left wing politics poverty and socio economic inequalities      Culture as Renewable Oil Penélope Plaza Azuaje,2018-12-18 This book unpacks the links between oil energy state power urban space and culture by looking at the Petro Socialist Venezuelan oil state It challenges the disciplinary compartmentalisation of the analysis of the material and cultural effects of oil to demonstrate that within the Petrostate Territory Bureaucratic Power and Culture become indivisible To this end it examines how oil is a cultural resource in addition to a natural resource implying therefore that struggles over culture implicate oil and struggles over oil implicate culture This book develops a story about Venezuela as an oil state and the way it deploys its policies to instrumentalise culture and urban space by examining the way Petro Socialism manifests in space how it is imagined in speeches and how it is discursively constructed in adverts The discussion reveals how a particular culture is privileged by the Venezuela state owned oil company and its social and cultural branch The book explores to what effect the state owned oil company constructs a parallel notion of culture that becomes inextricable from land akin to a mineral deposit and tightly controlled by the Petrostate The book will appeal to researchers who are interested in Resource Management Environmental Studies Cultural Studies and Political Geography      **Democracy, Revolution and Geopolitics in Latin America** Luis Fernando Angosto-Ferrandez,2013-11-12 Hugo Ch vez won re election in the 2012 Venezuelan presidential election despite a closer margin between candidates than in previous elections The results were puzzling for those who believed that Ch vez s government had long ago reached its limits while Ch vez s supporters were struck by the growth of the opposition vote Thus understanding the Venezuelan election of 2012 has proved to be challenging with various recent studies focused upon it Luis F Angosto Ferr ndez s book advances two ideas not previously discussed the relationship between electoral behavior in Venezuela and contemporary Latin American geopolitics and the way that relationship is projected through the candidates appeal to narratives that situate Venezuela at the core of a heroic Latin American tradition and of a new regional process of integration This edited volume first contextualizes and explains the results of the last re election of Hugo Ch vez in terms of its geopolitical conditionings and implications Contributors tackle Latin American geopolitics by analyzing Venezuelan foreign policy and the country s role in continental projects of supra national integration Contributors also examine electoral strategy and tactics in order to show how the two main candidates built their campaign on emotional grounds as much on rational ones This will be connected to the investigation of new narratives of national identification in contemporary Venezuela and how they may have practical implications in the design of policies addressing issues such as indigenous rights community media and national security Compiling state of the art research on Latin American and Venezuelan politics this book will appeal to academics and professionals who specialize in Latin American studies international relations democracy and indigenous peoples      **A Living Past** John Soluri,Claudia Leal,José Augusto Pádua,2018-02-19 Though still a relatively young field the study of Latin American environmental history is blossoming as the contributions to this definitive volume demonstrate Bringing together thirteen leading experts on the region A Living Past

synthesizes a wide range of scholarship to offer new perspectives on environmental change in Latin America and the Spanish Caribbean since the nineteenth century Each chapter provides insightful up to date syntheses of current scholarship on critical countries and ecosystems including Brazil Mexico the Caribbean the tropical Andes and tropical forests and such cross cutting themes as agriculture conservation mining ranching science and urbanization Together these studies provide valuable historical contexts for making sense of contemporary environmental challenges facing the region

*A Blessing and a Curse* Matt Wilde,2023-10-10 *A Blessing and a Curse* examines the lived experience of political change moral uncertainty and economic crisis amid Venezuela s controversial Bolivarian Revolution Drawing on ethnographic research conducted in an urban barrio over the course of a decade Matt Wilde argues that everyday life in this period was intimately shaped by a critical contradiction that in their efforts to capture a larger portion of oil money and distribute it more widely among the population the governments of Hugo Ch vez and Nicol s Maduro pursued policies that ultimately entrenched Venezuela in the very position of dependency they sought to overcome Offering a new synthesis between anthropological work on energy politics and morality the book explores how the use of oil money to fund the revolution s social programs and political reforms produced profound cultural anxieties about the contaminating effects of petroleum revenues in everyday settings Tracing how these anxieties rippled out into community life family networks and local politics Wilde shows how questions about how to live a good life came to be intimately shaped by Venezuela s contradictory relationship with oil In doing so he brings a vital perspective to contemporary debates about energy transitions by proposing a new way of thinking about the political and moral economies of natural resources in postcolonial settings
