Our Common Dwelling:

Our Common Dwelling Lance Newman, 2005-05-12 OurCommonDwelling explores why America's first literary circle turned to nature in the 1830s and 40s. When the New England Transcendentalists spiritualized nature, they were reacting to intense class conflict in the region's industrializing cities. Their goal was to find a secular foundation for their social authority as an intellectual elite. New England Transcendentalism engages with works by William Wordsworth, Henry David Thoreau, Ralph Waldo Emerson, Margaret Fuller, Nathaniel Hawthorne, and others. The works of these great authors, interpreted in historical context, show that both environmental exploitation and conscious love of nature co-evolved as part of the historical development of American capitalism. [American Houses: Literary Spaces of Resistance and Desire](#), 2022-08-15. Already in 1854, Henry David Thoreau had declared in *Walden* that most men appear never to have considered what a house is. Like Thoreau, many other renowned American writers have considered what houses are and particularly what houses do, and they have created fictional dwellings that function not only as settings but as actual central characters in their works. The volume is specifically concerned with the structure, the organization, and the objects inside houses and argues that the space defined by rooms and their contents influences the consciousness, the imaginations, and the experiences of the humans who inhabit them. Winner of the Spanish Association for American Studies Javier Coy Award 2022 for best edited volume. Contributors are Cristina Alsina, R. Squez, Rodrigo Andr s, Vicent Cucarella, Ramon Arturo Corujo, Mar Gallego, Ian Green, Michael Jonik, Wyn Kelley, Cynthia Lytle, Carme Manuel, Paula Mart n, Salv n Elena, Ortells, Eva Puyuelo, Ure, a Dolores Resano, and Cynthia Stretch.

Thoreauvian Modernities Fran ois Specq, Laura Dassow Walls, Michel Granger, 2013-02-01. Does Thoreau belong to the past or to the future? Instead of canonizing him as a celebrant of pure nature apart from the corruption of civilization, the essays in *Thoreauvian Modernities* reveal edgier facets of his work: how Thoreau is able to unsettle as well as inspire, and how he is able to focus on both the timeless and the timely. Contributors from the United States and Europe explore Thoreau's modernity and give a much-needed reassessment of his work in a global context. The first of three sections, *Thoreau and Non-Modernity*, views Thoreau as a social thinker who set himself against the modern currents of his day, even while contributing to the emergence of a new era. By questioning the place of humans in the social, economic, natural, and metaphysical order, he ushered in a rethinking of humanity's role in the natural world that nurtured the environmental movement. The second section, *Thoreau and Philosophy*, examines Thoreau's writings in light of the philosophy of his time as well as current philosophical debates. Section three, *Thoreau, Language, and the Wild*, centers on his relationship to wild nature in its philosophical, scientific, linguistic, and literary dimensions. Together, these sixteen essays reveal Thoreau's relevance to a number of fields, including science, philosophy, aesthetics, environmental ethics, political science, and animal studies. *Thoreauvian Modernities* posits that it is the germinating power of Thoreau's thought, the challenge it poses to our own thinking, and its capacity to address pressing issues in a new way that defines his enduring relevance and his modernity.

Roger Scruton: The Philosopher on Dover Beach Mark Dooley, 2009-05-21 An intriguing portrait of Roger Scruton and his philosophy Roger Scruton was one of the outstanding British philosophers of the post war years Why then was he at best ignored and at worst reviled Part of the reason was that he was an unapologetic conservative in the tradition of Edmund Burke That conservative instinct was sharpened during the Paris riots of 1968 From that point on Scruton set himself the task of stridently opposing what he termed the culture of repudiation In so doing he targeted liberals in the tradition of Russell and Mill existentialists like Sartre and post modernists in the fashion of Foucault Here is a brilliant description of Scruton's life and work and a careful analysis of his central ideas Scruton defended an Hegelian and Burkean view of human nature one founded on allegiance to the State as the guarantor of tangible freedom He thus opposed any and all variations of the social contract theory liberal or existential individualism or philosophical theories of the authentic self in isolation from its kind His conservative notion of the nation state was used to reflect upon and criticise the European Union the United Nations and the idea that the Middle East can be reformed along Western democratic lines Scruton argues Mark Dooley was the one British intellectual who courageously rowed against the tide of liberal conviction and arrived at political conclusions the truth of which are becoming more and more obvious This book argues conclusively that Roger Scruton was a

prophet for our times **Politics of Things** Michelle Christensen, Florian Conradi, 2020-02-24 In a state of ontological crisis all boundaries have been ruptured between nature and culture human and machine and object and subject We find ourselves exhaustively tackling the turmoil of our own designed circumstances as we emerge to become extensions of the extensions that we built In this practice based design theory project the authors share their experiments in negotiating power with things hacking mundane objects and thus their own everyday lives allowing themselves to be swayed and misled disrupted and called into question The experiments delineate a mode of critical cultural inquiry where design and sociology collide to elicit critical perspectives on the designer and the designed as we act within an entangled politics of things The Roger Scruton Reader , 2009-09-28 The Roger Scruton Reader is the first comprehensive collection of Scruton s writings spanning a period of thirty years It gathers selections from some of his earliest works such as *The Aesthetics of Architecture* 1979 to his most recent *Culture Counts* 2007 The book also includes a good number of unpublished essays It is made up of five sections the last section of all contains some of Scruton s most pugilistic pieces on Dawkins and on The Iraq War Scruton holds Burkean political views and his book *The Meaning of Conservatism* was a response to the growth of liberalism in the Conservative party At all times he is concerned to shift the right way from economics towards moral issues such as sex education and censorship laws But he has in fact written on almost every aspect of philosophy always in prose which is accessible and written with pellucid clarity **The Life of Francois de Salignac de la Motte Fenelon, Etc** Ramsay (Chevalier, Andrew Michael), 1771 *Citizens without Shelter* Leonard C. Feldman, 2018-07-05 One of the most troubling aspects of the politics of homelessness Leonard C Feldman contends is the reduction of the homeless to what Hannah Arendt calls the abstract nakedness of humanity and what Giorgio Agamben terms bare life Feldman argues that the politics of alleged compassion and the politics of those interested in ridding public spaces of the homeless are linked fundamentally in their assumption that homeless people are something less than citizens Feldman s book brings political theories together including theories of sovereign power justice and pluralism with discussions of real world struggles and close analyses of legal cases concerning the rights of the homeless In Feldman s view the bare life predicament is a product not simply of poverty or inequality but of an inability to commit to democratic pluralism Challenging this reduction of the homeless *Citizens without Shelter* examines opportunities for contesting such a fundamental political exclusion in the service of homeless citizenship and a more robust form of democratic pluralism Feldman has in mind a truly democratic pluralism that would include a pluralization of the category of home to enable multiple forms of dwelling a recognition of the common dwelling activities of homeless and non homeless persons and a resistance to laws that punish or confine the homeless

Goggin, 2011-02-23 Touching on topics including conservation efforts in specific locales social and political constructions of rhetorical place and space town planning and zoning issues and rhetorics of environmental remediation and sustainability this collection provides rhetoricians and

environmentalists a window into the discourse on sustainability **Tracking Thoreau** John Dolis, 2005 Arguing against the most recent trend in Thoreau studies Dolis contends that for Thoreau nature is primordially a construct it cannot be understood apart from language through cultural constructions techniques by means of which the subject composes the object Both nature and the very nature of nature itself are subject to this single configuration Subjectivity in turn entails its own technology its style It figures out both nature and the composition of its self as well Jacket Forming Communities of Hope in the Great Unraveling Alan J. Roxburgh, Roy Searle, 2025-05-08 In the midst of a massive unraveling where the churches find themselves disoriented and paralyzed this book invites leaders to embrace three practices formed out of God's engagements with God's people in Scripture and our traditions that direct us toward forming communities of hope **The Political Preacher** Joseph Rayner Stephens, 1839
