Our Daughters Land Past And Present:

Families in a Global Context Charles B. Hennon,Stephan M. Wilson,2011-02-14 Learn what trends and factors are influencing families globally How are families the same or different around the world Families in a Global Context puts the similarities and differences into perspective presenting an in depth comparative analysis of family life in 17 countries around the world Contributors discuss different countries family life by using a standard framework to review major influences and patterns The framework allows readers to do comparative reflection across several countries on a variety of daily living elements including social and economic forces such as urbanization and modernization changes in gender courtship spousal patterns and war This book provides an informative illustration of current as well as future trends of family life worldwide Each chapter in Families in a Global Context describes customary types of family patterns within each country s social organization and culture Important social economic political and other trends are explored in detail and major ethnic religious or other subcultures are noted emphasizing marriage and family patterns that differ from the more typical ones The book is extensively referenced and includes tables to clearly present data Countries explored in Families in a Global Context include European countries of Wales Sweden Germany Romania and Italy African countries of Sierra Leone South Africa and Kenya Middle Eastern countries of Turkey and Iran Asian and Oceanian countries of India China the Philippines and Australia Latin American countries of Brazil Mexico and Cuba Topics discussed for each country in Families in a Global Context include demographics mate selection patterns with an emphasis on the dynamics of couple formation marital roles the place and role of children and parenting in families socialization for gender roles differences in education employment and other opportunities major stressors affecting families coping and adaptation aging and life expectancy issues and much more Families in a Global Context is an insightful resource for researchers educators and advanced undergraduate and graduate students investigating comparative family topics of family life around the world and in cultural context [Women's History, Britain 1700-1850](#) Hannah Barker,Elaine Chalus,2004-11-15 Placing women s experiences in the context of the major social economic and cultural shifts that accompanied the industrial and commercial transformations of this period Hannah Barker and Elaine Chalus paint a fascinating picture of the change revolution and continuity that were encountered by women of this time A thorough and well balanced selection of individual chapters by leading field experts and dynamic new scholars combine original research with a discussion of current secondary literature and the contributors examine areas as diverse as the Enlightenment politics religion education sexuality family work poverty and consumption The authors most importantly realise that female historical experience is not generic and that it can be significantly affected by factors such as social status location age race and religion Providing a captivating overview of women and their lives this book is an essential purchase for the study of women s history and providing delightful little gems of knowledge and insight it will also appeal to any reader with an interest in this fascinating topic **Women in Early Modern Britain, 1450-1640** Christine Peters,2017-03-09

Although in its infancy the history of women in Wales and Scotland before and during the Reformation is now thriving A longer tradition of historical studies has shed light on many areas of women s experience in England Drawing on this historiography Christine Peters examines the significance of contrasting social economic and religious conditions in shaping the lives of women in Britain Gender assumptions were broadly similar in England Wales and Scotland but female experience varied widely *Women in Early Modern Britain 1450-1640* explores how this was influenced by various factors including changes in clanship and inheritance the employment of single women the punishment of pregnant brides and scolds the introduction of Protestantism and the fusion of fairy beliefs with ideas of demonological witchcraft Peters text is the first comparative survey and analysis of the diversity of women s lives in Britain during the early modern period *Mothers, Wives and Changing Lives* Sally Baker, Brian J Brown, 2011-02-15 The role of women in the recent history of Wales is an area that has received scant attention from social scientists and historians This book will therefore seek to fill that gap by drawing upon the family stories told about women s roles in education the chapel and the family to address some of the important gaps in the knowledge base Gender, Policy and Educational Change Sheila Riddell, Jane Salisbury, 2003-05-20 Gender equality has been a major educational theme for the past two decades and has become interwoven with other policy themes including those of marketisation and managerialism Contributors to this strong collection are key researchers in their fields and seek to address the following questions What patterns are discernible in the educational attainment of girls and boys over the past two decades To what extent are changes attributable to gender equality policies What form have gender equality policies taken in different parts of the UK What has been the impact of European equality policies How have gender equality policies been experienced by particular groups including pupils from ethnic minority and working class backgrounds This book aims to take an overall look at how significant have been the changes in experiences aspirations and culture of girls and boys and male and female teachers It explores how attempts to improve equal opportunities in education have fared and examines the tensions and contradictions in recent policies *Social Change in the History of British Education* Joyce Goodman, Gary McCulloch, WILLIAM RICHARDSON, 2013-09-13 This work provides an overall review and analysis of the history of education and of its key research priorities in the British context It investigates the extent to which education has contributed historically to social change in Britain how it has itself been moulded by society and the needs and opportunities that remain for further research in this general area Contributors review the strengths and limitations of the historical literature on social change in British education over the past forty years ascertain what this literature tells us about the relationship between education and social change and map areas and themes for future historical research They consider both formal and informal education different levels and stages of the education system the process and experience of education and regional and national perspectives They also engage with broader discussions about theory and methodology The collection covers a large amount of historical territory from the sixteenth century to the present including the emergence

of the learned professions the relationship between society and the economy the role of higher technological education the historical experiences of Ireland Scotland and Wales the social significance of teaching and learning and the importance of social class gender ethnicity and disability It involves personal biography no less than broad national and international movements in its considerations This book will be a major contribution to research as well as a general resource in the history and historiography of education in Britain

Early Modern Civil Discourses J. Richards, 2003-09-09 This collection explores the concept of civility in the early modern period It addresses a range of writings in English and Scots among them conduct manuals colonial tracts diaries letters dialogues poetry drama chronicles by English Welsh and Scots men and women in and about the Atlantic archipelago It explores the many meanings of civility in the early modern period it recovers some of the lost associations of civility as well as the complex use of the adjectives civil and barbarous in cultural and colonial encounters

Past and Present of the City of Springfield and Sangamon County, Illinois Joseph Wallace, 1904 Urban Culture in Medieval Wales Helen Fulton, 2012-05-15 This collection of twelve essays describes aspects of town life in medieval Wales from the way people lived and worked to how they spent their leisure time Drawing on evidence from historical records archaeology and literature twelve leading scholars outline the diversity of town life and urban identity in medieval Wales While urban histories of Wales have charted the economic growth of towns in post Norman Wales much less has been written about the nature of urban culture in Wales This book fills in some of the gaps about how people lived in towns and the kinds of cultural experience which helped to construct a Welsh urban identity

How Shakespeare Put Politics on the Stage Peter Lake, 2016-01-01 The politics of virtue Honour and its enemies women on top again Anti popery Divided we fall the politics of faction in time of war CHAPTER 6 Richard III political ends providential means The making of a Machiavel Monstrous bodies and providential signs Signs and prophecies The audience as high all seer Ambiguities of evil counsel From providence to predestination the return of legitimacy Richard III as a guide to the past present and future CHAPTER 7 Going Roman Richard III and Titus Andronicus compared
