Lessons from My Mother's Kitchen Ranjini Rao,2020-10-20 When I lost my mother to a long and painful battle with cancer four years ago I was thousands of miles away alone and thick with grief At first everything seemed distant and pale and I went through my days like a robot lead footed and sandy eyed trying to make sense of each moment It took a while but I came to understand that the only way out was through At some point I submitted to the dagger of sorrow as it carved out a hollow in my heart turning me into some sort of an unself conscious sculpted form I re lived all the memories of my mother and gleaned new lessons from them Through the eighteen essays in this book I recount how her food music and stories all the things that she birthed in her spacious sun dappled kitchen helped me cope with long distance grief and taught me to look at life with renewed hope I also present some special recipes straight from Amma s kitchen and a bunch of kitchen poems in her honour finding her in such things as the sizzling of spices the bubbling of flavourful broths or a melodious Raga swirled into my cup of coffee My wish is that this book will come to stand for all this and more a celebration of life and a quiet acceptance of death I hope that it will inspire and touch many those who are going through rough times or those who are simply living the ordinary life for often we forget that there s so much magic in it *The Thin Book 2* Jeane Eddy Westin,1984

Magic-hand Eating Plan Anne Seifert,2004 Seifert presents a simple yet revolutionary diet plan that encourages a well balanced food based portion control lifestyle approach to weight control using just the hand as a measurer *Consuming Space* Michael K. Goodman,David Goodman,2016-05-23 An examination of the relationship between space place and consumption offers important insights into some of the most powerful forces constructing contemporary societies Space and place are made and remade through consumption Yet how do cultures of consumption discover space and how do they construct place This book addresses these questions by exploring the implications of conceptualizing consumption as a spatial increasingly global yet intensely localized activity The work develops integrative approaches that articulate the processes involved in the production and consumption of space and place The result is a varied engaging and innovative study of consumption and its role in structuring contemporary capitalist political economies □□3 qi
