The evolution of Israeli food has been dependent on three major variables: the geography and climate of Israel, its ethnic mix, and ethnic history, including religious influences, non-Jewish communities, and heavy immigration from around the world, and technical innovation that has enabled Israel to become a leader in agricultural technology. This book provides a comprehensive picture of Israeli food culture in the twenty-first century, examined on the basis of the various influences that

created this particular culture. Such influences include the lengthy food history that can be traced to prehistory including data from the Bible and Koran and archaeological evidence as well as contemporary food practices that have emerged as a mix of influences from different ethnic groups. Modern Israeli food practices are the result of the sway of European Middle Eastern and other cultures creating a cuisine that is marked by its blends. Main topics are accompanied by easy to follow recipes. The book serves as an introduction to daily life in Israel as well as the evolution of food practices in a relatively new country.
