Manuscript Library of Sir Robert Cotton Colin G. C. Tite, 1994      *The Manuscript Library of Sir Robert Cotton* Colin Gerald Calder Tite, 1994 Describes the evolution of one of the three foundation collections which formed the British Library

Sir Robert Cotton as Collector C. J. Wright, 1997 The library of Sir Robert Cotton 1571 1631 is arguably the most important collection of manuscripts ever assembled in Britain by a private individual Amongst its many treasures are the Lindisfarne Gospels two of the contemporary copies of Magna Carta and the only surviving manuscript of Beowulf It was bequeathed to the nation by Sir Robert's grandson in 1701 The British Library is currently engaged in laying the groundwork for a new and definitive catalogue of the manuscripts      *The Early Records of Sir Robert Cotton's Library* Colin Gerald Calder Tite, 2003 Following the dissolution of the monasteries in the 1530s and the dispersal of their libraries a number of British collectors set to work to recover as much as possible Of their second generation Sir Robert Cotton 1571 1631 was an outstanding member also acquiring a wide range of other material Indeed so important was his library that it became one of the foundation collections of the British Museum in 1753 Significant records never previously studied as a whole survive from the early years of Cotton's library and this book edits and analyses these throwing important new light on Sir Robert his son and grandson as collectors and providing much fresh evidence on the history of their collection and its development

**Memory's Library** Jennifer Summit, 2008-11-15 In Jennifer Summit's account libraries are more than inert storehouses of written tradition they are volatile spaces that actively shape the meanings and uses of books reading and the past Considering the two hundred year period between 1431 which saw the foundation of Duke Humfrey's famous library and 1631 when the great antiquarian Sir Robert Cotton died *Memory's Library* revises the history of the modern library by focusing on its origins in medieval and early modern England Summit argues that the medieval sources that survive in English collections are the product of a Reformation and post Reformation struggle to redefine the past by redefining the cultural place function and identity of libraries By establishing the intellectual dynamism of English libraries during this crucial period of their development *Memory's Library* demonstrates how much current discussions about the future of libraries can gain by reexamining their past      The Manuscripts Club Christopher de Hamel, 2025-11-11 A New York Times Book Review Editors Choice The acclaimed author of *Meetings with Remarkable Manuscripts* introduces us to the extraordinary keepers and companions of medieval manuscripts over a thousand years of history The illuminated manuscripts of the Middle Ages are among the greatest works of European art and literature We are dazzled by them and recognize their crucial role in the transmission of knowledge However we generally think much less about the countless men and women who made collected and preserved them through the centuries and to whom they owe their existence This entrancing book describes some of the extraordinary people who have spent their lives among illuminated manuscripts over the last thousand years a monk in Normandy a prince of France a Florentine bookseller an English antiquary a rabbi from central Europe a

French priest a Keeper at the British Museum a Greek forger a German polymath a British connoisseur and the woman who created the most spectacular library in America all of them members of what Christopher de Hamel calls the Manuscripts Club This exhilarating fraternity and the fellow enthusiasts who come with it throw new light on how manuscripts have survived and been used by very different kinds of people in many different circumstances Christopher de Hamel's unexpected connections and discoveries reveal a passion that crosses the boundaries of time We understand the manuscripts themselves better by knowing who their keepers and companions have been In 1850 or thereabouts John Ruskin bought his first manuscript at a bookseller's in a back alley This was his reaction The new worlds which every leaf of this book opened to me and the joy I had in counting their letters and unravelling their arabesques as if they had all been of beaten gold as many of them were cannot be told The members of de Hamel's club share many such wonders which he brings to us with scholarship style and a lifetime's experience

**Sir Philip Sidney and the Circulation of Manuscripts, 1558-1640** H. R.

Woudhuysen, 1996-05-23 This is the first modern study of the production and circulation of manuscripts during the English Renaissance H R Woudhuysen examines the relationship between manuscript and print looks at people who lived by their pens and surveys authorial and scribal manuscripts paying particular attention to the copying of verse plays and scholarly works by hand It investigates the professional production of manuscripts for sale by scribes such as Ralph Crane and Richard Robinson The second part of the book examines Sir Philip Sydney's works in the context of Woudhuysen's research discussing all Sidney's important manuscripts and seeking to assess his part in the circulation of his works and his role in the promotion of a scribal culture A detailed examination of the manuscripts and early prints of his poems his *Arcadias* and of *Astrophil and Stella* shed new light on their composition evolution and dissemination as well as on Sidney's friends and admirers

*Medieval Manuscripts in Post-Medieval England* Andrew G. Watson, 2023-07-07 Two themes uniting the essays

in this collection are the provenance and history of medieval manuscripts during the Middle Ages and the fates that befell them in England in the period after the invention of printing and the 16th century dissolution of the religious houses and visitations of the universities The section Libraries and collectors includes papers on seven major English collectors of the 16th and 17th centuries and the section Manuscripts concerns the fates of five manuscripts or groups of manuscripts from England Belgium and Italy Of the other chapters one is concerned with the post medieval history of the library of All Souls College Oxford and another with the provenance of hundreds of manuscripts in the Harleian collection in the British Library For this volume Andrew Watson has provided extensive additional notes and indexes

*Chaucer's Early Modern Readers* Devani Singh, 2023-06-22 The first extended study of the reception of Chaucer's medieval manuscripts in the early modern period this book focuses chiefly on fifteenth century manuscripts and discusses how these volumes were read used valued and transformed in an age of the poet's prominence in print Each chapter argues that patterns in the material interventions made by readers in their manuscripts correcting completing supplementing and authorising reflect conventions which

circulated in print and convey prevailing preoccupations about Chaucer in the period the antiquity and accuracy of his words the completeness of individual texts and of the canon and the figure of the author himself This unexpected and compelling evidence of the interactions between fifteenth century manuscripts and their early modern analogues asserts print's role in sustaining manuscript culture and thus offers fresh scholarly perspectives to medievalists early modernists and historians of the book This title is also available as open access on Cambridge Core

*The Oxford Handbook of Victorian Medievalism*  
Joanne Parker, Corinna Wagner, 2020-09-15 In 1859 the historian Lord John Acton asserted two great principles divide the world and contend for the mastery antiquity and the middle ages The influence on Victorian culture of the Middle Ages broadly understood then as the centuries between the Roman Empire and the Renaissance was both pervasive and multifaceted This medievalism led for instance to the rituals and ornament of the Medieval Catholic church being reintroduced to Anglicanism It led to the Saxon Witan being celebrated as a prototypical representative parliament It resulted in Viking raiders being acclaimed as the forefathers of the British navy And it encouraged innumerable nineteenth century men to cultivate the superlative beards we now think of as typically Victorian in an attempt to emulate their Anglo Saxon forefathers Different facets of medieval life and different periods before the Renaissance were utilized in nineteenth century Britain for divergent political and cultural agendas Medievalism also became a dominant mode in Victorian art and architecture with 75 per cent of churches in England built on a Gothic rather than a classical model And it was pervasive in a wide variety of literary forms from translated sagas to pseudo medieval devotional verse to triple decker novels Medievalism even transformed nineteenth century domesticity while only a minority added moats and portcullises to their homes the medieval style textiles produced by Morris and Co decorated many affluent drawing rooms

*The Oxford Handbook of Victorian Medievalism* is the first work to examine in full the fascinating phenomenon of medievalism in Victorian Britain Covering art architecture religion literature politics music and social reform the Handbook also surveys earlier forms of antiquarianism that established the groundwork for Victorian movements In addition this collection addresses the international context by mapping the spread of medievalism across Europe South America and India amongst other places
