Other Father:

Joseph: The Other Father Katheryn Maddox Haddad, Imagine being told by God to guard His Son in a violent world until he is grown How does Joseph choose a city in strange Egypt to hide 2 year old Jesus from Herod s spies Does he dare take 4 year old Jesus to the temple where Herod the Great s son slaughters thousands How can Joseph protect Jesus with all the skirmishes and killing on roads everywhere with dozens vying to take over as king How does Joseph handle the persecution in Nazareth by people who could count and knew Mary was pregnant before marrying Joseph What does Joseph do with Jesus in Nazareth just three miles from Sepphoris hotbed of zealot protesters when a Roman legate burns the city and crucifies 2000 more zealots in Jerusalem In what ways does Joseph teach Jesus how to be a skilled carpenter in sometimes dangerous situations and avoid being mauled in the mountains when they cut trees for lumber How many times when Jesus was in danger did Joseph cry out God help me protect our Son NOTE A year before Jesus death he was rejected in Nazareth where they said Isn t this the son of the carpenter In present tense Discussion questions for all chapters are located in the back of the book for book clubs and Bible classes

Goethe's Families of the Heart Susan E. Gustafson, 2016-06-30

Throughout his literary work Goethe portrays characters who defy and reject 18th and 19th century ideals of aristocratic and civil families notions of heritage assumptions about biological connections expectations about heterosexuality and legal mandates concerning marriage The questions Goethe's plays and novels pose are often modern and challenging Do social conventions family expectations and legal mandates matter Can two men or two women pair together and be parents How many partners or parents should there be Two One A group Can parents love children not biologically related to them Do biological parents always love their children What is the nature of adoptive parents children and families Ultimately what is the fundamental essence of love and family Gustafson demonstrates that Goethe's conception of the elective affinities is certainly not limited to heterosexual spouses or occasionally to men desiring men A close analysis of Goethe's explication of affinities throughout his literary production reveals his rejection of loveless relationships for example arranged marriages and his acceptance and promotion of all relationships formed through spontaneous affinities and love including heterosexual same sex nonexclusive group parental and adoptive

Stepparenting Stanley H. Cath, Moisy Shopper, 2013-04-15

In an era when teachers commonly report that up to half of the children in their classes come from multiple homes and have multiple caretakers the special psychological challenges of stepparenting have never been in greater need of examination As thoughtful clinicians have long known stepparenting is among the most complicated of psychological projects it may simultaneously be a multifaceted burden and a spur to personal autonomy deepened sensitivity to others and newfound competence as a nurturer Among the thousands of divorced people who remarry each year most despite their best resolve to live in the present persist in reassessing the price of separation especially as they come to appreciate the fact that divorce is seldom a total break for their children

Stepparenting is a comprehensive exploration of the process of reconstructing families More specifically it is a book about the perils and promise of stepparenting a caretaking role that may be more challenging than biologically given child rearing Contributors follow people as they try to reevaluate past misunderstandings and acclimate to new parenting contexts and obligations Editors Cath and Shopper have taken pains to offer a balanced purview that includes both successful and maladaptive instances of stepparenting Of special note are the clinical examples throughout the book that chart the extended
