*A Legend of Holy Women* Osbern Bokenham, 1992 Sheila Delany's translation of Osbern Bokenham's Legendys of Hooly Wummen 1443 1447 makes available in modern English the first all female hagiography Closely translated from elaborate Latin Middle English verse into prose *A Legend of Holy Women* contains the Augustinian friar's version of the stories of 13 women saints from gospel apocrypha martyrology and high medieval history **A Legend of Holy Women** Osbern Bokenham, 2005 *Binding Words* Don C. Skemer, 2010-11-01 In the Middle Ages textual amulets short texts written on parchment or paper and worn on the body were thought to protect the bearer against enemies to heal afflictions caused by demonic invasions and to bring the wearer good fortune In *Binding Words* Don C. Skemer provides the first book length study of this once common means of harnessing the magical power of words Textual amulets were a unique source of empowerment promising the believer safe passage through a precarious world by means of an ever changing mix of scriptural quotations divine names common prayers and liturgical formulas Although theologians and canon lawyers frequently derided textual amulets as ignorant superstition many literate clergy played a central role in producing and disseminating them The texts were in turn embraced by a broad cross section of Western Europe Saints and parish priests physicians and village healers landowners and peasants alike believed in their efficacy Skemer offers careful analysis of several dozen surviving textual amulets along with other contemporary medieval source materials In the process *Binding Words* enriches our understanding of popular religion and magic in everyday medieval life *Medieval Women's Writing* Diane Watt, 2007-10-22 *Medieval Women's Writing* is a major new contribution to our understanding of women's writing in England 1100 1500 The most comprehensive account to date it includes writings in Latin and French as well as English and works for as well as by women Marie de France Clemence of Barking Julian of Norwich Margery Kempe and the Paston women are discussed alongside the Old English lives of women saints The Life of Christina of Markyate the St Albans Psalter and the legends of women saints by Osbern Bokenham *Medieval Women's Writing* addresses these key questions Who were the first women authors in the English canon What do we mean by women's writing in the Middle Ages What do we mean by authorship How can studying medieval writing contribute to our understanding of women's literary history Diane Watt argues that female patrons audiences readers and even subjects contributed to the production of texts and their meanings whether written by men or women Only an understanding of textual production as collaborative enables us to grasp fully women's engagement with literary culture This radical rethinking of early women's literary history has major implications for all scholars working on medieval literature on ideas of authorship and on women's writing in later periods The book will become standard reading for all students of these debates *Middle English Saints' Legends* John Scailhill, Margaret Rogerson, 2005 Annotated bibliography covering two centuries of scholarly criticism on the extensive corpus of medieval saints legends with the assistance of Margaret Rogerson Saints legends are being increasingly recognised as one of the most

important genres of the middle ages and attract much critical attention This volume surveys the scholarly literature of the nineteenth and twentieth centuries on the extensive Middle English corpus It also provides a conspectus of the genre's history in the Middle English period and its place in the development of the modern discipline of Middle English while both the introduction and the annotations give attention to the problematic boundaries between genres and to the issues involved in separating out texts from their manuscript contexts General studies of the corpus as a whole are covered as well as discussions and editions of individual legends of the various extended cycles of legends and of sermon collections that include hagiographic legends and exempla the volume has been structured so as to provide an overview of the research on major works for example the South English Legendary and St Erkenwald and authors such as Osbern Bokenham John Capgrave William Caxton and John Mirk It includes an Index of Scholars and Critics keyed to the Bibliography an Index of Middle English Texts that covers all works of whatever genre mentioned in the annotations and an Index of Manuscripts that gathers the references to the over 170 manuscripts cited

Women of the Gilte Legende Jacobus, Larissa Tracy, 2003 This book is a prose translation of a selection of women saints' lives from the Gilte Legende the Middle English version of Jacobus de Voragine's Legenda Aurea one of the most influential books to come from the middle ages Because of its popularity and subject matter the Gilte Legende was widely read and used as a model for everyday life including the education of women through examples set by early Christian martyrs Many of the women saints spoke passionately about their convictions and defended their faith and their bodies to the death For over 400 years these amazing vernacular stories have been inaccessible to a wider audience This book divides the lives of female saints into the right holy virgins who vocally defend their bodies against Roman persecution holy mothers who give up their traditional role to pursue a life of contemplation the repentant sinners who convert and voice their defiance against a society that demanded silence in women and the holy transvestites who cast off their gender identity to find absolution and salvation Their lives reach through the ages to speak to a modern audience academic and non academic forcing a re examination of women's roles in the medieval period

**Chaste Passions** Karen Anne Winstead, 2000 Virgin martyrs make up one of the largest categories of medieval saints To judge by their frequent appearances in art and literature they also figure among the most venerated The legends of virgin martyrs retold in various ways through the centuries illuminate trends in popular piety values and literary tastes Chaste Passions contains sixteen English virgin martyr legends each of a different saint and each translated into colloquial modern English prose Faithful in tone and meaning to the originals Karen Winstead's lively translations allow contemporary readers to appreciate why virgin martyr legends thrived for hundreds of years Winstead presents the tales in chronological order tracing the effects of the composition and tastes of the audience on

the development of the genre The virgin martyr Winstead tells us escapes the confining female stereotypes demure maiden or disruptive shrew prevalent in writings of the period Because nearly all of the texts were written by men but addressed to women they exhibit a fascinating interplay between male views of so called women s literature and the demands of their intended audience Familiarity with this widely read genre is essential to a full understanding of medieval culture and Chaste Passions is an excellent introduction to these often racy sometimes comic tales

**New Legends of England** Catherine Sanok,2018-03-15 New Legends of England examines a previously unrecognized phenomenon of fifteenth century English literary culture the proliferation of vernacular Lives of British Anglo Saxon and other native saints Catherine Sanok argues these texts use literary experimentation to explore overlapping forms of secular and religious community [Dialogue Analysis IX: Dialogue in Literature and the Media, Part 1: Literature](#) Anne Betten,Monika Dannerer,2011-12-22 These two volumes offer a selection of the papers held at the conference of the International Association for Dialogue Analysis IADA in 2003 Volume I contains 38 articles devoted to dialogue and the phenomenon of dialogicity in literature ranging from antiquity to a large number of modern languages and literatures The conversation analytic approaches drawn upon are notable for their methodological diversity This is also true of the 32 articles in Volume II The main focus here is on present day types of dialogue in the new electronic media and their traditional counterparts press radio television film The examples are taken from various countries and they are discussed in terms of the intercultural semiotic translatorial and general pragmatic issues they pose

*Middle English Legends of Women Saints* Martha G Blalock,Wendy R Larson,Sherry L Reames,2003-03-01 Middle English Legends of Women Saints presents a collection of saints Lives intended to suggest the diversity of possibilities beneath the supposedly fixed and predictable surfaces of the legends using multiple retellings of the same legend to illustrate that medieval readers and listeners did not just passively receive saints legends but continually and actively appropriated them The collection opens with legends about two royal or supposedly royal women Frideswide and Mary Magdalen and continues with those of three popular virgin martyrs Margaret of Antioch Christina of Tyre and Katherine of Alexandria The final portion of the collection is devoted to St Anne mother of the Virgin Mary The collection includes a number of relatively unknown texts that have not appeared in print since Horstmann s transcriptions in the nineteenth century and a few that have never before been published

**Performing Virginit y and Testing Chastity in the Middle Ages** Kathleen Coyne Kelly,2002-11-01 This book challenges the belief that female virginit y can be reliably and unambiguously defined tested and verified Kelly analyses a variety of medieval Western European texts including medical treatises and their Classical antecedents and historical and legal documents The main focus is the representation of both male and female virgins in saints legends and romances The author also makes a comparative study of examples from contemporary fiction television and film in which testing virginit y is a theme Performing Virginit y and Testing Chastity in the Middle Ages presents a compelling and provocative study of the paradox of bodily and spiritual integrity as both presence

and absence      **Her Life Historical** Catherine Sanok,2013-04-23 Her Life Historical offers a major reconsideration of one of the most popular narrative forms in late medieval England the lives of female saints and one of the period's primary modes of interpretation exemplarity With lucidity and insight Catherine Sanok shows that saints legends served as vehicles for complex considerations of historical difference and continuity in an era of political crisis and social change At the same time they played a significant role in women's increasing visibility in late medieval literary culture by imagining a specifically feminine audience Sanok proposes a new way to understand exemplarity the repeated injunction to imitate the saints not simply as a prescriptive mode of reading but as an encouragement to historical reflection With groundbreaking originality she argues that late medieval writers and readers used religious narrative and specifically the legends of female saints to think about the historicity of their own ethical lives and of the communities they inhabited She explains how these narratives were used in the fifteenth century to negotiate the urgent social concerns occasioned by political instability and dynastic conflict by the threat of heresy and the changing status of public religion and by new kinds of social mobility and forms of collective identity Her Life Historical also offers a fresh account of how women came to be visible participants in late medieval literary culture The expectation that they formed a distinct audience for saints lives and moral literature allowed medieval women to surface in the historical record as book owners patrons and readers Saints lives thereby helped to invent the idea of a gendered audience with a privileged affiliation and a specific response to a given narrative tradition      **The Naked Text** Sheila Delany,2023-04-28 A sequel to her seminal book on Chaucer's House of Fame Sheila Delany's elegant and innovative study of Chaucer's Legend of Good Women explores what it meant to be a reader and a writer and to be English and a courtier in the late fourteenth century The richness of late medieval art philosophy and history are powerfully brought to bear on one of Chaucer's most controversial works So too are the insights of modern critical theory semiotics historicism and gender studies especially making this a unique achievement in medieval and Chaucerian studies Delany's strikingly original readings of Chaucer's Orientalism his sexual wordplay his theological attitudes and his treatment of sex and gender have given us a Chaucer for our time This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1994      *The History of British Women's Writing, 700-1500* Liz Herbert McAvoy,Diane Watt,2015-12-26 This volume focuses on women's literary history in Britain between 700 and 1500 It brings to the fore a wide range of women's literary activity undertaken in Latin Welsh and Anglo Norman alongside that of the English vernacular demanding a rethinking of the traditions of literary history and ultimately the concept of writing itself      Methods in Historical Pragmatics Susan M. Fitzmaurice,Irma Taavitsainen,2008-08-22 This volume represents a timely collective review and assessment of what it is we do when we do
