

## Инвестиции в инновационные проекты

Несмотря на многочисленные исследования в области инноваций, остаются недостаточно разработанными методические подходы к оценке эффективности инновационной деятельности предприятий при том, что существующие подходы представляют собой рекомендации по решению отдельных аспектов данной проблематики и нуждаются в дальнейшем развитии, углублении и систематизации. Авторами разработаны новые научно-методические подходы к оценке эффективности и риска инновационной деятельности, реализация которых обеспечивает, в отличие от имеющихся работ по этой тематике, адекватное современным условиям обоснование принятия инвестиционных решений. Практическая значимость работы состоит в том, что полученные результаты могут быть использованы в процессе организации инновационной деятельности, обеспечивая создание высокоэффективного инновационного механизма через систему выбора вариантов реализации инвестиционного проекта с удовлетворяющим требованиям инвестора показателем риска и доходности.
