Mahasutras Volume 2:

Religious Motivation and the Origins of Buddhism Torkel Brekke, 2005-08-10 A contribution to the RoutledgeCurzon Critical Studies in Buddhism series which offers a comprehensive study of the Buddhist tradition Buddhologists are often vague about the methodological foundation on which they base their theories about the origin and development of Buddhism This book seeks to address this issue by opening a discussion about how we seek to explain the origins of Buddhism This discussion is also of importance to the study of the history of religions in general where there is likely a similar lack of consciousness about the origins of Christianity Judaism and Islam Will be of interest to specialists in Buddhist studies and Indology in general It will also interest a wider readership in the academic study of religion due to the fundamental questions that it addresses May cause some controversy and debate owing to the fact that it applies social psychological theory to the study of classical texts **Buddhism** , Epitome of the Pali Canon Chroniker Press Book, 2012-10-29 This book is an authorized reprint of Wikipedia articles pertaining to the Pali Canon the oldest collection of Buddhist scriptures Included are articles on Pali the Early Buddhist Schools and many suttas and other parts of the Vinaya Sutta and Abhidhamma Pitakas This book presents a comprehensive and in depth overview of the Pali Canon in a convenient collection **Probing the Sutras** Guy Gibbon, 2022-02-25 A compact summary like Probing the Sutras has been sorely needed for some time as more and more Westerners have dipped into meditation without any understanding of its predominantly Buddhist scriptural underpinning This concise well informed introduction to the history and contents of eleven seminal Buddhist sutras also provides suggestions for reflection meditation and practical applications related to the key teachings of each scripture Readers of Probing the Sutras will be able to develop a framework for understanding Buddhist doctrines and see the unique pearls of wisdom contained within each sutra **1999 EBTI, ECAI, SEER & PNC Joint Meeting, January 18-21, 1999 Taipei** , 1999 Mahāsūtras: Introduction and commentary Peter Skilling, 1994 Mipham's Dialectics and the Debates on Emptiness Karma-phun-tshogs, 2005 This book explores a number of themes in connection with the concept of Emptiness a highly technical but very central notion in Indo Tibetan Buddhism It examines the critique by the leading Nyingma school philosopher Mipham 1846 1912 one of Tibet s brightest and most versatile minds formulated in his diverse writings The book focuses on related issues such as what is negated by the doctrine of Emptiness the nature of ultimate reality and the difference between extrinsic and intrinsic emptiness For the first time a major understanding of Emptiness variant to the Gelukpa interpretation that has become dominant in both Tibet and the West is revealed Book Jacket **International Bibliography of Book Reviews of Scholarly Literature Chiefly in the Fields of Arts and Humanities and the Social Sciences** , 1999 **The Connected Discourses of the Buddha** , 2005-06-10 This volume offers a complete translation of the Samyutta Nikaya The Connected Discourses of the Buddha the third of the four great collections in the Sutta Pitaka of the Pali Canon The Samyutta Nikaya consists of fifty six chapters each governed by a unifying theme that binds together the

Buddha's suttas or discourses The chapters are organized into five major parts The first The Book with Verses is a compilation of suttas composed largely in verse This book ranks as one of the most inspiring compilations in the Buddhist canon showing the Buddha in his full grandeur as the peerless teacher of gods and humans The other four books deal in depth with the philosophical principles and meditative structures of early Buddhism They combine into orderly chapters all the important short discourses of the Buddha on such major topics as dependent origination the five aggregates the six sense bases the seven factors of enlightenment the Noble Eightfold Path and the Four Noble Truths Among the four large Nikayas belonging to the Pali Canon the Samyutta Nikaya serves as the repository for the many shorter suttas of the Buddha where he discloses his radical insights into the nature of reality and his unique path to spiritual emancipation This collection it seems was directed mainly at those disciples who were capable of grasping the deepest dimensions of wisdom and of clarifying them for others and also provided guidance to meditators intent on consummating their efforts with the direct realization of the ultimate truth The present work begins with an insightful general introduction to the Samyutta Nikaya as a whole Each of the five parts is also provided with its own introduction intended to guide the reader through this vast ocean like collection of suttas To further assist the reader the translator has provided an extensive body of notes clarifying various problems concerning both the language and the meaning
