**Magic, Myth, and Money** William H. Desmond, 1962 The subtitle to William H Desmond's 1962 *Magic Myth and Money* is *The Origin of Money in Religious Ritual* As such Desmond draws on the work of German polymath Bernhard Laum who explored the idea that currency was born of religious ritual in his 1924 work *Heiliges Geld Holy Money* Desmond's contribution is to set Laum's idea of tokens arising from the sharing of meat from ritualistic slaughter within a Freudian context Specifically Desmond draws on Freud's later works on society in particular *Totem and Taboo* And in doing so he offers a view on currency very much at odds with that espoused by economists Desmond doesn't even consider barter in his explanation for the development of currency Amazon.co.uk from customer review

**Imdeduya** Gunter Senft, 2017-07-12 This volume presents five variants of the Imdeduya myth two versions of the actual myth a short story a song and John Kasaipwalova's English poem *Sail the Midnight Sun* This poem draws heavily on the Trobriand myth which introduces the protagonists Imdeduya and Yolina and reports on Yolina's intention to marry the girl so famous for her beauty on his long journey to Imdeduya's village and on their tragic love story The texts are compared with each other with a final focus on the clash between orality and scripturality Contrary to Kasaipwalova's fixed poetic text the oral Imdeduya versions reveal the variability characteristic for oral tradition This variability opens up questions about traditional stability and destabilization of oral literature especially questions about the changing role of myth and magic in the Trobriand Islanders society which gets more and more integrated into the by now literal nation of Papua New Guinea
