Enz, J. Mehra, 2012-12-06 This collection of essays is intended as a tribute to Josef Maria Jauch on his sixtieth birthday Through his scientific work Jauch has justly earned an honored name in the community of theoretical physicists Through his teaching and a long line of distinguished collaborators he has put an imprint on modern mathematical physics A number of Jauch's scientific collaborators friends and admirers have contributed to this collection and these essays reflect to some extent Jauch's own wide interests in the vast domain of theoretical physics Josef Maria Jauch was born on 20 September 1914 the son of Josef Alois and Emma nee Conti Jauch in Lucerne Switzerland Love of science was aroused in him early in his youth At the age of twelve he came upon a popular book on astronomy and an example treated in this book mystified him It was stated that if a planet travels around a

centre of Newtonian attraction with a period T and if that planet were stopped and left to fall into the centre from any point of the circular orbit it would arrive at the centre in the time $T/2$. Young Josef puzzled about this for several months until he made his first scientific discovery that this result could be derived from Kepler's third law in a quite elementary way.

Martyrdom, Mysticism and Dissent Asghar Seyed-Gohrab, 2021-08-23 This book is the first extensive research on the role of poetry during the Iranian Revolution 1979 and the Iran Iraq War 1980-1988. How can poetry, especially peaceful medieval Sufi poems, be applied to exalt violence, to present death as martyrdom, and to process war traumas? Examining poetry by both Islamic revolutionary and established dissident poets, it demonstrates how poetry spurs people to action, even leading them to sacrifice their lives. The book's originality lies in fresh analyses of how themes such as martyrdom and violence and mystical themes such as love and wine are integrated in a vehemently political context while showing how Shiite ritual, such as the pilgrimage to Mecca, clash with Saudi Wahhabi appreciations. A distinguishing quality of the book is its examination of how martyrdom was instilled in the minds of Iranians through poetry employing Sufi themes, motifs, and doctrines to justify death. Such inculcation proved effective in mobilising people to the front, ready to sacrifice their lives. As such, the book is a must for readers interested in Iranian culture and history, in Sufi poetry, in martyrdom, and in war poetry. Those involved with Middle Eastern Studies, Iranian Studies, Literary Studies, Political Philosophy, and Religious Studies will benefit from this book. From his own memories and expert research, the author gives us a ravishing account of a poetry stained with blood, violence, and death. His brilliantly layered analysis of modern Persian poetry shows how it integrates political and religious ideology and motivational propaganda with age-old mystical themes for the most traumatic of times for Iran. Alan Williams, Research Professor of Iranian Studies, University of Manchester. When Asghar Seyed Gohrab, a highly prolific academician, publishes a new book, you can be certain he has paid attention to an exciting and largely unexplored subject: Martyrdom, Mysticism, and Dissent: The Poetry of the 1979 Iranian Revolution and the Iran Iraq War 1980-1988. It is no exception in the sense that he combines a few different cultural, religious, mystic, and political aspects of Iranian life to present a vivid picture and thorough analysis of the development and effect of what became known as the revolutionary poetry of the late 1970s and early 1980s. This time he has even enriched his narrative by inserting his voice into his analysis. It is a thoughtful book and a fantastic read. Professor Kamran Talattof, University of Arizona. **Irfan Fageer Noor Muhammad**, 2021-01-04. Intentionally or otherwise, the world today is engulfed in a strange intellectual strife and insoluble mental enigma. To overcome this conflict, we must take practical steps toward creating a true conception of God in the minds of the people and to impress on their memories the necessity of religion, enabling religion and spiritualism to attain once more the preeminence that they previously enjoyed. In pursuit of that renaissance of religion, Irfan presents the exposition of two secret, rare, and closely guarded sciences and offers a vivid description of their philosophy. The first focuses on knowledge of concentration on the personal name of God, Allah, centralizing human thought and occult spiritual energies on one point to

attain willpower and spiritual strength The second invokes the inmates of the graves calling on departed souls for wisdom Irfan demonstrates that humanity's worldly life is not everything rather there is a world after death and dying is just a part of life It seeks to remove the fear of death and reveal it to be a beloved entity Written by Fageer Noor Muhammad in the early twentieth century this spiritual study provides a valuable compendium and unique record of religion spiritualism and the secrets of Sufiism
