Mail Orders The Fiction Of Letters In Postmodern Culture:

Mail-Orders Sunka Simon,2002-03-21 Explores contemporary uses of letters and letter writing including electronic mail in literature film and art *Mail-Orders* Sunka Simon,2002-03-28 Explores contemporary uses of letters and letter writing including electronic mail in literature film and art Letters, Postcards, Email Esther Milne,2012-02-27 In this original study Milne moves between close readings of letters postcards and emails and investigations of the material technological infrastructures of these forms to answer the question How does presence function as an aesthetic and rhetorical strategy within networked communication practices As her work reveals the relation between old and new communication systems is more complex than allowed in much contemporary media theory Although the correspondents of letters postcards and emails are not usually present to one another as they write and read their exchanges this does not necessarily inhibit affective communication Indeed this study demonstrates how physical absence may in some instances provide correspondents with intense intimacy and a spiritual almost telepathic sense of the other s presence While corresponding by letter postcard or email readers construe an imaginary incorporeal body for their correspondents that in turn reworks their interlocutor s self presentation In this regard the fantasy of presence reveals a key paradox of cultural communication namely that material signifiers can be used to produce the experience of incorporeal presence **Postal Culture** Gabriella Romani,2013-12-31 The nationalization of the postal service in Italy transformed post unification letter writing as a cultural medium Both a harbinger of progress and an expanded more efficient means of circulating information the national postal service served as a bridge between the private world of personal communication and the public arena of information exchange and production of public opinion As a growing number of people read and wrote letters they became part of a larger community that regarded the letter not only as an important channel in the process of information exchange but also as a necessary instrument in the education and modernization of the nation In *Postal Culture* Gabriella Romani examines the role of the letter in Italian literature cultural production communication and politics She argues that the reading and writing of letters along with epistolary fiction epistolary manuals and correspondence published in newspapers fostered a sense of community and national identity and thus became a force for social change Edinburgh Companion to Nineteenth-Century American Letters and Letter-Writing Celeste-Marie Bernier,2016-02-15 Provides a wide ranging entry point and intervention into scholarship on nineteenth century American letter writing This comprehensive study by leading scholars in an important new field the history of letters and letter writing is essential reading for anyone interested in nineteenth century American politics history or literature Because of its mass literacy population mobility and extensive postal system nineteenth century America is a crucial site for the exploration of letters and their meanings whether they be written by presidents and statesmen scientists and philosophers novelists and poets feminists and reformers immigrants Native Americans or African Americans This book breaks new ground by mapping the voluminous correspondence of these figures and other important American

writers and thinkers Rather than treating the letter as a spontaneous private document the contributors understand it as a self conscious artefact circulating between friends and strangers and across multiple genres in ways that both make and break social ties Key Features Draws together different emphases on the intellectual literary and social uses of letter writing Provides students and researchers with a means to situate letters in their wider theoretical and historical contexts Methodologically expansive intellectually interrogative chapters based on original research by leading academics Offers new insights into the lives and careers of Louisa May Alcott Charles Brockden Brown Emily Dickinson Frederick Douglass Margaret Fuller Henry James Thomas Jefferson Abraham Lincoln Herman Melville Harriet Beecher Stowe and Edgar Allan Poe among many others *Epistolarity in a Post-Letter World* Sindija Franzetti, 2024-11-18 The study intervenes in a field hitherto dominated by formal and historical analyses of the literary letter Across the five case studies the method of reading epistolarity as a motif is applied to a selection of American novels published after 1990 Nick Bantock s Griffin Lish and Dunn test the limitations of letters for conveying individual experience to a distant other Robinson and Erdrich envision epistolarity as an address to a future Exploring the employment of epistolarity as a motif the study offers an interpretation of the messages these fictions extend for readers in a post letter world Communication technologies and practices may change but epistolarity as a motif a reprise of a scene of encounter that depends on keeping a distance between addresser and addressee remains a deeply compelling site of inquiry in twenty first century literature

Rethinking Postmodernism(s) Katrin Amian, 2008-01-01 Rethinking Postmodernism s revisits three historical sites of American literary postmodernism the early postmodernism of Thomas Pynchon s V 1961 the emancipatory postmodernism of Toni Morrison s Beloved 1987 and the late or post postmodernism of Jonathan Safran Foer s Everything Is Illuminated 2002 For the first time it confronts these texts with the pragmatist philosophy of Charles Sanders Peirce staging a conceptual dialogue between pragmatism and postmodernism that historicizes and recontextualizes customary readings of postmodern fiction The book is a must read for all interested in current reassessments of literary postmodernism in new critical dialogues between seminal postmodern texts and in recent attempts to theorize the post postmodern moment **Addressing the Letter** Laura Anne Salsini, 2010-01-01 Women writers of nineteenth and twentieth century Italy reinvigorated the modern epistolary novel through their re fashioning of the genre as a tool for examining women s roles and experiences Addressing the Letter argues that many epistolary novels purposely tie narrative structure to thematic content creating in the process powerful texts that reflect and challenge literary and socio cultural norms Through the lens of the genre Laura A Salsini considers how the works of authors including the Marchesa Colombi Sibilla Aleramo Gianna Manzini Natalia Ginzburg and Oriana Fallaci highlight such issues as love the loss of ideals lack of communication and connection and feminist ideology She also analyses what may be the first woman authored Italian example of epistolary fiction Orintia Romagnuoli Sacratini s Lettere di Giulia Willet 1818 In their reworking of the epistolary narrative form Italian women writers challenged dominant

assumptions about female behaviours roles relationships and sexuality in modern Italy *Email and the Everyday* Esther Milne,2024-07-02 An exploration of how email is experienced understood and materially structured as a practice spanning our everyday domestic and work lives Despite its many obituaries email is not dead As a global mode of business and personal communication email outstrips newer technologies of online interaction it is deeply embedded in our everyday lives And yet perhaps because the ubiquity of email has obscured its study this is the first scholarly book devoted to email as a key historical social and commercial site of digital communication in our everyday lives In *Email and the Everyday* Esther Milne examines how email is experienced understood and materially structured as a practice spanning the domestic and institutional spaces of daily life Email experiences range from the routine and banal to the surprising and shocking Drawing on interviews and online surveys Milne focuses on both the material and the symbolic properties of email She maps the development of email as a technology and as an industry considers institutional uses of email including bureaucratic intensity of workplace email and the continuing vibrancy of email groups and examines what happens when private emails end up in public archives discussing the Enron email dataset and Hillary Clinton s infamous private server Finally Milne explores the creative possibilities of email connecting eighteenth century epistolary novels to contemporary email novels discussing the vernacular expression of ASCII art and mail art and examining email works by Carl Steadman Miranda July and others

The Multiverse of Office Fiction Masaomi Kobayashi,2022-11-15 The Multiverse of Office Fiction liberates Herman Melville s 1853 classic *Bartleby the Scrivener* from a microcosm of Melville studies namely the so called *Bartleby Industry* This book aims to illuminate office fiction featuring office workers such as clerks civil servants and company employees as an underexplored genre of fiction by addressing relevant issues such as evolution of office work integration of work and life exploitation of women office workers and representation of the Post Office In achieving this goal *Bartleby* plays an essential role not as one of the most eccentric characters in literary fiction but rather as one of the most generic characters in office fiction Overall this book demonstrates that *Bartleby* is a generative figure by incorporating a wide diversity of his cousins as *Bartlebys* It offers fresh contexts in which to place these characters so that it can ultimately contribute to an ever evolving poetics of the office
