Main Currents In Twentieth Century Literary Criticism A Critical Survey:

Main Currents in Twentieth Century Literary Criticism: A Critical Survey , **Main Currents in Twentieth-century Literary Criticism** Yiannis Stamiris,1986 An interdisciplinary study which provides a comprehensive and critical presentation of the major twentieth century approaches to literature Twentieth-century Literary Criticism Dedria Bryfonski, Sharon K. Hall,1981 Contains alphabetically arranged entries that provide a selection of critical excerpts on the works of thirty authors who lived between 1900 and 1960 each including a biographical critical introduction a list of principal works and a bibliographical citation **Twentieth-century Literary Criticism** Gale Research Company,2001 Excerpts from criticism of the works of novelists poets playwrights and other creative writers 1900 1960 The Reception of Northrop Frye ,2021-08-31 The widespread opinion is that Northrop Frye s influence reached its zenith in the 1960s and 1970s after which point he became obsolete his work buried in obscurity This almost universal opinion is summed up in Terry Eagleton s 1983 rhetorical question Who now reads Frye In The Reception of Northrop Frye Robert D Denham catalogues what has been written about Frye books articles translations dissertations and theses and reviews in order to demonstrate that the attention Frye s work has received from the beginning has progressed at a geomantic rate Denham also explores what we can discover once we have a fairly complete record of Frye s reception in front of us such as Hayden White s theory of emplotments applied to historical writing and Byron Almon s theory of musical narrative The sheer quantity of what has been written about Frye reveals that the only valid response to Eagleton s rhetorical question is a very large and growing number the growth being not incremental but exponential *Encyclopedia of Contemporary Italian Culture* Gino Moliterno,2023-06-14 This rigorously compiled A Z volume offers rich readable coverage of the diverse forms of post 1945 Italian culture With over 900 entries by international contributors this volume is genuinely interdisciplinary in character treating traditional political economic and legal concerns with a particular emphasis on neglected areas of popular culture Entries range from short definitions histories or biographies to longer overviews covering themes movements institutions and personalities from advertising to fascism and Pirelli to Zeffirelli The Encyclopedia aims to inform and inspire both teachers and students in the following fields Italian language and literature Arts Humanities and Social Sciences European Studies Media and Cultural Studies Business and Management Art and Design It is extensively cross referenced has a thematic contents list and suggestions for further reading *Twentieth-Century Literary Criticism* Paula Kepos,1990-06 Contains alphabetically arranged entries that provide a selection of critical excerpts on the works of thirteen authors who died between 1900 and 1960 each including a biographical critical introduction a list of principal works and a bibliographical citation **University of Michigan Official Publication** ,1951 A History of Literary Criticism Harry Blamires,1991-08-16 The author traces the course of literary criticism from its foundations in classical and medieval precepts to the theorising of the present day He explores the texts which have been milestones in the history of critical thought

placing them firmly in the context of their time [A Reference Guide for English Studies](#) Michael J. Marcuse,2023-11-15

Catalogue of the University of Michigan University of Michigan,1964 Announcements for the following year included in some vols [Research in Education](#) ,1974 [Routledge Revivals: Pandora and Occam](#) (1992) Horst Ruthrof,2017-03-16

First published in 1992 this book evokes Pandora and Occam as metaphoric corner posts in an argument about language as discourse and in doing so brings analytic philosophy to bear on issues of Continental philosophy with attention to linguistic semiological and semiotic concerns Instead of regarding meanings as guaranteed by definitions the author argues that linguistic expressions are schemata directing us more or less loosely toward the activation of nonlinguistic sign systems Ruthrof draws up a heuristic hierarchy of discourses with literary expression at the top descending through communication reduced reference and speech acts to formal logic and digital communication at the bottom The book offers multiple perspectives from which to review traditional theories of meaning working from a wide variety of theorists including Peirce Frege Husserl Derrida Lyotard Davidson and Searle In Ruthrof s analysis Pandora and Occam illustrate the opposition between the suppressed rich materiality of culturally saturated discourse and the stark ideality of formal sign systems This book will be of interest to those studying linguistics literature and philosophy *Twentieth Century Literary Criticism* Dennis Poupard,1986-12 Contains alphabetically arranged entries that provide a selection of critical excerpts on the works of nineteen authors who died between 1900 and 1960 each including a biographical critical introduction a list of principal works and a bibliographical citation **The Twentieth-Century American Fiction Handbook** Christopher MacGowan,2011-02-21 THE TWENTIETH CENTURY AMERICAN FICTION Accessibly structured with entries on important historical contexts central issues key texts and the major writers this Handbook provides an engaging overview of twentieth century American fiction Featured writers range from Henry James and Theodore Dreiser to contemporary figures such as Joyce Carol Oates Thomas Pynchon and Sherman Alexie and analyses of key works include *The Great Gatsby* *Lolita* *The Color Purple* and *The Joy Luck Club* among others Relevant contexts for these works such as the impact of Hollywood the expatriate scene in the 1920s and the political unrest of the 1960s are also explored and their importance discussed This is a stimulating overview of twentieth century American fiction offering invaluable guidance and essential information for students and general readers **The Arabian Nights Reader** Ulrich Marzolph,2006 An authoritative guide to research inspired by the Arabian Nights containing sixteen influential essays [Resources in Education](#) ,1994 [Realist Poetics in American Culture, 1866-1900](#) Elizabeth Renker,2018-05-25 The terms poetry and realism have a complex and often oppositional relationship in American literary histories of the postbellum period The core narrative holds that realism the major literary movement of the era developed apace in prose fiction while poetry stuck in a hopelessly idealist late Romantic mode languished and stagnated Poetry is almost entirely absent from scholarship on American literary realism except as the emblem of realism s opposite a desiccated genteel twilight of the poets *Realist Poetics in American Culture 1866 1900*

refutes the familiar narrative of postbellum poetics as a scene of failure and it recovers the active and variegated practices of a diverse array of realist poets across print culture The triumph of the twilight tale in the twentieth century obscured minimized and flattened the many poetic discourses of the age including but not limited to a significant body of realist poems currently missing from US literary histories Excavating an extensive archive of realist poems the volume offers a significant revision to the genre exclusive story of realism and by extension to the very foundations of postbellum American literary history dating back to the earliest stages of the discipline *Translation and Ideology* Sonia Cunico,Jeremy

Munday,2016-04-08 Ideology has become increasingly central to work in translation studies To date however most studies have focused on literary and religious texts thus limiting wider understanding of how ideological clashes and encounters pervade any context where power inequalities are present This special edition of *The Translator* deliberately focuses on ideology in the translation of a rich variety of lesser studied genres namely academic writing cultural journals legal and scientific texts political interviews advertisements language policy and European Parliament discourse in all of which translation as a social practice can be seen to shape maintain and at times also resist and challenge the asymmetrical nature of exchanges between parties engaged in or subjected to hegemonic practices The volume opens with two ground breaking papers that investigate the nature and representation of truth and knowledge in the translation of the sciences followed by two contributions which approach the issue of shifts in the translation of ideology from the standpoint of critical linguistics and critical discourse analysis using data from political speeches and interviews and from English and Korean versions of Newsweek Other contributions discuss the role that translation scholars can play in raising public awareness of the manipulative devices used in advertising the way in which potentially competing institutional and individual ideologies are negotiated in the context of interpreting in the European Union the role translation plays in shaping the politics of a multilingual nation state with reference to Belgium and the extent to which the concepts of norms and polysystems may be productive in investigating the link between translation and ideology with reference to Chinese data [Reader's Guide to Literature in English](#) Mark Hawkins-Dady,2012-12-06 Reader s Guide Literature in English provides expert guidance to and critical analysis of the vast number of books available within the subject of English literature from Anglo Saxon times to the current American British and Commonwealth scene It is designed to help students teachers and librarians choose the most appropriate books for research and study
