*Ottawa Senators* Chris Robinson, 2013-09-15 The Ottawa Senators have had a long and storied history as one of the original and dominant Canadian hockey franchises Stocked with skilled and adventurous players the early Senators were known for their aggressive play and never say die attitude The fascinating story of the team continues into the present with the thrilling account of how a new franchise was secured complete with hopes for Stanley Cups in the future **Creating Kashubia** Joshua C. Blank, 2016-04-04 In recent years over one million Canadians have claimed Polish heritage a significant population increase since the first group of Poles came from Prussian occupied Poland and settled in Wilno Ontario west of Ottawa in 1858 For over a century descendants from this community thought of themselves as Polish but this began to change in the 1980s due to the work of a descendant priest who emphasized the community's origins in Poland's Kashubia region What resulted was the reinvention of ethnicity concurrent with a similar movement in northern Poland Creating Kashubia chronicles more than one hundred and fifty years of history identity and memory and challenges the historiography of migration and settlement in the region For decades authors from outside Wilno as well as community insiders have written histories without using the other's stores of knowledge Joshua Blank combines primary archival material and oral history with national narratives and a rich secondary literature to reimagine the period He examines the socio political and religious forces in Prussia delves into the world of emigrant recruitment and analyzes the trans Atlantic voyage In doing so Blank challenges old narratives and traces the refashioning of the community's ethnic identity from Polish to Kashubian An illuminating study Creating Kashubia shows how changing identities and the politics of ethnic memory are locally situated yet transnationally influenced *Great Right Wingers* Monte Stewart, 2006 Recounts the stories of the best right wingers of the golden age who skated with speed scored with style and delivered the goals with prowess and power **Great Goaltenders** Jim Barber, 2005-10 In the golden age of hockey the net was a place of grace agility and innovation Goaltenders deflected and blocked with creativity stickhandled with bold strokes and fearlessly faced a puck travelling at speeds of 100 miles an hour And they took a beating Some of these stars made their saves before the mask others got their shut outs without padded blockers or trappers This is an exhilarating chronicle of the quiet guardians of the crease *High Peaks Engineering* L.D. Cross, 2014 Building transportation routes through the Rockies is dangerous It always has been It is also expensive labour intensive and highly political But railway and highway construction through the western cordillera succeeded thanks to scientific innovation and sheer human grit In the nineteenth century steam locomotives railways tunnels trestles and telegraphy represented the hi tech advances of the day A vast country with a small population raised money and more and more money and overcame mountain summits foul weather and scandal to build the longest railway of its time that would unify the young nation of Canada from east to west To offset operating costs and increase passenger traffic the three architectural wonders of the Banff Jasper and Lake Louise Resorts were created amid snowy heights glaciers and the

headwaters of four river systems Athabasca Columbia Fraser and the North Saskatchewan Natural marvels like Cave and Basin Radium Miette and other mineral hot springs were also developed In the twentieth century the construction of the Trans Canada Highway accelerated the appeal of the peaks Today oil and gas pipelines are pushing new routes through the Rocky Mountains The physical challenges are similar to earlier eras but high peaks engineering must also address the ecological impacts of pipeline corridors moving oil and gas through Rocky Mountain passages It will be another test of Canadian resourcefulness
