Feminist Encounters with Legal Philosophy Maria Drakopoulou, 2013-12-17 Presenting feminist readings of texts from the legal philosophical and jurisprudential canon the papers collected here offer an interdisciplinary and critical challenge to established modes of reading law Feminist approaches to law usually take the form of either critical engagements with legal doctrine legal concepts and ideas or critical assessments of the effects that specific areas of law have

upon the lives of women This collection however although rooted in feminist legal scholarship takes the established canon of legal texts as the object of inquiry Taking as their common starting point the fact that legal texts are plural and open to multiple readings all the contributions in this collection offer subversive but supplementary interpretations of the legal canon In this respect however they do not merely sustain an array of feminist styles and theories of reading revealing and re appropriating the plural space of legal interpretation they seek to open a hitherto unexplored arena for a feminist politics of law Feminist Encounters with Legal Philosophy is a thoroughly researched interdisciplinary collection that will interest students and scholars of Law Philosophy and Feminism *The Anthem Companion to Harold Garfinkel* Philippe

Sormani, Dirk vom Lehn, 2023-07-25 The Anthem Companion to Harold Garfinkel brings together leading scholars and upcoming researchers in contemporary ethnomethodology to bring out the experimental character of Garfinkel s legacy in the social sciences and beyond Therefore the Companion takes its cue from Garfinkel s noted breaching experiments enabling the reflexive investigation of trust conditions in situ and asks how this research interest has been productively pursued and distinctively rearticulated both within and beyond Garfinkel s oeuvre Whilst Garfinkel s experimental legacy is often acknowledged no systematic introduction to its distinctive outlook tension riddled diversification and heuristic interest s is available to date The Anthem Companion to Harold Garfinkel both fills and reflects upon that gap in the literature thereby articulating ethnomethodology s experimental outlook if not recasting its current research directions **Air and**

Goodrich, 2014 The emblem book was invented by the humanist lawyer Andrea Alciato in 1531 The preponderance of juridical and normative themes of images of rule and infraction of obedience and error in the emblem books is critical to their purpose and interest This book outlines the history of the emblem tradition as a juridical genre along with the concept of and training in obiter depicta in things seen along the way to judgment It argues that these books depict norms and abuses in classically

derived forms that become the visual standards of governance Despite the plethora of vivid figures and virtual symbols that define and transmit law contemporary lawyers are not trained in the critical apprehension of the visible This book is the first to reconstruct the history of the emblem tradition evidencing the extent to which a gallery of images of law already exists and structuring how the public realm is displayed made present and viewed The Social Legacy of Communism James R.
