## **Our Great Seal The Symbols Of Our Heritage Our Destiny:**

**Our Great Seal** E. Raymond Capt,1979      The Secret Founding of America Nicholas Hagger,2016-11-15 The widely accepted story of the founding of America is that The Mayflower delivered the first settlers from Plymouth to the New World in 1620 Yet in reality the Jamestown settlers had already become the first English speaking outpost thirteen years earlier in 1607 The Secret Founding of America introduces these two groups of founders the Planting Fathers who established the earliest settlements along essentially Christian lines and the Founding Fathers who unified the colonies with the Declaration of Independence and the Constitution and it argues that the new nation conceived in liberty was the Freemasons first step towards a new world order Drawing on original findings and an in depth understanding of the political and philosophical realities of the time historian Nicholas Hagger charts the connections between Gosnold and Smith Templars and Jacobites and secret societies and libertarian ideals He also explains how the influence of German Illuminati worked on the constructors of the new republic and shows the hand of Freemasonry at work at every turning point in America s history from Civil War to today s global struggles for democracy      **Secret Societies** Michael Howard,2007-12-05 An overview of how esoteric brotherhoods have shaped history Examines the secret chronology and clandestine causes of seminal world events Shows how secret societies feed into one another and how they have worked together For thousands of years secret societies guardians of ancient esoteric wisdom have exercised a strong and often crucial influence on the destiny of nations Though largely ignored by orthodox historians the Freemasons Knights Templar and Rosicrucians affected the course of the French and American Revolutions as well as the overthrow of the medieval feudal order Inevitably the true ideals and esoteric practices of these societies have at times been perverted by self serving individuals The Nazis and the Bolsheviks British security forces the founding fathers of America and the Vatican have all justified their actions for good or for ill by claiming the mystic ideals of secret societies Michael Howard explores these connections tracing their effects in politics and statecraft from the time of ancient Egypt up to the present He sheds light on the influence of secret societies on governments and in the lives of many well known figures including Frederick the Great John Dee Francis Bacon Benjamin Franklin Comte de Cagliostro Helena Blavatsky Rasputin and Woodrow Wilson He contends that the recent formation of the European Union was directed by an umbrella group of secret societies and reveals that though secret societies have been persecuted throughout history they have survived and continue to operate powerfully in world affairs today      Saint Germain Elizabeth Clare Prophet,1990-03      Da Vinci's Last Commission Fiona McLaren,2012-08-16 Imagine you have an old painting a Madonna and Child that has been in your family for years It is beautiful serene and spellbinding It hangs on your wall and for a long time you take it for granted But curiosity to know more about it gradually grows until it becomes irresistible You call in the experts They get excited What if that old family painting was thought to be by a pupil of Leonardo da Vinci or even the great master himself You start researching communicating with academics and institutions all over the world The results of

your research are nothing short of astounding What would you do if that painting pointed to one of the greatest heresies of our time And what if it revealed an incredible story that the Roman Catholic Church has been desperate to keep secret at all costs for centuries Da Vinci s Last Commission by Fiona McLaren is one of the most astonishing detective stories in the history of art It is also an account of the courage and tenacity of a woman who challenged the international art establishment orthodox history and the Church in her quest for the truth **The Big Book of Numerology** Shirley Blackwell

combines magic Freemasonry and the revelation in this spellbinding tale of the American Revolution as it might have been It s 1775 and in Europe an unseen Master peers into a darkened mirror to see the man whose destiny is to wear the victor s crown Across the sea in a land named for a virgin queen Gen George Washington is thrown from his horse and has a dream that will haunt him for the rest of his life Soon a reluctant Washington will be elected Commander in Chief of the new Continental Army and considered for the position of king of America and his rise will set in motion a chain of events that lead directly to rebellion But little do the colonists and Founding Fathers realize that they are part of a greater plan being used as pawns in another person s game of power and conquest A fascinating blend of history adventure and conjecture which will excite the reader page after page Abilene Reporter News **More Than Free** James Jensen,2023-11-29 About the Book
