**Bibliography, 1995-1999** Richard William Cox, 2004-04-22 There has been an explosion in the quantity of sports history literature published in recent years making it increasingly difficult to keep abreast of developments The annual number of publications has increased from around 250 to 1 000 a year over the last decade This is due in part to the fact that during the late 1980s and 90s many clubs leagues and governing bodies of sport have celebrated their centenaries and produced histories to mark this occasion and commemorate their achievements It is also the result of the growing popularity and realisation of the importance of sport history research within academe This international bibliography of books articles conference proceedings and essays in the English language is a one stop for the sports historian to know what is new

*A Stitch in Time* Gene Elston, 2006

*Baseball Greatness* David Kaiser, 2018-03-02

Recent advances in baseball statistical analysis have made it possible to assess the totality of contribution each player makes to team success or failure Using the metric Wins Above Average WAA the number of wins that the 2016 Red Sox for example

added because they had Mookie Betts in right field instead of an average player the author undertakes a fascinating review of major league baseball from 1901 through 2017 The great teams are analyzed underscoring why they were successful The great players of each generation are identified using simple reliable metrics from Ty Cobb through Mike Trout and pitchers from Christy Mathewson to Clayton Kershaw Surprises abound The importance of pitching is found to be vastly exaggerated Many Hall of Fame pitchers and some hitters achieved immortality almost entirely on the backs of their teammates while a few over qualified players still await induction Focusing on today s rosters the WAA assessment shows that the game is threatened by an unprecedented shortage of great players *Baseball with a Latin Beat* Peter C.
