Mahayana Buddhism The Doctrinal Foundations:

Mahāyāna Buddhism Paul Williams, 1989 This book aims to provide in one volume an up to date and accurate account of the principles of Mahayana Buddhism as they are found in both the Indo Tibetan and East Asian forms of Mahayana Originating in India Mahayana Buddhism spread to Central Asia Tibet Mongolia China Japan and other countries of East Asia In Tibet and East Asia Mahayana eventually became the prevalent form of Buddhism Western interest in Mahayana has increased considerably over the last twenty five years reflected both in the quantity of scholarly material produced and also in the attraction of Westerners towards Tibetan Buddhism and r aug This book aims to provide in one volume an up to date and accurate account of the principles of Mahayana Buddhism as they are found in both the Indo Tibetan and East Asian forms of Mahayana It seeks to introduce and reflect some of the recent scholarly work in the field and in particular the book is concerned to convey the diversity and richness of Mahayana Buddhism a diversity which prevents any attempt at simple definition

Mahāyāna Buddhism Paul Williams, 2009 As a reference book which guides readers through the labyrinth of the enormous Buddhist textual tradition this work is unsurpassed Williams Univ of Bristol UK integrates the latest textual discoveries into discussions of various doctrinal issues and carefully weighs the various positions of contemporary scholars Nevertheless at times the organizational scheme of the book seems opaque at best and can be misleading For example the author considers the bodhisattva early on in the chapter on the Perfection of Wisdom tradition Curiously a later chapter on the Lotus Sutra fails to notice the importance of the bodhisattva in that text Later a separate chapter titled The Path of the Bodhisattva is in fact a history of the introduction of Buddhism to Tibet and a description of certain doctrinal controversies that occurred there namely the development of the bodhisattva stages Moreover the print is so small that some will find reading it to be a considerable chore notes and main text are the same size Still with 39 percent of the book devoted to endnotes and bibliography this work will be very valuable to more advanced students of Buddhism Summing Up Recommended Upper level undergraduates through faculty researchers Upper division Undergraduates Graduate Students Researchers Faculty Reviewed by A L Miller

Power, Wealth and Women in Indian Mahayana Buddhism Douglas Osto, 2008-11-19 This book examines the concepts of power wealth and women in the important Mahayana Buddhist scripture known as the Gandavyuha sutra and relates these to the text s social context in ancient Indian during the Buddhist Middle Period 0 500 CE Employing contemporary textual theory worldview analysis and structural narrative theory the author puts forward a new approach to the study of Mahayana Buddhist sources the systems approach by which literature is viewed as embedded in a social system Consequently he analyses the Gandavyuha in the contexts of reality society and the individual and applies these notions to

the key themes of power wealth and women The study reveals that the spiritual hierarchy represented within the Gandavyuha replicates the political hierarchies in India during Buddhism s Middle Period that the role of wealth mirrors its significance as a sign of spiritual status in Indian Buddhist society and that the substantial number of female spiritual guides in the narrative reflects the importance of royal women patrons of Indian Buddhism at the time This book will appeal to higher level undergraduates postgraduates and scholars of religious studies Buddhist studies Asian studies South Asian studies and Indology

Revelation in a Pluralistic World Louis Roy, 2022-08-25 Since the Enlightenment the churches have progressively suffered a severe loss of status because of their belief that revelation is realized only in Christianity The suggestion that Christian revelation might be truer than other so called revelations seems to be preposterous This book argues that this insistence has often remained unnuanced and simplistic with the consequence that not only unbelievers as well as believers of other religions but even numerous Christians no longer agree with the primacy of a truth revealed in Jesus Christ The book addresses the difficulties affecting the interpretation of belief given modernity's concerns The volume sets out a provisional synthesis on revelation and it makes available much expository and historical information It correlates distinctions between pair members such as the natural and the supernatural conceptualism and intellectualism heart and reason subjectivity and objectivity limited perspective and universal viewpoint permanence of doctrine and historicity Christian and non Christian claims regarding truth revelation and divine speech moderate and radical pluralism Jesus absolutized and Jesus relativized The thrust of the argument is towards an appropriation of what is best in ancient medieval and modern traditions on revelation This book delineates in an original way a position on revelation that is at once traditional and relevant for today It accepts many values brought to the fore by modernity and draws from exegetes historians philosophers and theologians Its inspiration comes principally from the Bible Thomas Aquinas John Henry Newman and Bernard Lonergan **Becoming**

Buddhist Glenys Eddy, 2012-02-02 What does it mean to be a Western Buddhist For the predominantly Anglo Australian affiliates of two Western Buddhist centres in Australia the author proposes an answer to this question and finds support for it from interviews and her own participant observation experience Practitioners prior experiences of experimentation with spiritual groups and practices and their experiences of participation practice and self transformation are examined with respect to their roles in practitioners appropriation of the Buddhist worldview and their subsequent commitment to the path to enlightenment Religious commitment is experienced as a decision point itself the effect of the individual's experimental immersion in the Centre's activities During this time the claims of the Buddhist worldview are tested against personal experience and convictions Using rich ethnographic data and Lofland and Skonovd's experimental conversion motif as a model for theorizing the stages of involvement leading to commitment the author demonstrates that this study has a wider application to our understanding of the role of alternative religions in western contexts **Nalanda** Abhay K., 2025-01-24
