Nature Shock Jon T. Coleman, 2020-08-12 An award winning environmental historian explores American history through wrenching tragic and sometimes humorous stories of getting lost The human species has a propensity for getting lost The American people inhabiting a mental landscape shaped by their attempts to plant roots and to break free are no exception In this engaging book environmental historian Jon Coleman bypasses the trailblazers so often described in American history to follow instead the strays and drifters who went missing From Hernando de Soto's failed quest for riches in the American southeast to the recent trend of getting lost as a therapeutic escape from modernity this book details a unique history of location and movement as well as the confrontations that occur when our physical and mental conceptions of space become disjointed Whether we get lost in the woods the plains or the digital grid Coleman argues that getting lost allows us to see wilderness anew and connect with generations across five centuries to discover a
