Hard Places Richard V. Eldorado! Catherine Holder Spude, Robin O. Mills, Karl Gurcke, 2011-12-01 When gold was discovered in the far northern regions of Alaska and the Yukon in the late nineteenth century thousands of individuals headed north to strike it rich This massive movement required a vast network of supplies and services and brought even more people north to manage and fulfill those needs In this volume archaeologists historians and ethnologists discuss their interlinking studies of the towns trails and mining districts that figured in the northern gold rushes including the first sustained account of the archaeology of twentieth century gold mining sites in Alaska or the Yukon The authors explore various parts of this extensive settlement and supply system coastal towns that funneled goods inland from ships the famous Chilkoot Trail over which tens of thousands of gold seekers trod a host of retail oriented sites that supported prospectors and transferred goods through the system and actual camps on the creeks where gold was extracted from the ground Discussing individual cases in terms of settlement patterns and archaeological assemblages the essays shed light on issues of interest to students of gender transience and site abandonment behavior Further commentary places the archaeology of the Far North within the larger context of early twentieth century industrialized European American society

Distant Horizon Gary Noy, 1999-01-01 The West has figured in the American imagination under many guises as the last best place on earth a refuge an escape a land of opportunity but also as a place of conquest and failure Where Lewis and Clark saw great possibilities Native cultures found disappointment and loss This collection presents the diverse and often contradictory accounts that make up the mosaic of the nineteenth century American West From Thomas Hart Benton's famous speech in the Senate when he argued that non white civilizations must fall before the western expansion of white Americans to Black Elk's story of a way of life lost on the frozen ground at Wounded Knee Gary Noy offers a representative sampling of the many Wests that historians have struggled to define for over a century

Distant Horizon chronicles the dusty world of the cowboy the hard scrabble existence of the farmer and the settler and the miner s vision of golden glory It examines the independent nature of the explorer and mountain man and the sometimes heroic sometimes cruel existence of the soldier We hear the voices of those outside the mainstream of power women and Westerners of color and explore the most tragic element of Western history the confinement subjugation and extermination of Native Americans No other single volume provides as many readings on as many topics in the history of the American West
