Magic Rattle:

Magic Casements George S. Carhart, Paul A. McGhee, 1926 **The Anthropology of Magic** Susan Greenwood, 2020-05-28 Magic is arguably the least understood subject in anthropology today Exotic and fascinating it offers us a glimpse into another world but it also threatens to undermine the foundations of anthropology due to its supposed irrational and non scientific nature Magic has thus often been explained away by social or psychological reduction The Anthropology of Magic redresses the balance and brings magic as an aspect of consciousness into focus through the use of classic texts and cutting edge research Suitable for student and scholar alike The Anthropology of Magic updates a classical anthropological debate concerning the nature of human experience A key theme is that human beings everywhere have the potential for magical consciousness Taking a new approach to some perennial topics in anthropology such as shamanism mythology witchcraft and healing the book raises crucial theoretical and methodological issues to provide the reader with an engaging and critical understanding of the dynamics of magic Join the live discussion on Facebook **The House with the Magic Cellar** Garza, 2006-08 Twelve year old Angela and thirteen year old Tony are neighbors and best of friends who have a penchant for getting into trouble While playing in Angela s creepy basement one day they discover a secret portal that leads them to a magical world beyond their wildest imaginings In this new and exciting realm they train to become wizards meeting an eclectic cast of characters along the way But even in this place Angela and Tony become embroiled in mischief After all what kid wouldn t want the power to transform into a beastly dragon or the ability to command any inanimate object to fly across the room As the two become enveloped in the realm of mysterious creatures and beings they must face a cruel and evil wizard who plans to overtake the magical world Can Angela and Tony defeat him before the wizard destroys everything they ve come to love *Deep Refrains* Michael Gallope, 2017-11-16 We often say that music is ineffable that it does not refer to anything outside of itself But if music in all its sensuous flux does not mean anything in particular might it still have a special kind of philosophical significance In *Deep Refrains* Michael Gallope draws together the writings of Arthur Schopenhauer Friedrich Nietzsche Ernst Bloch Theodor Adorno Vladimir Jankl vitch Gilles Deleuze and Félix Guattari in order to revisit the age old question of music s ineffability from a modern perspective For these nineteenth and twentieth century European philosophers music s ineffability is a complex phenomenon that engenders an intellectually productive sense of perplexity Through careful examination of their historical contexts and philosophical orientations close attention to their use of language and new interpretations of musical compositions that proved influential for their work *Deep Refrains* forges the first panoptic view of their writings on music Gallope concludes that music s ineffability is neither a conservative phenomenon nor a pious call to silence Instead these philosophers ask us to think through the ways in which music s stunning force might address in an ethical fashion intricate philosophical questions specific to the modern world **Magic Medicine: Rx for Creativity** , *Modern Magic: A Practical Treatise on the Art of Conjuring* Professor Hoffmann, 2019-11-22

In *Modern Magic A Practical Treatise on the Art of Conjuring* Professor Hoffmann provides a comprehensive exploration of the techniques and principles underlying the art of magic combining practical instruction with theoretical insights Written in a clear accessible style this treatise delves into various methods of illusion sleight of hand and stagecraft all enriched with detailed illustrations Set against the backdrop of 19th century fascination with entertainment and spectacle the book serves as both a manual for aspiring magicians and a historical account of the evolution of conjuring in modern society Professor Hoffmann an accomplished magician and a seminal figure in the field draws upon his extensive experience in performance to offer invaluable guidance to both novices and seasoned practitioners His real name Angelo Lewis reflects his dual identity as a scholar and performer effectively conveying his deep rooted passion for magic This blend of academic rigor and practical expertise influences his approach making this work a pivotal contribution to the literature of magic Thus I highly recommend *Modern Magic* to anyone interested in the nuances of illusion performance art or the cultural significance of magic Hoffmann's blend of instructional content and historical context will not only enhance your understanding of conjuring but also inspire a greater appreciation for the artistry involved in this captivating craft *Anthropological Papers* Clark Wissler,1913
