Other Europeans:

European Others Fatima El-Tayeb, 2011 Considers the complications of race religion sexuality and gender in Europeanizing from below **Explaining European Identity Formation** Stephanie Bergbauer, 2017-10-24 What makes people identify with Europe To answer this question this book analyzes the development and determinants of a common European identity among EU citizens from the Maastricht Treaty in 1992 to the recent financial and economic crisis The author examines citizens identification with Europe for all EU member states and systematically explores the theoretical and empirical implications of two turning points in the recent history of EU integration namely the EU's enlargement to Central and Eastern Europe in 2004 2007 and the financial and economic crisis that started in 2008 The book integrates theoretical approaches to European identity in sociology social psychology and EU public opinion research in a comprehensive model for explaining individual identification with Europe The empirical analysis employs a multilevel framework to systematically assess the influence of individual characteristics and the political economic and social context on citizens feelings of identity The long analysis period spanning from 1992 to the present allows inferences to be drawn about the long term developments in the sources of European identification as well as the immediate impact of EU enlargement and the crisis on the determinants of European identification **Foreign Relations of the United States, 1951: European security and the German question**, 1977 **Money and Its Use in Medieval Europe** Peter Spufford, 1988 This is a full scale study that explores every aspect of money in Europe and the Middle Ages *Tribal Innovators* Isaac Schapera, 2021-01-07 This book is a completely revised version of a study published in 1943 That study entitled Tribal Legislation among the Tswana of the Bechuanaland Protectorate dealt with the role of chiefs as agents of social change and in particular with the changes they brought about by making new laws It described the various kinds of legislative process current among the Tswana and reviewed systematically the content and scope of the many laws made from the earliest known instances up to the time of writing 1942 in eight different chiefdoms or tribes it also stated where possible why those laws were enacted and discussed how far they really succeeded in establishing new ways of life **Being and Becoming European in Poland** Marysia H. Galbraith, 2014-06-01 Overthrowing communism in 1989 and joining the European Union in 2004 the Polish people hold loyalties to region country and now continent even as the definition of what it means to be European remains unclear Paying particular attention to those who came of age in the earliest years of the neoliberal and democratic transformations this book uses the life story narratives of rural and urban southern Poles to reveal how being European is considered a fundamental component of being Polish while participants are simultaneously becoming European Ultimately this study demonstrates how the EU is regarded as both an idea and an instrument and how ordinary citizens make choices that influence the shape of European identity and the legitimacy of its institutions *Attitudes Towards Europe* Colin Good, 2017-09-29 An innovative collaborative research project conducted jointly at Durham University and the Institut für deutsche Sprache in Mannheim
