Teek,2021-10-19 What The Hell s Wrong With

America is a book about well what the hell s wrong with America It is the author s contention that the one thing that causes more acrimonious intent thoughts and acts than anything anyone can point to is race Are you black or white What makes you black of white How did you become Hispanic How did you become an Arab even if you ve never been to Saudi Arabia The answers may not be what you think According to the author this is due to the lack of the average man and woman s understanding of the truth about what race is and what race is not The author contends that as long as people keep referring to themselves as what they are referring to themselves as this country as well as the world will never experience the peace and prosperity they profess to want The author states Everyone wants to have a Conversation about race but no one wants to consider that both sides will be starting and engaging in dialogue with false premises In short lies In this book you will be is asked powerful common sense questions about race that in the author s words you have never been asked before The author goes on to examine effective problem solving the importance of having not just knowledge but correct knowledge what evil is as well as the different forms that it manifests itself in and how evil relates to the context of race as we have been taught to perceive it the fictitious cultures both black and white people have created in an effort to solidify their concepts of these void constructs of black and white and a lot more The author started this book in 2015 at the height of civil unrest following several incidents of unarmed black men who were killed by police In Chapter Five the book explains how not to be killed during or at the end of a police interaction There s even a LGBTQ section dealing with the author s views and insights on gay marriage While the author states that the instructions given in this chapter may not be feasible for everyone the chapter is a must read And even though the author states that there will be secrets left untold it will be impossible for you to leave this book without a commitment to reexamine everything you have been taught Starting with race This book is a must read if you have been seeking insights on the truth about an issue that has in one way or another touched us all Is America divided Yes But it doesn t have to be Read this book to understand how we got that way and what we can do to stop being that way This book goes a long way to help one understand What The Hell s Wrong With America And that s a good thing

Academic Freedom in Conflict James L. Turk, 2014-03-27 For more than a century academics have had unique rights to speak teach and write freely Central to the case for academic freedom is that scholars must be able to voice their views free of fear in order for society to gain a better understanding of ourselves and our world and to be effective teachers Academic freedom has always faced challenges Professors have been pressed to alter their work because it offends powerful interests both inside and outside the university Some have been fired or denied jobs for their political views their criticisms of colleagues and administrators and their refusal to buckle under corporate pressures to hush up research findings The sixteen contributors to this volume cite many such instances in Canada and the U S More significantly they point out how governments corporations and university administrators today are seeking to narrow academic freedom Among them Major donors are acquiring control over university teaching and even hiring decisions University administrators are firing

professors with unpopular political views while pretending that the reasons for their decisions lie elsewhere Governments are using funding mechanisms to force feed research in some areas while shutting down inquiry in others Campus wide policies enforcing civility rules are preventing criticism and debate within a university Judges are issuing decisions which reverse previous rulings supporting academic freedom in the U S and Canada Together the contributors to this book examine attempts to restrict academic freedom and explore its legitimate limits

The Rise of the Kingdom of Heaven, Volume 1 (Paperback) Gerhard Alm, 2008-10-25 Living in a Hippy Community in the Australian rainforest I in January 1992 started to write about my visions and spiritual experiences I described ten places in our heads as homes of the human spirit There are many publicly known people who are involved in the move of the Earth to a higher dimension in 2013 More than 200 000 people live on Earth and at the same time on a parallel world which is a home for immortal people The evangelist John spoke with a Cross of Light I believe that a new Cross of Light will appear on Earth soon In July 1979 I met the devil and his wife on the inner German border I name some people who have been the devil of previous Earth like planets in older universes Alex Collier wrote in 95 that since my 40th birthday on 3 23 1994 vibrations leave all black holes of our local universe changing its nature lifting all planets into higher dimensions I believe these frequencies come from the Immortals living on Earth now including me
