Constraints addresses the challenges of conducting program evaluations in real world contexts where evaluators and their clients face budget and time constraints The new Third Edition includes a new chapter on gender equality and women s empowerment and discussion of digital technology and data science *2000 Annual Review of Development Effectiveness* William Battaile,2001-01-01 This Annual Review of Development Effectiveness ARDE builds on previous reviews i e the 1998 review released in a hostile environment of financial crisis concluded that improvements in project performance cannot be enough that improvements at a higher plane of program and country performance should also be present and the 1999 review inscribed within the Comprehensive Development Framework dilemmas and challenges identified practices for dealing with those challenges namely to be based on country commitments to poverty reduction and sustainable growth The ARDE 2000 finds that progress was solid on a broad front but that further progress is likely Portfolio performance is likely to exceed the Strategic Compact target of seventy five percent satisfactory outcomes and sustainability and institutional development ratings reflect improvements Though progress is commendable this review examines four tensions the Bank faces learning to reconcile client and corporate priorities adapting global prescriptions to local conditions balancing country performance and poverty incidence in allocating its resources and achieving efficiency selectivity seeking to implement a holistic vision of development Bank strategies should acknowledge client needs judicious adaptation to institutional social and political fronts should be pursued and an approach to poor performing countries should be addressed **The Drive to Partnership** John R. Eriksson,2001-01-01 Results based conceptual frameworks Stakeholder views and related findings Country context and measuring aid coordination quality *2001 Annual Review of Development Effectiveness* William Battaile,2002-01-01 This is the fifth annual review which explores long term development effectiveness trends and analyses the choice of lending and non lending instruments and activities to achieve World Bank development objectives The 2001 review confirms a significant improvement in the outcomes of the Banks lending performance It finds that selecting the right combination and sequence of activities for a particular objective can make the difference between success and failure whether at individual project level for country assistance programmes or for global sectoral and thematic priorities At each level there is unexploited potential to maximise strategic selectivity and this is especially important in countries with a poor policy framework or acute institutional development needs *World Bank Lending for Lines of Credit* Laurie Effron,2006-01-01 This review of World Bank support for lines of credit channeled through local financial institutions in client countries finds that the Bank s own guidelines have not been followed and outcomes are poor *Jordan* Fareed M. A. Hassan,Djelloul Al-Saci,2004-01-01 This evaluation prepared in collaboration with the Islamic Development Bank looks at the effectiveness of World Bank assistance to Jordan during the 1990s from three perspectives an analysis of the World Bank s services and products development impact and the contribution of the Bank and its development partners to development outcomes The World Bank s strategy since 1990 based on wide ranging and influential analytic and advisory activities was to

support macroeconomic stabilization and pro market structural reforms to foster growth The increased focus on the social sectors was aligned with the Millennium Development Goals MDGs The strategy was relevant to the government s priorities outlined in a series of five year economic and social development plans The Bank s programs in particular were successful in promoting policy reforms Substantial tariff trade and financial sector reforms together with the removal of disincentives for investment and the privatization of government enterprises were achieved Bank assistance also contributed to significant progress in the agriculture water and social sectors With Bank support Jordan made excellent progress in almost all areas covered by the MDGs and is likely to meet the target levels by 2015 However these gains have been achieved in an inefficient manner and the cost in terms of public expenditures has been relatively high Recommendations outline much needed public sector reform for despite some public expenditures being curtailed the country s vulnerability to external shocks remains high and the potential for regional instability is also considerable Future Bank assistance should focus on public expenditure restructuring enhanced water management and conservation and poverty reduction
