

A person wearing a white long-sleeved shirt and an orange safety vest is leading a horse. The person is holding a lead rope, and the horse is walking towards the right. The background is a bright, hazy outdoor setting, possibly a field or a beach, with a warm, golden light. The overall tone is peaceful and focused on the interaction between the person and the horse.

Other People's Horses Reinert Natalie Keller (author), 1901 **Other People's Money** John Kay, 2015-09-22 The finance sector of Western economies is too large and attracts too many of the smartest college graduates Financialization over the past three decades has created a structure that lacks resilience and supports absurd volumes of trading The finance sector devotes too little attention to the search for new investment opportunities and the stewardship of existing ones and far too much to secondary market dealing in existing assets Regulation has contributed more to the problems than the solutions Why What is finance for John Kay with wide practical and academic experience in the world of finance understands the operation of the financial sector better than most He believes in good banks and effective asset managers but good banks and effective asset managers are not what he sees In a dazzling and revelatory tour of the financial world as it has emerged from the wreckage of the 2008 crisis Kay does not flinch in his criticism we do need some of the things that Citigroup and Goldman Sachs do but we do not need Citigroup and Goldman to do them And many of the things done by Citigroup and Goldman do not need to be done at all The finance sector needs to be reminded of its primary purpose to manage other people s money for the benefit of businesses and households It is an aberration when the some of the finest mathematical and
