Oscar Arias:

Oscar Arias Sánchez Vicki Cox, 2013 Oscar Arias Sánchez was awarded the 1987 Nobel Peace Prize for his efforts to end the civil unrest raging in several Central American countries at that time Oscar Arias Kelli Peduzzi, Ronnie Cummins, 1991-01-01 A biography of the Costa Rican president who won the 1987 Nobel Peace Prize for his successful efforts in promoting a peace plan for Central America **Coffee and Power** Jeffery M. Paige, 1997 In the revolutionary decade between 1979 and 1992 it would have been difficult to find three political systems as different as death squad dominated El Salvador peaceful social democratic Costa Rica and revolutionary Sandinista Nicaragua Yet when the fighting was finally ended by a peace plan initiated by Costa Rica's President Oscar Arias all three had found a common destination in democracy and free markets To explain this extraordinary turn of events is the task of this landmark book which fuses political economy and cultural analysis Both the divergent political histories and their convergent outcome were shaped by a single commodity that has dominated these export economies from the nineteenth century to the present coffee Jeffery Paige shows that the crises of the 1980s had their roots in the economic and political crises of the 1930s when the revolutionary left challenged the ruling coffee elites of all three countries He interweaves and compares the history economics and class structures of the three countries thus clarifying the course of recent struggles The heart of the book is his conversations with sixty two leaders of fifty eight elite dynasties who for the first time tell their own stories of the experience of Central American revolution Paige's analysis challenges not only Barrington Moore's influential theory of dictatorship and democracy but also contemporary approaches to transitions to democracy It also shows that a focus on either political economy or culture alone cannot account for the transformation of elite ideology and that revolution in Central America is deeply rooted in the personal familial and class histories of the coffee elites Mother Jones Magazine, 1987-10 Mother Jones is an award winning national magazine widely respected for its groundbreaking investigative reporting and coverage of sustainability and environmental issues **Government Leaders, Military Rulers and Political Activists** David W. Del Testa, 2014-01-27 In each volume an introductory essay outlines the history of the disciplines under discussion and describes how changes and innovations in these disciplines have affected our lives The biographies that follow are organized in an A-Z format each biography is divided into a life section describing the individual's life and influences and a legacy section summarizing the impact of that individual's work throughout history These biographies cover a diverse group of men and women from around the globe and throughout history Franklin Delano Roosevelt Mao Tse-tung and Genghis Khan are among the 200 well known historical figures included in this volume Examples of other lesser known yet important individuals covered in this work are Gustavus Adolphus Swedish empire creator Hatshepsut queen of ancient Egyptian dynasty and Jean Jaurès French socialist leader and pacifist Each synopsis provides information on each individual's enduring impact on the common understanding of fundamental themes of human existence *The Nobel Peace Prize and the Laureates* Irwin Abrams, 2001 Presents brief

biographical portraits of the 106 recipients of the Nobel Peace Prize during its 100 year history
