marshall,2018-03-08 Emphasizing the political discourse and conflict that have surrounded Japanese education this book focuses on the three main issues of central versus local control elitism versus equality and nationalism versus universalism **Political Reform in Japan** Alisa Gaunder,2007-04-11 Comparing successful and unsuccessful reform drives by Japanese leaders Alisa Gaunder argues that the quality of political leadership is the crucial determinant of whether parties in positions of dominance pass or reject policies An Introduction to Japanese Society Yoshio Sugimoto,2020-11-12 Taking a sociological approach this text provides a sophisticated highly readable introduction to Japanese society *Cultural and Social Division in Contemporary Japan* Yoshikazu Shiobara,Kohei Kawabata,Joel Matthews,2019-07-30 The recent manifestation of exclusionism in Japan has emerged at a time of intensified neoliberal economic policies increased cross border migration brought on by globalization the elevated threat of global terrorism heightened tensions between East Asian states over historical and territorial conflicts and a backlash by Japanese conservatives over perceived historical apologism The social and political environment for minorities in Japan has shifted drastically since the 1990s yet many studies of Japan still tend to view Japan through the dominant discourses of ethnic homogeneity tanitsu minzoku shakai and middle class society so churyu shakai which positions the exclusion of minorities as an exceptional phenomenon While exclusionism has been recognized as a serious threat to

minority groups it has not often been considered a representative issue for the whole of Japanese society This tendency will persist until the discourses of tanitsu minzoku shakai and so churyu shakai are systematically debunked and Japan is widely recognized as both multiethnic and socio economically stratified Today as with most advanced capitalist countries serious social divides occasioned by the impacts of globalization and neoliberalism have destabilized Japanese society This book explores not only how Japanese society is diversified and unequal but also how diversity and inequality have caused people to divide into separate realities from which conflict and violence have emerged It empirically examines the current situation while considering the historical development of exclusionism from the interdisciplinary viewpoints of history policy studies cultural studies sociology and cultural anthropology In addition to analyzing the realities of division and exclusionism the authors propose theoretical alternatives to overcome such cultural and social divides
