The International Military Tribunal for the Far East IMTFE held in Tokyo from May 1946 to November 1948 was a landmark event in the development of modern international criminal law The trial in Tokyo was a complex undertaking and international effort to hold individuals accountable for core international crimes and delivering justice The Tribunal consisted of 11 judges and respective national prosecution teams from 11 countries and a mixed Japanese American team of defence lawyers The IMTFE indicted 28 Japanese defendants amongst them former prime ministers cabinet ministers military leaders and diplomats based on a 55 count indictment pertaining to crimes against peace war crimes and crimes against humanity The judgment was not unanimous with one majority judgment two concurring opinions and three dissenting opinions The trial and the outcome were the subject of significant controversy and the Tribunal's files were subsequently shelved in the archives While its counterpart in Europe the International Military Tribunal IMT at Nuremberg has been at the centre of public and scholarly interest the Tokyo Tribunal has more recently gained international scholarly attention This volume combines perspectives from law history and the social sciences to discuss the legal historical political and cultural significance of the Tokyo Tribunal The collection is based on an international conference marking the 70th anniversary of the judgment of the IMTFE which was held in Nuremberg in 2018 The volume features reflections by eminent scholars and experts on the establishment and functioning of the Tribunal procedural and substantive issues as well as receptions and repercussions of the trial

Imperial Japan's World War Two Werner Gruhl, 2017-07-12 Gruhl's narrative makes clear why Japan's World War II aggression still touches deep emotions with East Asians and Western ex prisoners of war and why there is justifiable sensitivity to the way modern Japan has dealt with this legacy Knowledge of the enormity of Japan's total war is also necessary to assess the United States and her allies policies toward Japan and their reactions to its actions extending from Manchuria in 1931 to Hiroshima in 1945 Gruhl takes the view that World War II started in 1931 when Japan crowded and poor in raw materials but with a sense of military invincibility saw empire as her salvation and invaded China Japan's imperial regime had volatile ambitions but limited resources thus encouraging them to unleash a particularly brutal offensive against the peoples of Asia and surrounding ocean islands Their 1931 to 1945 invasions and policies further added to Asia's pre war woes particularly in China by badly disrupting marginal economies leading to famines and epidemics Altogether the

victims of Japan's World War Two aggression took many forms and were massive in number Gruhl offers a survey and synthesis of the historical literature and documentation statistical data as well as personal interviews and first hand accounts to provide a comprehensive overview analysis The sequence of diplomatic and military events leading to Pearl Harbor as well as those leading to the U S decision to drop the atom bomb are explored here as well as Japan's war crimes and postwar revisionist apologist views regarding them This book will be of intense interest to Asian specialists and those concerned with human rights issues in a historical context

History Textbooks and the Wars in Asia Gi-Wook Shin, Daniel C.

Sneider, 2011-02-08 Over the past fifteen years Northeast Asia has witnessed growing intraregional exchanges and interactions especially in the realms of culture and economy Still the region cannot escape from the burden of history This book examines the formation of historical memory in four Northeast Asian societies China Japan South Korea and Taiwan and the United States focusing on the period from the beginning of the Sino Japanese war in 1931 until the formal conclusion of the Pacific War with the San Francisco Peace Treaty of 1951 The contributors analyse the recent efforts of Korean Japanese and Chinese scholars to write a common history of Northeast Asia and question the underlying motivations for their efforts and subsequent achievements In doing so they contend that the greatest obstacle to reconciliation in Northeast Asia lies in the existence of divided and often conflicting historical memories The book argues that a more fruitful approach lies in understanding how historical memory has evolved in each country and been incorporated into respective master narratives Through uncovering the existence of different master narratives it is hoped citizens will develop a more self critical self reflective approach to their own history and that such an introspective effort has the potential to lay the foundation for greater self and mutual understanding and eventual historical reconciliation in the region This book will be essential reading for students and scholars of Asian history Asian education and international relations in East Asia

International

Prosecutors Luc Reydam, Jan Wouters, Cedric Ryngaert, 2012-05-31 This volume examines the prosecution as an institution and a function in a dozen international and hybrid criminal tribunals from Nuremberg to the International Criminal Court It is the result of a sustained collaborative effort among some twenty scholars and former tribunal staffers The starting point is that the prosecution shapes a tribunal's practice and legacy more than any other organ and that a systematic examination of international prosecutors is therefore warranted The chapters are organized chronologically according to the successive phases of the life of the institution and the various stages of the trials The analysis includes each institution's establishment mandate and jurisdiction as well as the prosecutorial framework and strategy the prosecutor's external relations and the completion of the institution's work The book also considers the prosecutors independence and impartiality and their accountability for their decisions The volume thus provides a comprehensive picture of the mandate organization and operation of the prosecution in international criminal trials As the first comprehensive study of an international legal actor whose decisions have widespread political repercussions this book will be essential reading for all with an interest in

Criminal Responsibility for the Crime of Aggression Patrycja Grzebyk, 2013-10-01 Since the Nuremberg trial the crime of aggression has been considered one of the gravest international crimes However since the 1940s no defendants have been charged with this crime with some states actively opposing the notion of punishing aggression The option of trying an individual for aggression is expressly included in the statute of the International Criminal Court In 2010 the Assembly of States Parties adopted a definition of the crime of aggression and conditions of the exercise of jurisdiction over this crime by the Court The Assembly also agreed that the decision on including the crime of aggression within the Court's jurisdiction would be made in 2017 at the earliest It is still internationally debatable whether the criminalisation of aggression is an outcome to strive for or whether its abandonment is more preferable In *Criminal Responsibility for the Crime of Aggression* Patrycja Grzebyk explores the scope of criminal responsibility of individuals for crimes of aggression and asks why those responsible for aggression are not brought to justice The book first works to identify the legal norms that define and delegitimise aggression before moving to determine the basis and scope for the criminalisation of aggression The book then goes on to identify the key risks and difficulties inherent in trials for aggression Following a string of awards in Poland including the Manfred Lachs Prize for the best first book on public international law this cutting investigation of aggression

is now deservedly made available to the wider world In its extensive analysis of international trials on aggression and its synthesis of legal political and historical rhetoric this book offers broad and striking insight into the criminal responsibility of individuals on a world stage War Crimes, Genocide, and the Law Arnold Krammer,2010-04-09 This timely handbook offers an examination of man s history of war crimes and the parallel development of rules of war to prevent them in the future Kosovo Rwanda Sierra Leone Darfur Auschwitz War crimes have occurred in regions around the world and continue to this day Although atrocities are as old as war itself they did not become punishable crimes until the law evolved to define them as such War Crimes Genocide and the Law A Guide to the Issues examines the types of war crimes and the motivations behind them as well as the laws that seek to control and abolish these heinous acts Within the handbook centuries of war crimes and genocides are analyzed and catalogued At the same time the author offers a history of the development of the rules of war enabling readers to grasp the importance of such precedent setting events as the 1946 Nuremberg Trials and to see the gradual evolution of the laws intended to punish perpetrators and prevent future barbarism *Nanking* Masahiro Yamamoto,2000-08-30 The December 1937 incident that has come to be known as the Rape of Nanking is without doubt a tragedy that will not soon be forgotten While acknowledging that a tremendous loss of life occurred this study challenges the current prevailing notion that the incident was a deliberate planned effort on the part of the Japanese military and analyzes events to produce an accurate estimate of the scale of the atrocities Drawing on Chinese Japanese and English sources Yamamoto determines that what happened at Nanking were unfortunate atrocities of conventional war with precedents in both Eastern and Western military history He concludes that post war events such as the war crimes trials and the impact of the Holocaust in Europe affected public opinion regarding Nanking and led to a dramatic reinterpretation of events The Rape of Nanking consisted of two distinct phases the mass execution of prisoners of war as well as conscription age men who appeared to be combatants and the delinquent acts of individual soldiers The first phase which occurred immediately after Nanking s fall and which claimed most of the atrocity victims was the result of the Japanese military s attempt to clear the city of Chinese soldiers thought to be in plain clothes The second phase which lasted approximately six weeks was horrible but resulted in a much smaller number of fatalities It was characterized by numerous criminal acts ranging from rape and murder to arson and theft committed by unrestrained Japanese soldiers The root cause for both phases was the Japanese military s bureaucratic inefficiency and command irresponsibility While both Chinese and American contemporary sources initially attributed the incident to these causes subsequent Japanese atrocities against both military and civilian Allied personnel during World War II and evidence presented at war crimes trials would come to reshape perceptions of the Nanking events as an Asian counterpart to the Nazi Holocaust "A Problem from Hell" Samantha Power,2013-05-14 From former UN Ambassador and author of the New York Times bestseller *The Education of an Idealist* Samantha Power the Pulitzer Prize winning book on America s repeated failure to stop genocides around the world In her prizewinning

Neff,2014-02-18 Justice among Nations tells the story of the rise of international law and how it has been formulated debated contested and put into practice from ancient times to the present Stephen Neff avoids technical jargon as he surveys doctrines from natural law to feminism and practice from the Warring States of China to the international criminal courts of today Ancient China produced the first rudimentary set of doctrines But the cornerstone of

international law was laid by the Romans in the form of universal natural law However as medieval European states encountered non Christian peoples from East Asia to the New World new legal quandaries arose and by the seventeenth century the first modern theories of international law were devised New challenges in the nineteenth century encompassed nationalism free trade imperialism international organizations and arbitration Innovative doctrines included liberalism the nationality school and solidarism The twentieth century witnessed the League of Nations and a World Court but also the rise of socialist and fascist states and the advent of the Cold War Yet the collapse of the Soviet Union brought little respite As Neff makes clear further threats to the rule of law today come from environmental pressures genocide and terrorism

Law, Politics and the Limits of Prosecuting Mass Atrocity Damien Rogers,2017-08-30 This book offers a unique and powerful critique of the quest for international criminal justice It explores the efforts of three successive generations of international prosecutors recognising the vital roles they play in the enforcement of international criminal law By critically examining prosecutorial performance during the pre trial and trial phases the volume argues that these prosecutors are simultaneously political actors serving in the interests of economic liberalisation It also posits that international prosecutors help wage a mostly silent and largely unacknowledged politico cultural war fought for control over the institutions governing modernist international affairs As the author contends international prosecutors are thus best understood as agents not only of the law and politics but also of a war fought by proponents of various utopian projects
