Otherness Within:

Otherness and Identity in the Gospel of John Sung Uk Lim, 2020-12-23 In this book Sung Uk Lim examines the narrative construction of identity and otherness through ongoing interactions between Jesus and the so called others as represented by the minor characters in the Gospel of John This study reconfigures the otherness of the minor characters in order to reconstruct the identity of Jesus beyond the exclusive binary of identity and otherness The recent trends in Johannine scholarship are deeply entrenched in a dialectical framework of inclusion and exclusion perpetuating positive portrayals of Jesus and negative portrayals of the minor characters Read in this light Jesus is portrayed as a superior omniscient and omnipotent character whereas minor characters are depicted as inferior uncomprehending and powerless At the root of such portrayals lies the belief that the Johannine dualistic Weltanschauung warrants such a sharp differentiation between Jesus and the minor characters Lim argues to the contrary that the multiple constructions of otherness deriving from the minor characters make Jesus identity vulnerable to a constant process of transformation Consequently John's minor characters actually challenge and destabilize Johannine hierarchical dualism within a both and framework

Richardson,2010-06-17 In Otherness in Hollywood Cinema Michael Richardson argues that the Hollywood system has been the only national cinema with the resources and inclination to explore images of others through stories set in exotic and faraway places He traces many of the ways in which Hollywood has constructed otherness and discusses the extent to which those images have persisted and conditioned today's understanding Hollywood was from the beginning teeming with people who had experienced cultural displacement Coaxing the finest talents from around the world and needing to produce films with an almost universal appeal Hollywood confounded American insularity while simultaneously presenting a vision of America to the world The book examines a range of genres from the perspective of otherness including the Western film noir and zombie movies Films discussed include Birth of a Nation The New World The Searchers King Kong Apocalypse Now Blade Runner Jaws and Dead Man Erudite and highly informed this is a sweeping survey of how the American film industry has portrayed the foreign and the exotic **The Poetics of Otherness in Antonio Machado's 'proverbios Y Cantares'**

Nicolás Fernández-Medina,2011-01-15 Antonio Machado 1875 1939 is one of Spain's most original and renowned twentieth century poets and thinkers From his early poems in Soledades Galerías Otros poemas of 1907 to the writings of his alter ego Juan de Mairena of the 1930s Machado endeavoured to explain how the Other became a concern for the self In The Poetics of Otherness in Antonio Machado's Proverbios y cantares Nicolás Fernández Medina examines how Machado's Proverbios y cantares a collection of short proverbial poems spanning from 1909 to 1937 reveal some of the poet's deepest concerns regarding the self-Other relationship To appreciate Machado's organizing concept of otherness in the Proverbios y cantares Fernández Medina argues how it must be contextualized in relation to the underlying Romantic concerns that Machado struggled with throughout most of his oeuvre such as autonomy solipsism and skepticism of absolutes In The Poetics of Otherness in Antonio Machado's Proverbios y cantares Fernández Medina demonstrates how Machado continues a practice of fragment thinking to meld the poetic and the philosophical the part and whole and the finite and infinite to bring light to the complexities of the self-Other relationship and its relevance in discussions of social and ethical improvement in early twentieth century Spain Desire, Dialectic, and Otherness William Desmond,2013-11-08 Many philosophers since Hegel

have been disturbed by the thought that philosophy inevitably favors sameness over otherness or identity over difference Originally published at a time when the issue was not so widely discussed in the English speaking world William Desmond here offers a constructive and positive approach to the problem of difference and otherness He systematically explores the question of dialectic and otherness by analyzing how human desire inevitably seeks immanent wholeness in a manner that opens it to irreducible otherness He faces the difficulties bequeathed to Continental thought by Hegelian dialectic and its tendency to subordinate difference to identity whether appropriately or not Unlike many recent critics of Hegel he argues that we must preserve what is genuine in dialectic Granting the positive power of dialectic Desmond offers his first articulation of a further philosophical possibility what he terms the Metaxological a discourse of the between a discourse doing justice to desire's search for wholeness without any truncating of its radical openness to otherness In a wide ranging yet unified discussion Desmond tackles such issues as the nature of the self the ambiguous restlessness and inherent power of being revealed by human desire desire's relation to transcendence its openness to otherness in agapeic good will and in relation to the sublime as an aesthetic infinitude Finally Desmond brings this metaxological understanding to bear on the metaphysical question of the ultimate origin This book is a remarkable introduction to Desmond's metaxological philosophy prefiguring many of the ideas with which his later thought is associated This second edition contains a substantial new preface and an afterword to each chapter in which Desmond reflects on the material from the standpoint of his current thinking

The Other Within Fredrika Scarth, 2004-11-22 In *The Other Within* Fredrika Scarth builds upon the recent studies that have surfaced as part of the Simone de Beauvoir renaissance to offer a reading of *The Second Sex* as an ethical text Scarth provides us with a unique and enlightening study of Beauvoir's writing on the female body and in particular on maternity as an important piece of Beauvoir's writing Unlike other feminist scholars who find in Beauvoir's writing a horror and repudiation of motherhood Scarth argues that Beauvoir's writing on maternity can open up new possibilities of embodied subjectivity and agency and can found a truly ethical relationship with the other

BOOK JACKET
Sounding Otherness in Early Modern Drama and Travel Jennifer Linhart Wood, 2019-04-23 Winner of the Medieval and Renaissance Drama Society's 2021 Bevington Award for Best New Book Sounds are a vital dimension of transcultural encounters in the early modern period Using the concept of the soundwave as a vibratory uncanny and transformative force Jennifer Linhart Wood examines how sounds of foreign otherness are experienced and interpreted in cross cultural interactions around the globe Many of these same sounds are staged in the sonic laboratory of the English theater rattles were shaken at Whitehall Palace and in Brazil bells jingled in an English masque and in the New World the Dallam organ resounded at Topkap Palace in Istanbul and at King's College Cambridge and the drum thundered across India and

throughout London theaters This book offers a new way to conceptualize intercultural contact by arguing that sounds of otherness enmesh bodies and objects in assemblages formed by sonic events calibrating foreign otherness with the familiar self on the same frequency of vibration

Traces of the Trinity Andrew Robinson, 2014-08-28 The essential argument of this new work by Andrew Robinson is that we live move and have our being within a sea of signs but that we are largely unaware of this for most of the time When the structure of these signs is analysed it turns out to rest on three recurring elemental grounds which the author calls Quality Otherness and Mediation The kaleidoscopic ramifying patterns of Quality Otherness and Meditation which underpin representations and interpretations at every level and dimension of the processes of signification offer a model of the dynamic mutual indwelling of the Father Son and Spirit within the eternal life of the Trinity This semiotic model of the Trinity would be of rather limited interest in itself unless it can also illuminate other areas of Christian theology Robinson suggests that the model leads to a helpful way of understanding how the entirely human person Jesus of Nazareth may be understood to have been the full and perfect embodiment representation of the quality of God's being This in turn helps us to understand how the processes of representation and interpretation enable us to be drawn into the very life of God This has practical implications for the church and for the individual lives of Christian believers It also offers via a re-articulation of the neglected concept of vestiges of the Trinity in creation a form of spirituality of the everyday

Challenging Contextuality, 2024-07-31 Challenging Contextuality Bibles and Biblical Scholarship in Context provides a new and innovative contribution to the study of biblical texts by bringing together current approaches to biblical interpretation The volume sets the agenda for the future of the field and provides a synthesis of approaches to date In doing so it aligns itself with the broadly shared hermeneutical conviction that contextuality is a catalyst for interpretation This applies in equal measure to approaches and methods that are often framed as traditional or mainstream e g the methodological canon of the historical critical approach as the offspring of the European Enlightenment and those that are often dubbed contextual e g forms of feminist or indigenous interpretation The volume grounds contextual biblical interpretation within the broader landscape of biblical studies and the

chapters are all interested in the contexts in which bibles are read Rather than a series of examples of contextual biblical interpretation this book is concerned with what it means to do contextual biblical interpretation how contextual biblical interpretation challenges biblical scholarship and what chances there are for this mode of inquiry What contexts are engaged and elucidated when it comes to bible use What contexts are made visible and invisible How can different contexts be theorized and understood The volume argues that it is not context that matters rather contemporary contexts should be a challenge and a chance for biblical scholarship its present and its future Michel Foucault Barry Smart,1994
