This book focuses on the representation of the practitioner of the occult in mid to late nineteenth century British literature The occult was a source of emotional support and scientific curiosity during this time of change and uncertainty because it seemed to offer answers to both spiritual and scientific questions through measurable albeit unconventional means However the occult was also viewed as a threat to British society an assault on its values and a fundamental danger to emerging scientific enterprise By examining the ways in which the occult and its practitioners are represented in British novels from 1850 1900 this book traces the ways that the novels commented on participated in and contributed to the racialization of the occult that occurred throughout the nineteenth century in Britain The representations of the occult characters in these novels interpreted and transmitted the social political economic and scientific discourses about race in the nineteenth century to the reading public as well as participating in the discourse surrounding race and the occult
