Book Prices Edward N. Zempel, Linda A. Verkler, 1993 **Multimodal Stylistics of the Novel** Nina Nørgaard, 2018-10-08 This book advocates for a new analytical framework that extends our understanding of multimodal meaning making in the novel Integrating theoretical traditions from stylistics and the influential social semiotic approach to multimodal communication developed by Kress and van Leeuwen Nørgaard applies this method of analysis in order to build on existing stylistic practices that look at linguistic features in the novel to encompass other semiotic resources found in the form such as typography layout images paper and book cover design The volume grounds the discussion with supporting examples from novels that feature experimentation with multiple semiotic resources as well as more traditional novels furthering the argument that all novels are inherently multimodal Offering new insights and tools for unpacking multimodal meaning making in this critical literary genre this volume is an indispensable resource for graduate students and researchers in multimodality stylistics and literary studies *The Secret Doctrine: Occultism (1st ed. 1897)* Helena Petrovna Blavatsky, 1897 **Monthly Bulletin. on all searches for meaning This book attempts to show that myth criticism and critical theories of more recent provenance are not irreconcilable While taking into consideration some of the more influential tenets of structuralist post structuralist Marxist and feminist theory it applies a post Jungian archetypal approach to illustrating the perennial nature of a particular myth the Fall of Man in two main traditions Mesopotamian and Christian and in the contemporary novel in English The discussions of five major novels by William Golding Patrick White Martin Amis Salman Rushdie and Wilson Harris not only serve to expand the mythological insights achieved in the first part of the book they also suggest the incommensurability of imaginal novelistic life with mythology s age old intuitions about the human condition Myth criticism emerges from this book as an irreplaceable vantage point from which man s lapsarian predicament can be scrutinized synchronically as archaic wisdom contemporary anxiety and post colonial commitment to the building of a new human city
