Narrative Picture Scrolls Arts Of Japan 5:

Narrative Picture Scrolls Hideo Okudaira, 1973 *Art and Palace Politics in Early Modern Japan, 1580s-1680s* Elizabeth Lillehoj, 2011-08-29 During the first century of Japan's early modern era 1580s to 1680s art and architecture created for the imperial court served as markers of social prestige testifying to the enduring centrality of the palace to the cultural life of Kyoto. Emperors Go Y zeii and Go Mizunoo relied on financial support from ruling warlords Toyotomi Hideyoshi and the Tokugawa shoguns just as the warlords sought imperial sanction granting them legitimacy to rule. Taking advantage of this complex but oftentimes strained synergy Go Y zeii and Go Mizunoo and to an unprecedented extent his empress T fukumon enhanced the hereditary prerogatives of the imperial family. Among the works described in this volume are masterpieces commissioned for the residences and temples of the imperial family which were painted by artists of the Kano Tosa and Sumiyoshi ateliers not to mention Tawarayama S tatsu. Anonymous but deluxe painting commissions depicting grand imperial processions are examined in detail. The court's fascination with calligraphy and tea arts that flourished in this age is also discussed in this profusely illustrated volume.

Composition Arthur Wesley Dow, 2023-12-22 First published in 1899 Arthur Wesley Dow's *Composition* has probably influenced more Americans than any other text to think of visual form and composition in relation to artistic modernity. While Dow is known as the mentor of Georgia O'Keeffe and Max Weber his legacy as a proponent of modern art has suffered undeserved neglect by recent artists and art historians. In *Composition* Dow develops a system for teaching students to create freely constructed images on the basis of harmonic relations between lines, colors and dark and light patterns. Greatly influenced by Japanese art he expounds a theory of flat formal equilibrium as an essential component of telling pictorial creation. Generations of teachers and their public school pupils learned from Dow's orientalism and adopted basic postimpressionist principles without even knowing the term. The reappearance of Dow's practical well illustrated guide enhanced by Joseph Masheck's discussion of its historical ramifications is an important event for all concerned with the visual arts and the intellectual antecedents of American modernism. First published in 1899 Arthur Wesley Dow's *Composition* has probably influenced more Americans than any other text to think of visual form and composition in relation to artistic modernity. Narrative Picture Scrolls, 1973 Known as emaki and sometimes ekotoba these works contain pictures rendered on a handscroll which opens horizontally. In many cases they also contain written explanatory comments kotobagaki and are designed to be viewed in sequence when unrolled from right to left. The handscroll made its appearance very early in East Asian pictorial art and Japan's emaki are derived from Chinese models. The many e ingakyo illustrated sutras of cause and effect produced in Japan in the 8th century reproduced the text of a Buddhist sutra on the laws of causation the Kako genzai ingakyo with appropriate illustrations and appear to be copies of Chinese originals.

Critical Terms for the Study of Buddhism Donald S. Lopez Jr., 2009-11-15 Over the past century Buddhism has come to be seen as a world religion exceeding Christianity in longevity and according to many philosophical wisdom Buddhism has also increasingly been described as strongly ethical

devoted to nonviolence and dedicated to bringing an end to human suffering And because it places such a strong emphasis on rational analysis Buddhism is considered more compatible with science than the other great religions As such Buddhism has been embraced in the West both as an alternative religion and as an alternative to religion This volume provides a unique introduction to Buddhism by examining categories essential for a nuanced understanding of its traditions Each of the fifteen essays here shows students how a fundamental term from art to word illuminates the practice of Buddhism both in traditional Buddhist societies and in the realms of modernity Apart from Buddha the list of terms in this collection deliberately includes none that are intrinsic to the religion Instead the contributors explore terms that are important for many fields and that invite interdisciplinary reflection Through incisive discussions of topics ranging from practice power and pedagogy to ritual history sex and death the authors offer new directions for the understanding of Buddhism taking constructive and sometimes polemical positions in an effort both to demonstrate the shortcomings of assumptions about the religion and the potential power of revisionary approaches Following the tradition of *Critical Terms for Religious Studies* this volume is not only an invaluable resource for the classroom but one that belongs on the short list of essential books for anyone seriously interested in Buddhism and Asian religions
