## **Magick In Theory And Practice:**

*MAGICK IN THEORY AND PRACTICE* Aleister Crowley, 2023-08 Aleister Crowley's classic *Magick in Theory and Practice* is a foundational work of modern Western magick and occultism. It focuses on how to understand and perform ceremonial magick, providing a comprehensive guide. *Magick in Theory and Practice* The Master Therion, 1929 [Magick in Theory and Practice](#) Aleister Crowley, 2014-01-03 Magic is the Highest most Absolute and most Divine Knowledge of Natural Philosophy advanced in its works and wonderful operations by a right understanding of the inward and occult virtue of things so that true Agents being applied to proper Patients strange and admirable effects will thereby be produced. Whence magicians are profound and diligent searchers into Nature; they because of their skill know how to anticipate an effect the which to the vulgar shall seem to be a miracle. The Goetia of the Lemegeton of King Solomon. Wherever sympathetic magic occurs in its pure unadulterated form it is assumed that in nature one event follows another necessarily and invariably without the intervention of any spiritual or personal agency. Thus its fundamental conception is identical with that of modern science; underlying the whole system is a faith implicit but real and firm in the order and uniformity of nature. The magician does not doubt that the same causes will always produce the same effects; that the performance of the proper ceremony accompanied by the appropriate spell will inevitably be attended by the desired results unless indeed his incantations should chance to be thwarted and foiled by the more potent charms of another sorcerer. He supplicates no higher power; he sues the favour of no fickle and wayward being; he abases himself before no awful deity. Yet his power great as he believes it to be is by no means arbitrary and unlimited. [Magick in Theory and Practice](#) Aleister Crowley, 1932 **Magick in Theory and Practice** The Master Therion, EXISTENCE as we know it is full of sorrow. To mention only one minor point every man is a condemned criminal; only he does not know the date of his execution. This is unpleasant for every man. Consequently every man does everything possible to postpone the date and would sacrifice anything that he has if he could reverse the sentence. Practically all religions and all philosophies have started thus crudely by promising their adherents some such reward as immortality. No religion has failed hitherto by not promising enough. The present breaking up of all religions is due to the fact that people have asked to see the securities. Men have even renounced the important material advantages which a well organized religion may confer upon a State rather than acquiesce in fraud or falsehood or even in any system which if not proved guilty is at least unable to demonstrate its innocence. Being more or less bankrupt the best thing that we can do is to attack the problem afresh without preconceived ideas. Let us begin by doubting every statement. Let us find a way of subjecting every statement to the test of experiment. Is there any truth at all in the claims of various religions? Let us examine the question. Our original difficulty will be due to the enormous wealth of our material. To enter into a critical examination of all systems would be an unending task; the cloud of witnesses is too great. Now each religion is equally positive and each demands faith. This we refuse in the absence of positive proof. But we may usefully inquire whether there is not any one thing

upon which all religions have agreed for if so it seems possible that it may be worthy of really thorough consideration It is certainly not to be found in dogma Even so simple an idea as that of a supreme and eternal being is denied by a third of the human race Legends of miracle are perhaps universal but these in the absence of demonstrative proof are repugnant to common sense But what of the origin of religions How is it that unproved assertion has so frequently compelled the assent of all classes of mankind Is not this a miracle There is however one form of miracle which certainly happens the influence of the genius There is no known analogy in Nature One cannot even think of a super dog transforming the world of dogs whereas in the history of mankind this happens with regularity and frequency Now here are three super men all at loggerheads What is there in common between Christ Buddha and Mohammed *Magick in Theory and Practice* by Crowley, Aleister (1992) Aleister Crowley, 2023-05-16 Aleister Crowley's classic *Magick in Theory and Practice* is a foundational work of modern Western magick and occultism focusing specifically on understanding and performing ceremonial magick providing a comprehensive guide *Magick in Theory and Practice. By the Master Therion, A. Crowley* Aleister Crowley, 1929
