## **Other Elites Women Politics And Power In The Executive Branch:**

**The Other Elites** MaryAnne Borrelli, Janet M. Martin, 2000-12-15 Contains 13 contributions divided into four sections theoretical and comparative perspectives on women as political executives institutional perspectives on women as officeholders in the executive branch institutional perspectives on the President Congress and the Courts and policy and participations issues relating to women as executive activists and as citizens Annotation copyrighted by Book News Inc Portland OR

**The Other Elites** Mary Anne Borrelli, Janet M. Martin, 2022 Bridging the fields of presidency studies and women and politics The Other Elites examines the career paths the policy preferences and the leadership behavior of women in the executive branch of US government

**Women, Politics, and Power** Pamela Paxton, Melanie M. Hughes, 2015-12-30 Women Politics and Power A Global Perspective Third Edition provides a clear detailed introduction to women s political participation and representation across a wide range of countries and regions Through broad statistical overviews and detailed case study accounts authors Pamela Paxton and Melanie M Hughes document both historical trends and the contemporary state of women s political strength Readers see the cultural structural political and international influences on women s access to political power and the difference women make once in political office The text acknowledges differences among women through attention to intersectionality and women from marginalized groups

**Women in Executive Power** Gretchen Bauer, Manon Tremblay, 2011-03-10 Women in Executive Power studies the participation of women in the political executive around the world notably in cabinet positions as ministers and sub ministers and as heads of government and state Providing multiple case studies in each chapter the book provides regional overviews of nine different world regions covering those with the fewest to the most women in executive power Evaluating the role of socio cultural economic and political variables of women s access to cabinet positions and positions of head of state and government the book shows that women are increasingly moving into positions previously considered male Tracing the historical trends of women s participation in governments that has markedly increased in the last two decades the book assesses the factors that have contributed to women s increasing presence in executives and the extent to which women executives once in office represent women s interests With case studies from Europe the Americas Asia Africa the Arab world and Oceania Women in Executive Power will be of interest to scholars of comparative politics gender and women s studies

*The Moral Authority of Government* Henry Barbera, R. Hoxie, 2023-05-31 These new essays prepared to commemorate the centennial of the National Institute of Social Sciences have been carefully crafted to deal with an overriding concern of our time those elements in political rule that go beyond legal rights and responsibilities into the moral requirements of effective governance The principal theme of this book is presidential leadership The presidency personifies government authority including moral authority In the first part of this book most of the essays argue that the moral authority of leaders depends on high personal standards as well as policy outcomes The second segment on the rule of law and character raises considerations not limited to the presidency Character

and the authority that derives from it are demonstrated most effectively not by what someone does in his or her personal life but in the moral values of the causes espoused and effectiveness in pursuing them In the realm of international affairs governmental leadership must wrestle with the moral and constitutional guidelines known as reasons of state Under what circumstances is it morally acceptable for a leader or government to practice deception upon the citizenry to overthrow other governments to bomb civilians Many contributors raise the issue of what permits a government to take actions that would be immoral or illegal in individuals or groups The final segment expands and deepens this theme by exploring the work and role of non governmental agencies that influence both leaders and citizens in the public arena In short at a period that brings to a close a period in which the presidency has become more visible as well as more prominent this collective effort sheds new light on classic themes It will be an invaluable guide as we enter the new century The contributors include an illustrious galaxy of public officials and political scientists including Madeleine K Albright Judith A Best Betty Glad C Lowell Harriss Travis Beal Jacobs Ruth P Morgan Stanley A Renshon Donald L Robinson and William vanden Heuvel

**In It to Win** Lori Cox Han, 2015-05-21 When will the United States elect its first woman president Many political observers believed that Hillary Clinton would win the White House in 2008 and many still believe she is a strong contender for 2016 Yet while many believe that electing the first woman president is not a question of if but who and when media speculation on the topic has yet to move it from an interesting talking point to political reality The question remains Just how close are we to breaking this final political glass ceiling By merging the two literatures of women and politics especially women as candidates and presidential campaigns and elections a winning strategy for women candidates can emerge by analyzing what political science research tells us from past campaigns and what we can expect in the future

**Faith in the Halls of Power** D. Michael Lindsay, 2008-10-29 Evangelicals once at the periphery of American life now wield power in the White House and on Wall Street at Harvard and in Hollywood How have they reached the pinnacles of power in such a short time And what does this mean for evangelicals and for America Drawing on personal interviews with an astonishing array of prominent Americans including two former Presidents dozens of political and government leaders more than 100 top business executives plus Hollywood moguls intellectuals athletes and other powerful figures D Michael Lindsay shows first hand how they are bringing their vision of moral leadership into the public square This riveting volume tells us who the real evangelical power brokers are how they rose to prominence and what they are doing with their clout Lindsay reveals that evangelicals are now at home in the executive suite and on the studio lot and from those lofty perches they have used their influence money and ideas to build up the evangelical movement and introduce it to wider American society They are leaders of powerful institutions and their goals are ambitious to bring Christian principles to bear on virtually every aspect of American life Along the way the book is packed with fascinating stories and striking insights Lindsay shows how evangelicals became a force in American foreign policy how Fortune 500 companies are becoming faith friendly and how the new generation of the faithful

is led by cosmopolitan evangelicals These are well educated men and women who read both The New York Times and Christianity Today and who are wary of the evangelical masses penchant for polarizing rhetoric apocalyptic pot boilers and bad Christian rock Perhaps most startling is the importance of personal relationships between leaders a quiet conversation after Bible study can have more impact than thousands of people marching in the streets Faith in the Halls of Power takes us inside the rarified world of the evangelical elite beyond the hysterical panic and chest thumping pride to give us the real story behind the evangelical ascendancy in America This important work should be required reading for anyone who wants to opine publicly on what American evangelicals are really up to Publishers Weekly Starred Review For people wanting an understanding of how evangelicals have acquired so much power money and influence in the past 30 years this is the ultimate insider s book Sojourners Magazine Anybody who wants to understand the nexus between God and power in modern America should start here The Economist Fascinating John Schmalzbauer Wall Street Journal

*Women Presidents and Prime Ministers in Post-Transition Democracies* Verónica Montecinos, 2017-03-15 This book contributes to our understanding of the trajectories and prerogatives of female political leaders in the varying context of democratization political institutions and cultural norms No woman had been elected leader of a country before 1960 but with democratic transitions on the rise since the 1970s the number of women in executive office gradually became a trend of global scope In 2015 nineteen countries had an elected female Head of State and or Government a proportionally small number that is expected to climb as more women compete for high office sometimes against other female candidates This volume compares how women executives differ in promoting gender equality and advocating for women s rights and interests as well as in their ability to negotiate gender policy agendas Comparative and theoretical chapters on post transition women leaders are complemented by case studies in eight countries in Africa Asia Latin America and Eastern and Central Europe This book will be of use to students and scholars interested in gender studies comparative politics and political leadership

*Cracking the Highest Glass Ceiling* Rainbow Murray, 2010-07-01 This examination of the role of gender stereotyping in media coverage of executive elections uses nine case studies from around the world to provide a unique comparative perspective In recent years more and more high profile women candidates have been running for executive office in democracies all around the world *Cracking the Highest Glass Ceiling A Global Comparison of Women s Campaigns for Executive Office* is the first study to undertake an international comparison of women s campaigns for highest office and to identify the commonalities among them For example women candidates often begin as front runners as the idea of a woman president captures the public imagination followed by a decline in popularity as stereotypes and gendered media coverage kick in to erode the woman s perceived credibility as a national leader On the basis of nine international case studies of recent campaigns written by thirteen country specialists the volume develops an overarching framework which explores how gender stereotypes shape the course and outcome of women s campaigns in the male dominated worlds of executive elections in North America South America Europe

Africa and Australasia This comparative approach allows the authors to discriminate between the contingent effects of a particular candidate or national culture and the universal operation of gender stereotyping Case studies include the campaigns for executive office of Hillary Rodham Clinton United States 2008 Sarah Palin United States 2008 Angela Merkel Germany 2005 and 2009 S gol ne Royal France 2007 Helen Clark New Zealand 1996 2008 Cristina Fernandez de Kirchner Argentina 2007 Michelle Bachelet Chile 2006 Ellen Johnson Sirleaf Liberia 2005 and Irene S ez Venezuela 1998 Reader's Guide to Women's Studies Eleanor Amico, 1998-03-20 The Reader's Guide to Women's Studies is a searching and analytical description of the most prominent and influential works written in the now universal field of women's studies Some 200 scholars have contributed to the project which adopts a multi layered approach allowing for comprehensive treatment of its subject matter Entries range from very broad themes such as Health General Works to entries on specific individuals or more focused topics such as Doctors

**Women's Access, Representation and Leadership in the United Nations** Kirsten Haack, 2021-11-27 The face of international politics has changed significantly in the 21st century it has become increasingly female Whether that includes women in multilateral meetings global conferences and embassies or women at the UN and one of its many agencies in the field it is apparent that women are accessing leadership positions in a variety of areas This book investigates the development of gender equality at the United Nations by analyzing women in leadership roles This introduction of empirical feminism to the study of international organizations applies what is known about women's participation and representation in comparative politics and gender studies to the United Nations System It traces women's access to leadership roles and explains where and why a range of hurdles prevent women from participating in the work of the UN In doing so it offers insights into recruitment and human resources practices and their politics and into leadership by bureaucratic actors

**Women Transforming Congress** Cindy Simon Rosenthal, 2002 From the first to one of the most recent Jeannette Rankin Montana 1916 to Hillary Rodham Clinton New York 2001 only two hundred women have ever served in the U S Congress Have these relatively few women changed the predominantly masculine institution in which they serve Have women as voters activists staff and members made a difference Edited by Cindy Simon Rosenthal Women Transforming Congress examines the increasing influence of women on Congress and the ways in which gender defines and shapes Congress as a political institution Written by women in politics and leading scholars on Congress the essays in this volume go beyond the limitations of prior research through their diverse analytical approaches and singular historical breadth The volume follows women on the campaign trail in committee rooms in floor debate and in policy deliberations where previously the focus was on men's interests and activities A gallery of photographs showing notable women from their earliest years of involvement with Congress to the present complements the essays

*The President's Cabinet* MaryAnne Borrelli, 2002 Borrelli government Connecticut College examines women's selection for and exclusion from U S cabinet positions from the 1930s through the first year of George W Bush's administration She considers the ways in which the rhetoric used in the

selection and confirmation of secretaries designate has set gendered expectations for the performance of the nominees once in office Coverage includes the presidential politics of cabinet nominations profiles of the secretaries designate by demographic educational professional and political characteristics media coverage of cabinet nominations the confirmation process the ways in which women secretaries designate have been perceived as representatives and possible implications for the near future Annotation copyrighted by Book News Inc Portland OR     *Navigating Gendered Terrain* Kelly Dittmar,2015-01-02 From the presidential level down men and women who run for political office confront different electoral realities In her probing study *Navigating Gendered Terrain* Kelly Dittmar investigates how gender influences the campaign strategy and behavior of candidates today Concurrently she shows how candidates strategic and tactical decisions can influence the gendered nature of campaign institutions *Navigating Gendered Terrain* addresses how gender is used to shape how campaigns are waged by influencing insider perceptions of and decisions about effective campaign messages images and tactics within party and political contexts Dittmar uses survey information and interviews with candidates political consultants and other campaign professionals to reveal how gender informed advertising websites and overall presentation to voters respond to stereotypes and perceptions of female and male candidates She closes her book by offering a feminist interpretation of women as candidates and explaining how the unintended outcomes of political campaigns reinforce prevailing ideas about gender and candidacy     **Women and Elective Office** Sue Thomas,Clyde Wilcox,2014-01-02 This edition of *Women and Elective Office* offers the latest research on women as candidates and officeholders It provides a comprehensive look at the history and status of women in elective office their prospects for the future and why women in elected office matter to American democracy It features all new essays and up to the minute research by leading experts in the field including the latest political trends and events such as Hillary Rodham Clinton s run for the presidency women s representation on the state and local level the diversity of women officeholders experiences and circumstances and female judges *Women and Elective Office* is an essential guide to understanding the past present and future of women in all echelons of government     *The Presidency and Women* Janet M. Martin,2009-09-13 By identifying the parallel emergence of the women s movement and the growth in the executive branch Martin skillfully demonstrates how our political system can accommodate the demand for change and also maintain a stable government *Perspectives on Political Science* Martin s analysis provides overdue insight into the relationship between the presidency as an institution and women as a leading interest group *National Journal*     *Woman President* Kristina Horn Sheeler,Karrin Vasby Anderson,2013-08-08 What elements of American political and rhetorical culture block the imagining and thus the electing of a woman as president Examining both major party and third party campaigns by women including the 2008 campaigns of Hillary Clinton and Sarah Palin the authors of *Woman President* *Confronting Postfeminist Political Culture* identify the factors that limit electoral possibilities for women Pundits have been predicting women s political ascendancy for years And yet although the 2008

presidential campaign featured Hillary Clinton as an early frontrunner for the Democratic presidential nomination and Sarah Palin as the first female Republican vice presidential nominee no woman has yet held either of the top two offices The reasons for this are complex and varied but the authors assert that the question certainly encompasses more than the shortcomings of women candidates or the demands of the particular political moment Instead the authors identify a pernicious backlash against women presidential candidates one that is expressed in both political and popular culture In *Woman President Confronting Postfeminist Political Culture* Kristina Horn Sheeler and Karrin Vasby Anderson provide a discussion of US presidentiality as a unique rhetorical role Within that framework they review women s historical and contemporary presidential bids placing special emphasis on the 2008 campaign They also consider how presidentiality is framed in candidate oratory campaign journalism film and television digital media and political parody

**Sex and Gender in the 2016 Presidential Election** Caroline Heldman, Meredith Conroy, Alissa R. Ackerman, 2018-09-07 In order to understand the motivations for and implications of Hillary Clinton s historic run for the White House and her subsequent defeat the authors explore sexism and gender bias in U S political and social culture While there is some indication that overt sexism toward women in politics is declining whether this is true for women who run for the highest office in American politics remains relatively unknown Hillary Clinton s historic run as the 2016 Democratic nominee however allows scholars and journalists to contextualize decades of scholarship on sex gender and the American presidency In *Sex and Gender in the 2016 Presidential Election* the authors all experts on gender in politics analyze the nature of gender in public opinion media coverage social media and culture during the 2016 presidential election They assess whether conventional expectations and theories hold up in today s sociopolitical climate Moreover they consider how Clinton s foray into relatively uncharted territory might redirect the political field and its implications for women with political ambitions going forward

**Women and the White House** Justin S. Vaughn, Lilly J. Goren, 2012-11-30 As the first female vice president takes office this volume explores gender perceptions and the executive role An important impressive book Lane Crothers author of *Globalization and American Popular Culture* The president of the United States has traditionally served as a symbol of power virtue ability dominance popularity and patriarchy In recent years however a number of high profile female candidacies have provoked new interest in gendered popular culture and how it influences Americans perceptions of the country s highest political office In this timely volume editors Justin S Vaughn and Lilly J Goren lead a team of scholars in examining how the president and the first lady exist as a function of public expectations and cultural gender roles The authors investigate how the candidates messages are conveyed altered and interpreted in hard and soft media forums from the nightly news to daytime talk shows and from tabloids to the blogosphere They also address the portrayal of the presidency in film and television productions such as 1964 s *Kisses for My President* and 2005 s *Commander in Chief* With its strong multidisciplinary approach *Women and the White House* commences a wider discussion about the growing possibility of a female president in the United States

the ways in which popular perceptions of gender will impact her leadership and the cultural challenges she will face

**Cabinets, Ministers, and Gender** Claire Annesley, Karen Beckwith, Susan Franceschet, 2019 Historically men have been more likely to be appointed to governing cabinets but gendered patterns of appointment vary cross nationally and women's inclusion in cabinets has grown significantly over time This book breaks new theoretical ground by conceiving of cabinet formation as a gendered iterative process governed by rules that empower and constrain presidents and prime ministers in the criteria they use to make appointments Political actors use their agency to interpret and exploit ambiguity in rules to deviate from past practices of appointing mostly men When they do so they create different opportunities for men and women to be selected explaining why some democracies have appointed more women to cabinet than others Importantly this dynamic produces new rules about women's inclusion and as this book explains the emergence of a concrete floor defined as a minimum number of women who must be appointed to a cabinet to ensure its legitimacy Drawing on in depth analyses of seven countries Australia Canada Chile Germany Spain the United Kingdom and the United States and elite interviews media data and autobiographies of cabinet members *Cabinets Ministers and Gender* offers a cross time cross national study of the gendered process of cabinet formation

This Captivating Realm of E-book Books: A Detailed Guide Revealing the Pros of Kindle Books: A Realm of Ease and Flexibility E-book books, with their inherent portability and ease of access, have liberated readers from the limitations of physical books. Gone are the days of lugging cumbersome novels or meticulously searching for specific titles in bookstores. Kindle devices, sleek and portable, seamlessly store an extensive library of books, allowing readers to immerse in their favorite reads whenever, anywhere. Whether commuting on a bustling train, lounging on a sun-kissed beach, or simply cozying up in bed, E-book books provide an exceptional level of ease. A Literary World Unfolded: Exploring the Wide Array of Kindle Other Elites Women Politics And Power In The Executive Branch Other Elites Women Politics And Power In The Executive Branch The E-book Store, a virtual treasure trove of bookish gems, boasts an wide collection of books spanning varied genres, catering to every readers preference and preference. From gripping fiction and thought-provoking non-fiction to classic classics and contemporary bestsellers, the E-book Store offers an exceptional abundance of titles to discover. Whether seeking escape through engrossing tales of fantasy and adventure, delving into the depths of past narratives, or expanding ones knowledge with insightful works of science and philosophy, the E-book Shop provides a doorway to a literary world brimming with endless possibilities. A Revolutionary Factor in the Literary Landscape: The Lasting Impact of E-book Books Other Elites Women Politics And Power In The Executive Branch The advent of E-book books has undoubtedly reshaped the bookish scene, introducing a model shift in the way books are released, disseminated, and read. Traditional publishing houses have embraced the digital revolution, adapting their approaches to accommodate the growing demand for e-books. This has led to a rise in the accessibility of E-book titles, ensuring that readers have access to a wide array of literary works at their fingers.
