*Distrust of Institutions in Early Modern Britain and America* Brian P. Levack, 2022 Distrust of public institutions which reached critical proportions in Britain and the United States in the first two decades of the twenty first century was an important theme of public discourse in Britain and colonial America during the early modern period Demonstrating broad chronological and thematic range the historian Brian P Levack explains that trust in public institutions is more tenuous and difficult to restore once it has been betrayed than trust in one's family friends and neighbors because the vast majority of the populace do not personally know the officials who run large national institutions Institutional distrust shaped the political legal economic and religious history of England Scotland and the British colonies in America It provided a theoretical and

rhetorical foundation for the two English revolutions of the seventeenth century and the American Revolution in the late eighteenth century. It also inspired reforms of criminal procedure, changes in the system of public credit and finance, and challenges to the clergy who dominated the Church of England, the Church of Scotland, and the churches in the American colonies. This study reveals striking parallels between the loss of trust in British and American institutions in the early modern period and the present day.

**Inheritance of Loss** Yukiko Koga, 2016-11-28  
 In *Inheritance of Loss*, anthropologist Yukiko Koga tackles complex questions of how two nations previously at war come to terms with their troubled past. Her site is Northeast China, where Japan's imperial ambitions were pursued to devastating and murderous ends in the twentieth century. There, the landscape, which is still peppered with missiles and unexploded chemical weapons from the war, is the backdrop for refurbished imperial architecture and revived Japanese businesses. But the national wounds of China and Japan's history problem cannot be stitched together solely through international trade. The author shows why mutual recognition of wartime atrocities is the only thing that can allay the persistent and sporadically explosive tensions between two of the most powerful countries in the Eastern hemisphere. A milestone in memory studies that incorporates sorely needed attention to materiality and political economy, *Inheritance of*

Loss shows just how crucial imperial legacies will continue to be despite China's and Japan's attempts to leave the past behind in pursuit of a more prosperous future *Family Economics Review*, 1984 *The End of Illusions* Andreas Reckwitz, 2021-06-28 We live in a time of great uncertainty about the future Those heady days of the late twentieth century when the end of the Cold War seemed to be ushering in a new and more optimistic age now seem like a distant memory During the last couple of decades we've been battered by one crisis after another and the idea that humanity is on a progressive path to a better future seems like an illusion It is only now that we can see clearly the real scope and structure of the profound shifts that Western societies have undergone over the last 30 years Classical industrial society has been transformed into a late modern society that is molded by polarization and paradoxes The pervasive singularization of the social the orientation toward the unique and exceptional generates systematic asymmetries and disparities and hence progress and unease go hand in hand Reckwitz examines this dual structure of singularization and polarization as it plays itself out in the different sectors of our societies and in so doing he outlines the central structural features of the present the new class society the characteristics of a postindustrial economy the conflict about culture and identity the exhaustion of the self resulting from the imperative to seek authentic fulfillment and the political crisis of liberalism Building on his path breaking work *The Society of Singularities* this new book will be of great interest to students and scholars in sociology politics and the social sciences generally and to anyone concerned with the great social and political issues of our time
