**Salt Sugar Fat** Michael Moss, 2013-02-26 From a Pulitzer Prize winning investigative reporter at The New York Times comes the troubling story of the rise of the processed food industry and how it

used salt sugar and fat to addict us Salt Sugar Fat is a journey into the highly secretive world of the processed food giants and the story of how they have deployed these three essential ingredients over the past five decades to dominate the North American diet This is an eye opening book that demonstrates how the makers of these foods have chosen time and again to double down on their efforts to increase consumption and profits gambling that consumers and regulators would never figure them out With meticulous original reporting access to confidential files and memos and numerous sources from deep inside the industry it shows how these companies have pushed ahead despite their own misgivings never aired publicly Salt Sugar Fat is the story of how we got here and it will hold the food giants accountable for the social costs that keep climbing even as some of the industry s own say Enough already Trade Mark Law and Sharing Names Ilanah Simon Fhima,2009-01-01 There are a number of points throughout the trade mark system where multiple undertakings share the same name either unwillingly or by consent In this timely book expert contributors address this controversial issue and identify the various points at which names are shared This unique book uses both historical and interdisciplinary perspectives as well as more traditional legal methodology to examine the practical and theoretical implications of such name sharing for the parties involved It analyses what can be learned from the sharing process about the nature of the trade mark system and the interests which it protects General themes relating to the nature and purpose of trade mark law are also discussed The contributors focus on UK and European law and their detailed treatment of specific trade mark topics will prove invaluable to postgraduate law students and academics specialising in intellectual property Legal practitioners will appreciate the up to date consideration of concepts important in both contentious and non contentious trade mark practice and in house counsel for brand owners will benefit from the expert guidance offered on issues relevant to protecting their trade marks
